*Multinational Operations, Alliances, and International Military Cooperation* Partnership for Peace. Consortium of Defense Academies and Security Studies Institutes. Military History Working Group, 2006      Multinational Operations, Alliances, and International Military Cooperation Robert S Rush, William W Epley, 2007-12-20 Center of Military History Publication 70 101 1      Multinational Operations, Alliances, and International Military Cooperation Past and Future , Center of Military History Publication 70 101 1      Multinational Operation, Alliances and International Military Cooperation Center of Center of Military History U.S. Army, 2014-12-02 International cooperation whether based on fixed alliances or on ad hoc coalitions obviously is now and will be in the future a main feature of practically all military operations It therefore seemed fitting to look more closely into this topic in the course of the papers presented at the Military History Working Group s MHWG s 2005 workshop More than forty scholars and officers from sixteen countries examined different aspects of military cooperation and in frank and spirited discussions contributed to a better understanding of many of the problems involved in the endeavor The conference was organized jointly by Austria and Canada represented respectively by the National Defense Academy Vienna and the Royal Military College of Canada Kingston Ont Erwin A Schmidl Austria and Ronald G Haycock Canada acted as cochairs with the local organization handled by Felix Schneider Johann Bartl and Ernst M Felberbauer Support from the Partnership for Peace Consortium PfPC was channeled through Vernon Hodges from the George C Marshall Center at Garmisch Partenkirchen Special credit for their untiring support is due to Brig Gen John S Brown William W Epley and Robert S Rush from the U S Army Center of Military History Indeed over the years the continued successes of MHWG conferences owe a great deal to Rush s personal organizational enthusiasm The papers presented at the conference dealt with a variety of topics under the umbrella theme alliances and multinational cooperation Taken together the papers covered several different national experiences during four centuries of history In opening remarks Erwin A Schmidl presented an overview of some of the issues associated with the general topic Whereas political military cooperation is nearly as old as humankind formal alliances are closely linked to the system of territorial states a system usually associated with the 1648 Peace of Westphalia and currently are undergoing dramatic changes that also will reflect on the very concept of alliances In any case numerous experiences from earlier operations reveal general characteristics that are still valid today and one of the MHWG s aims was to deal with issues currently relevant at a time when international associations and other alliance structures such as the European Union EU and the North Atlantic Treaty Organization NATO are undergoing a period of strain and transformation In this way the MHWG is able to contribute usefully to the overall success of the Partnership for Peace Consortium      **The 'Legal Pluriverse' Surrounding Multinational Military Operations** Robin Geiß, Heike Krieger, Henning Christian Lahmann, 2020 This book conceptualizes and examines theories of the Legal Pluriverse the multiplicity of rules that regulate multinational missions and the diverse actors involved The book sets out the various legal

**Grand Strategy and Military Alliances** Peter R. Mansoor, Williamson Murray, 2016-02-09 Alliances have shaped grand strategy and warfare since the dawn of civilization Indeed it is doubtful that the United States of America would have gained its independence without its Revolutionary War alliance with France Such alliances may prove even more important to international security in the twenty first century Economic and financial difficulties alone will ensure that policy makers attempt to spread the burden of securing vital interests onto other nations through alliances both formal organizations such as NATO and informal alliances of convenience as developed to wage the Gulf War in 1991 A team of leading historians examine the problems inherent in alliance politics and relationships in the framework of grand strategy through the lens of history Aimed at not just the military aspects of alliances the book uncovers the myriad factors that have made such coalitions succeed or fail in the past **Army History**, 2007 The GCC and the International Relations of the Gulf Matteo Legrenzi, 2015-07-31 The Gulf Cooperation Council GCC made up of Saudi Arabia Bahrain Kuwait Oman Qatar and the United Arab Emirates UAE is one of the most resilient sub regional organizations in the world and the most successful in the Arab world it has been the forum through which much security cooperation in this volatile sub region has taken place as well as the main representative for the UAE's territorial dispute with Iran over the Abu Musa and Tunbs islands the organization aims to enhance defence cooperation between its member states it also has significant potential to foster economic integration and to present an alternative form of leverage over the international oil markets Very little is known however about how the organization really works how decisions are actually taken as opposed to how this process is formally articulated in its charter and what the GCC's real impact on member states the Gulf and international relations is Drawing on cutting edge ir theoretical perspectives as well as unique firsthand access to GCC decision makers Matteo Legrenzi explains the mechanisms of Gulf cooperation and its limitations in the context of economic globalization diplomatic regionalization and the rise of Iran Combining historical context primary source investigations and theoretical analysis this is a comprehensive guide to the GCC and an indispensable resource for anyone concerned with the Gulf and the Middle East

A Military History of the Cold War, 1944-1962 Jonathan M. House, 2014-04-28 The Cold War did not culminate in World War III as so many in the 1950s and 1960s feared yet it spawned a host of military engagements that affected millions of lives This book is the first comprehensive multinational overview of military affairs during the early Cold War beginning with conflicts during World War II in Warsaw Athens and Saigon and ending with the Cuban Missile Crisis A major theme of this account is the relationship between government policy and military preparedness and strategy Author Jonathan M House tells of generals engaging in policy confrontations with their governments political leaders among them Anthony Eden Nikita Khrushchev and John F Kennedy many of whom made military decisions that hamstrung their own political goals In the pressure cooker atmosphere of atomic preparedness politicians as well as soldiers seemed instinctively to prefer military

solutions to political problems And national security policies had military implications that took on a life of their own The invasion of South Korea convinced European policy makers that effective deterrence and containment required building up and maintaining credible forces Desire to strengthen the North Atlantic alliance militarily accelerated the rearmament of West Germany and the drive for its sovereignty In addition to examining the major confrontations nuclear and conventional between Washington Moscow and Beijing including the crises over Berlin and Formosa House traces often overlooked military operations against the insurgencies of the era such as French efforts in Indochina and Algeria and British struggles in Malaya Kenya Cyprus and Aden Now more than fifty years after the events House describes understanding the origins and trajectory of the Cold War is as important as ever By the late 1950s the United States had sent forces to Vietnam and the Middle East setting the stage for future conflicts in both regions House s account of the complex relationship between diplomacy and military action directly relates to the insurgencies counterinsurgencies and confrontations that now occupy our attention across the globe

**Expert Cultures in Central Eastern Europe** Kohlrausch, Martin, Steffen, Katrin, Wiederkehr, Stefan, 2010-01-01 Das 20. Jahrhundert war das Jahrhundert des Experten Der Aufstieg des Experten als eines speziellen Typus des beruflich qualifizierten Individuums war das Ergebnis zunehmender Verwissenschaftlichung von Wirtschaft Gesellschaft und Politik In seiner öffentlichen Funktion handelt der Experte stets im Spannungsfeld zwischen einem universellen Verständnis von Wissenschaft und den politischen Anforderungen die der Nationalstaat an ihn stellt Der vorliegende englischsprachige Band fragt nach dem Schicksal des Experten in Ostmitteleuropa vom Ende der dynastischen Imperien nach dem Ersten Weltkrieg bis zum Untergang des Kommunismus Diese multiethnische Region mit ihrer gebrochenen Tradition von Staatlichkeit und politischen Systemen bildet ein ideales Fallbeispiel um die komplexen Beziehungen zwischen transnationaler Kooperation und nationaler Orientierung im Handeln von Experten herauszuarbeiten The 20th century can be described as the century of the expert The

emergence of the expert as a specific type of professionally qualified individual was a result of the growing scientification of economy society and politics In his public function the expert always operates between a universalist understanding of science and the politically defined requirements of the nation state This volume examines the fate of the expert in Central Eastern Europe from the breakdown of the dynastic empires after World War I to the end of Communism This multiethnic region with its turbulent tradition of statehood and changing political systems provides an ideal case to reveal the complex relationship between the transnational cooperation among experts on the one hand and their national orientation on the other

*Unified Military Industries of the Soviet Bloc* Pál Germuska, 2015-02-17 This book draws a subtle picture of Warsaw Pact economic and military cooperation by presenting a complete branch the military industry from the perspective of a smaller member state Hungary It demonstrates that the military industry s cooperation played a crucial role in the development of economic integration within the Soviet Bloc and it was in this sector that the strongest most efficient integration was established The book builds on recently declassified documentation from Soviet led international economic organizations to give insight into the backstage debates of partner states to shed light on the intensive conflicts and clashes of interests between the nations and to highlight the bureaucratic decision making of the Eastern bloc s supranational organ The transnational analysis is supplemented by the presentation of the national viewpoint how Hungary intended to vindicate its interests what measures Budapest took to optimize international cooperation and what kind of new markets were discovered outside the Warsaw Pact

**The Boxer Rebellion and the Great Game in China** David J. Silbey, 2025-09-23 A concise history of an uprising that took down a three hundred year old dynasty and united the great powers The year is 1900 and Western empires are locked in entanglements across the globe The British are losing a bitter war against the Boers while the German kaiser is busy building a vast new navy The United States is struggling to put down an insurgency in the South Pacific while the upstart imperialist Japan begins to make clear to neighboring Russia its territorial ambition In China a perennial pawn in the Great Game a mysterious group of superstitious peasants is launching attacks on the Western powers they fear are corrupting their country These ordinary Chinese called Boxers by the West because of their martial arts showmanship rise up seemingly out of nowhere Foreshadowing the insurgencies of our recent past they lack a centralized leadership and instead tap into latent nationalism and deep economic frustration to build their army Many scholars brush off the Boxer Rebellion as an ill conceived and easily defeated revolt but in *The Boxer Rebellion and the Great Game in China* the military historian David J Silbey shows just how close the Boxers came to beating back the combined might of the imperial powers Drawing on the diaries and letters of allied soldiers and diplomats he paints a vivid portrait of the war Although their cause ended just as quickly as it began the Boxers would inspire Chinese nationalists including a young Mao Zedong for decades to come

**Oil and the Great Powers** Anand Toprani, 2019-04-04 The history of oil is a chapter in the story of Europe s geopolitical decline in the twentieth century During the era of the two world wars a lack of oil constrained Britain and Germany from exerting their considerable economic and military power independently Both nations efforts to restore the independence they had enjoyed during the Age of Coal backfired by inducing strategic over extension which served only to hasten their demise as great powers Having fought World War I with oil imported from the United States Britain was determined to avoid relying upon another great power for its energy needs ever again Even before the Great War had ended Whitehall implemented a strategy of developing alternative sources of oil under British control Britain s key supplier would be the Middle East already a region of vital importance to the British Empire whose oil potential was still unproven As it turned out there was plenty of oil in the Middle East but Italian hostility after 1935 threatened transit through the Mediterranean A shortage of tankers ruled out re routing shipments around Africa forcing Britain to import oil from US controlled sources in the Western Hemisphere and depleting its foreign exchange reserves Even as war loomed in 1939 therefore Britain s quest for independence from the United States had failed Germany was in an even worse position than Britain It could not import oil from overseas in wartime due to the threat of blockade while accumulating large stockpiles was impossible because of the economic and financial costs The Third Reich went to war dependent on petroleum synthesized from coal domestic crude oil and overland imports primarily from Romania German leaders were confident however that they had enough oil to fight a series of short campaigns that would deliver to them the mastery of Europe This plan derailed following the victory over France when Britain continued to fight This left Germany responsible for Europe s oil requirements while cut off from world markets A looming energy crisis in Axis Europe the absence of strategic alternatives and ideological imperatives all compelled Germany in June 1941 to invade the Soviet Union and fulfill the Third Reich s ultimate ambition of becoming a world power a decision that ultimately sealed its fate
