Music Festivals and the Politics of Participation

Robinson, 2016-04-29 The spread of UK music festivals has exploded since 2000 In this major contribution to cultural studies the lid is lifted on the contemporary festival scene Gone are the days of a handful of formulaic large events dominating the market place Across the country hundreds of boutique gatherings have popped up drawing hundreds of thousands of festival goers into the fields Why has this happened What has led to this change In her richly detailed study industry insider Dr Roxy Robinson uncovers the dynamics that have led to the formation and evolution of the modern festival scene Tracing the history of the culture as far back as the fifties this book examines the tensions between authenticity and commerce as festivals grew into a widespread professionalized industry Setting the scene as a fragmented yet highly competitive market Music Festivals and the Politics of Participation examines the emergence of key trends with a focus on surrealist production and popular theatricality For the first time the transatlantic relationship between British promoters and the social experiment come festival Burning Man is documented uncovering its role in promoting a politics of participation that has dramatically altered the festival experience Taking an in depth approach to examining key events including the fastest growing independent music festival in recent years Hampshire's BoomTown Fair the UK market is shown to have produced a scene that champions co production and the democratization of festival space This is a vital text for anyone interested in British culture

Festivals and Values

Waldemar Kuligowski, Marcin Poprawski, 2023-11-27 This is an original book covering all the past areas of research anyone would need to know about festivals and event based culture It is based on academic research but written in a way relevant for cultural professionals uniquely explaining the cultural power of festivals and with original empirical research the realities of organisation and management and social and economic value Dr Jonathan Vickery Reader in Cultural Policy Studies and Director Centre for Cultural and Media Policy Studies University of Warwick This book discusses music festivals in the context of the specific values they convey Today music festivals are a permanent feature of national regional and local cultural policies a valuable asset in the tourism industry and a significant source of income for an

industry that has been adversely affected by the steady decline in physical sales of music. For the audience on the other hand it is an opportunity to escape from everyday life, multi sensory contact with art, an activity that stands for full body participation, a cultural phenomenon that drags people out of their homes like no other. There is one common denominator linking the above mentioned features of contemporary music festivals, namely the world of values. This is evident from the non accidental locations, festivals spaces, design, planning and the line ups created consciously with great care. The organisers' missions, logos and other symbolic organisational artefacts communicate specific values. These values are explicitly mentioned by artists and audiences, they can be easily identified in online forums and media reports, participant behaviour, festival rituals and additional festival programs are shaped on the basis of values and cooperation is built between the festival and the local community. As the reader will quickly realize, numbers and statistics sit alongside descriptions and quotations in this book and the organisers' statements are accompanied by the opinions of academics, but above all the festival audience is given a voice, both through quotations and their drawings. This voice is by no means uniform as it turned out that research into values was often transformed into a pretext for spinning tales about one's life situation, one's political preferences and one's understanding of freedom and responsibility. Memories were mixed with declarations, joy with regret, curses with dreams, prose with poetry. Thomas Pettitt was not wrong in noting that Social history has learnt to appreciate festival as a valuable window on society and its structures. The authors have tried to open all the windows available. Students and researchers in the fields of cultural anthropology, social psychology, folklore studies, comparative religion, sociology of culture, cultural policy, cultural history and cultural management will find this book highly interesting.

Musical Courier and Review of Recorded Music, 1915 *A Curious Mix of People* Greg Beets, Richard Whymark, 2023-10-17

Ask anyone outside of Austin what they know about the city and chances are the first thing they'll mention is the music. While the Armadillo Era has been well chronicled, there is no book about Austin music in the 90s. Greg Beets and Richard Whymark were part of the scene at that time, making zines, playing in bands and DJ'ing at the college radio station and have put together an oral history of the decade. Beets and Whymark are not trying to cover all of the music made in Austin during the 1990s; they're most interested in the underground punk community in which they participated. While a few of those bands got big (e.g. Spoon), the music remained mostly local DIY. It was driven by live shows, though local media, radio, TV, print, record stores and a few labels were also important to the story. Beets and Whymark devote chapters to those elements, but almost half of the chapters are based around a particular club. Organizing the book around physical spaces is not only appropriate for telling the story of the music, it is nice framing for the larger story of Austin. As the authors note, the city was still a relatively sleepy place in the early 1990s, with vacant blocks downtown and loads of small clubs that opened and closed simply because music minded people wanted a place to play. By 1999, longtime venues like the Electric Lounge and Liberty Lunch were bulldozed to make way for development and tech companies.
