Muslim Nationalism and the New Turks Jenny Barbara White, 2013 Turkey has leapt to international prominence as an economic and political powerhouse under its elected Muslim government and is looked on by many as a model for other Muslim countries in the wake of the Arab Spring This book reveals how Turkish national identity and the meanings of Islam and secularism have undergone radical changes in today s Turkey and asks whether the Turkish model should be viewed as a success story or cautionary tale Jenny White shows how Turkey s Muslim elites have mounted a powerful political and economic challenge to the country s secularists developing an alternative definition of the nation based on a nostalgic revival of Turkey s Ottoman past These Muslim nationalists have pushed aside the Republican ideal of a nation defined by purity of blood language and culture They see no contradiction in pious Muslims running a secular state and increasingly express their Muslim identity through participation in economic networks and a lifestyle of Islamic fashion and leisure For many younger Turks religious and national identities like commodities have become objects of choice and forms of personal expression This provocative book traces how Muslim nationalists blur the line between the secular and the Islamic supporting globalization and political liberalism yet remaining mired in authoritarianism intolerance and cultural norms hostile to minorities and women

Cammett,Pauline Jones,2022-02-22 The Oxford Handbook of Politics in Muslim Societies examines a wide range of topics concerning regimes and regime change electoral politics political attitudes and behavior beyond voting social mobilization economic performance and development outcomes and social welfare and governance The Handbook shifts focus away from the Arab world as the barometer of politics in the Muslim world recognizing that the Islamic world spans several regions including Africa Southeast Asia South Asia and Central Asia This expanded geography enables a thorough investigation of which relationships if any hold across Muslim majority states in different regions of the world **The New Spirit of**

Islamism Ezgi Basaran,2024-05-02 This book explains the aspirations and concerns of Islamist actors in the aftermath of the Arab Uprisings by looking at two sets of relationships between Turkey s ruling AKP and the Egyptian Muslim Brotherhood and the AKP and Tunisia s Ennahda It presents a unique analysis of the interplay between the AKP Ennahda and the Muslim Brotherhood characterizing the actors the structure and the main features of the relationship and thereby illuminating a political confluence among these three critical Islamist entities in the aftermath of the Arab Uprisings Existing scholarship has assumed that this relationship revolves primarily around an ideological Islamist agenda however this research demonstrates a more complex and nuanced situation Ezgi Basaran puts forward that the interplay was not based on an aspiration of building an ideological Islamist bloc in the MENA region but rather revolved around the concept of political success and had a strong neoliberal ethos Basaran draws on data collected from over 60 interviews with high level members of the AKP Ennahda and Muslim Brotherhood to demonstrate how in the hope of achieving success and legitimization Ennahda and the Muslim Brotherhood have relied on the managerial prescriptions provided by the AKP The contents of this success formula were derived from the AKP s experience as an Islamist party in power since 2002 and includes tactics on crisis evasion legitimization winning elections and maintaining power **Feminist and LGBTI+ Activism across Russia,**

Scandinavia and Turkey Selin Çağatay,Mia Liinason,Olga Sasunkevich,2021-12-16 What do struggles for women s and LGBTI rights in Russia Turkey and the Scandinavian countries have in common And what can actors who struggle for rights and justice in these contexts learn from each other Based on a multisited ethnography of feminist and LGBTI activisms across Russia Turkey and the Scandinavian countries this Open Access book explores transnational struggles on various levels from the micro scale of the everyday to large scale spectacular events Drawing on ethnographic insights and encounters from various sites this book conceptualizes resistance as situated in the grey zone between barely perceptible even hidden or covert forms of mundane activist practices and highly visible street protests gathering large crowds Taking the reader

beyond the dichotomies of visible/invisible and public/private this book advances new understandings of resistance, solidarity and activism in transnationalizing feminist and queer struggles illustrated by rich ethnographic case studies from Russia, Scandinavia and Turkey. *Theocracy, Secularism, and Islam in Turkey* Christopher Houston, 2021-08-12 In this novel and lucid work Christopher Houston clarifies a particular modern style and practice of politics that he calls anthropocracy. In the name of popular sovereignty, anthropocracies de-legitimize the rule of God/s even as they re-deploy it to stabilize the rule of the representatives of the people, all the while obfuscating their political conscription of the divine. In distinguishing anthropocracy from varieties of other secular and laicist political arrangements as well as from theocracy, this book also gives readers a brilliant solution to what it calls the Turkish puzzle: the dilemma over how to best describe and analyze state, religion and state-society relations in the Turkish Republic. This work convincingly undermines two orthodox presumptions about Turkish politics: the claim that Turkish modernity should be considered an example of secularity and the accusation that the current AKP government should be interpreted as Islamic. On the contrary, it argues that both Kemalism and the AKP continue to institute an anthropocratic Republic. The Oxford Handbook of Turkish Politics Güneş Murat Tezcür, 2022-02-04 The Oxford Handbook of Turkish Politics includes in-depth analyses of a wide range of issues in conversation with the broader scholarly literature on authoritarianism and democratization, political economy, electoral politics, politics of identity, social movements, foreign policy and the politics of art. With contributions by leading experts, the Handbook is an authoritative source offering state-of-the-art reviews of the scholarship on Turkish politics. The volume is an analytical, comprehensive and comparative overview of contemporary politics in a country that literally and figuratively epitomizes being at the crossroads. *The Oxford Handbook of Turkish Politics* Güneş Murat Tezcür, 2022 The study of politics in Turkey: new horizons and perennial pitfalls Güneş Murat Tezcür Democratization theories and Turkey Ekrem Karako Ruling ideologies in modern Turkey Kerem Ktem Constitutionalism in Turkey Aslı B. The Jarring Road to Democratic Inclusion Aviad Rubin, Yusuf Sarfati, 2016-08-30 This edited volume brings together chapters that offer theoretically pertinent comparisons between various dimensions of Israeli and Turkish politics Each chapter covers a different aspect of state society interactions in both countries from a comparative perspective including the public role of religion political culture women rights movements religious education religious movements marriage regulation labor market inclusion and ethnic minorities Israel and Turkey share significant similarities such as state formation under nationalist ideologies familiarity with democratic governance since the 1940s strong affiliation with the West recent resurgence of religious parties ongoing conflict with ethno national minority groups that challenge the dominant national project contemporary popular protests against the incumbent regime and recent serious erosion of democratic rights At the same time they differ on major variables such as size majority religion geopolitical location level of

economic development policy towards ethnic minorities and institutional arrangements to managing the state religion relations The presence of these differences in face of common backgrounds facilitates analytically grounded comparisons in a host of dimensions Therefore employing a case oriented comparative method this book provides historically interpretative and causally analytic accounts on the politics of both societies The contributions reveal the dynamic and complex rather than one dimensional and linear nature of political processes in both settings This empirically rich and theoretically sophisticated volume should contribute to a better understanding of these two important states and no less important stimulate new directions for comparative research especially on Middle East regimes social movements and democratization
