just because the founder or founding team has a blind spot or two Not only do these hidden blind spots ensure their failure but in many cases with better planning or a greater more holistic understanding of the market forces the blind spot can be overcome Or better yet the founder can realize that their idea is doomed from the start and consider other better options to solve the problem they are attacking The goal of this book is to help founders and their teams identify blind spots and avoid the most common pitfalls of starting a digital health company Having spent time with founders VC companies and most importantly prospective digital health startups patterns have emerged regarding those startups that are successful and those that die an often slow and painful death While not a recipe for guaranteed success having a guidebook of sorts can help navigate the perils associated with building a digital health company and can very likely improve the odds of success The book will go through the typical life cycle of an early stage company from ideation to the first few customer deals and highlight best practices for tackling the challenges at each stage including What problem are you trying to solve And why are you trying to solve this problem Who will help you build the solution and company How will you build the solution How will you pitch your company How will you sell your solution And what does success look like to you your stakeholders and your customers

Strategy Brad MacKay, Mikko Arevuo, David Mackay, Maureen Meadows, 2020 A new breed of strategy textbook for a new generation of strategists Strategy Theory Practice Implementation puts the implementation of strategy centre stage to help

tomorrow's business professionals think, talk and act like a strategist **Power BI Data Analysis and Visualization** Suren Machiraju, Suraj Gaurav, 2018 Power BI Data Analysis and Visualization provides a roadmap to vendor choices and highlights why Microsoft's Power BI is a very viable cost-effective option for data visualization. The book covers the fundamentals and most commonly used features of Power BI but also includes an in-depth discussion of advanced Power BI features such as natural language queries, embedding Power BI dashboards and live streaming data. It discusses real solutions to extract data from the ERP application Microsoft Dynamics CRM and also offers ways to host the Power BI Dashboard as an Azure application extracting data from popular data sources like Microsoft SQL Server and open source PostgreSQL. Authored by Microsoft experts, this book uses real-world coding samples and screenshots to spotlight how to create reports, embed them in a webpage, view them across multiple platforms and more. Business owners, IT professionals, data scientists and analysts will benefit from this thorough presentation of Power BI and its functions *Strategic Management* John A. Parnell, 2013-01-15 Balancing theory with practice, this fully updated fourth edition of John A. Parnell's acclaimed text continues to provide detailed, accessible coverage of the strategic management field. Taking a global perspective, the text addresses concepts sequentially from external and internal analysis to strategy formulation, strategy execution and strategic control. To help readers build their analytic skills as they master course concepts, Parnell aligns each chapter's key concepts with 25 case analysis steps. Current examples and high-interest cases largely drawn from The Wall Street Journal and Financial Times illustrate the key role of strategic management in the United States and around the world. Ideal for the capstone strategic management course, Strategic Management is appropriate for a range of undergraduate and graduate courses.
