Michaelsen,2023-07-03 Team Based Learning TBL is a unique powerful and proven form of small group learning that is being increasingly adopted in higher education Teachers who use TBL report high levels of engagement critical thinking and retention among their students TBL has been used successfully in both small and large classes in computer supported and online classes and because it is group work that works it has been implemented in nearly every discipline and in countries around the world

This book introduces the elements of TBL and how to apply them in the social sciences and humanities. It describes the four essential elements of TBL: readiness, assurance, design, and application. Exercises, permanent teams, peer evaluation, and pays particular attention to the specification of learning outcomes, which can be a unique challenge in these fields. The core of the book consists of examples of how TBL has been incorporated into the cultures of disciplines as varied as economics, education, literature, politics, psychology, and theatre. The authors explain why they felt a need to change how they taught and why they chose TBL. Furthermore, each chapter provides examples of the assignments and exercises they use to help their students achieve the specific learning outcomes of their courses. At a time of increasing course sizes and emphasis on learning outcomes, TBL offers the means to meet such demands while connecting students to their coursework and stimulating their intellectual engagement. *A Team-Based Learning Guide for Faculty in the Health Professions* Dr. David

Hawkins, 2014-07-30 Team-Based Learning (TBL) is a well-defined pedagogy that combines individual pre-class guided learning with small group in-class active learning. TBL emphasizes the importance of individual accountability, team work, critical thinking, and the application of basic fundamental concepts in solving real-world problems. The role of the instructor is to clearly articulate the learning outcomes and objectives, create challenging problems for students to solve, and probe their reasoning in reaching conclusions. The purpose of this guide is to provide faculty with a concise set of instructions on how to create a course built on a TBL frame. Using the backward design method, faculty will be guided through the process of first developing learning outcomes, then identifying fundamental course concepts and defining specific learning objectives, followed by generating guided learning materials and finally creating robust instruments for assessing student learning.

Group and Team Work Ricardo Flores, Antonina Bauman, 2024-01-18 By setting out a step-by-step guide on the implementation of a theoretically robust team-work-centric approach to education, *Group and Team Work* explains valuable team-work theory and practical dynamics. It details specific approaches educators can take to effectively play different roles, such as that of the facilitator, instructor, and coach, thus depicting a varied and detailed picture of team work in higher education. *Innovative Team Selling* Eric Baron, 2013-05-08 Sales teams have the potential to do great work. Most sales teams do not devote enough energy to meeting dynamics and process awareness. The skills related to this are critical components of effective teamwork: collaboration and innovation, both internally and externally. *Innovative Team Selling* places the focus squarely on what will actually make team selling work within organizations, large and small. It outlines how to help your teams master new skills in five specific categories: interpersonal communication, presentation, problem solving, and facilitation. Author Eric Baron also explores the challenging issue of leveraging resources to develop innovative solutions for clients in order to compete effectively in a globalized economy. Offers actionable strategies and techniques to improve collaboration, innovation, and team processes. Demonstrates how to put the right members on the sales call and how to leverage their expertise before, during, and after the call. Explores in depth how teams can work effectively on a day-to-day basis.
