Gutschow, 2021-08-30 **Midwifery & Childbirth** J. Pence, Childbirth is both a profound experience and a contested subject The experience of women has complex medical historical cultural and public policy dimensions In this book Judith Rooks achieves the rare feat of bringing these dimensions together in a way that can be appreciated by health care planners midwives physicians and women considering pregnancy The author vividly describes the history of struggle among health care providers over the meaning and handling of the birth process The medical model and the midwifery model continue to collide today the former focusing on pathology and monitoring the patient for it the latter focusing on birth as a normal healthy process The education and professional training of those who care for women during pregnancy childbirth and the important postpartum period reflects these divisions Obstetrics family physicians midwives nurses and others play roles in providing the necessary care In focusing on midwives Rooks deals fairly and sensitively between certified nurse midwives and direct entry midwives most of whom lack formal educational preparation in midwifery This book describes clearly and with documented scientific evidence the specific benefits of the midwifery approach to the care of pregnant women and their families In clear language accessible to the lay reader Rooks summarizes the research on the unintended effects of obstetrical interventions such as episiotomies epidurals C sections and continuous electronic fetal heart monitoring and the effectiveness and important benefits of an approach that focuses on the positive potential of childbearing as contrasted with a narrow focus of potential for pathology While she acknowledges the importance of access to medical care extensive research shows the advantages of the midwifery approach Much that passes for routine obstetric care in the United States has been found to be unnecessary ineffective or even harmful when applied to women with normal pregnancies The arguments over the control of childbirth are set in the context of recent changes in health care including the current transition to managed care the impact of the women's movement and movements for natural childbirth home birth and breastfeeding and women's fear of and concern about the pain associated with labor Rooks also explains the influence of the reports and recommendations of prestigious scientific and health policy commissions and of federal initiatives and programs

on the care provided to pregnant women in this country She contrasts U S practices with those of comparable industrialized countries like the European states Canada Australia New Zealand and Japan Transcultural Concepts in Nursing Care Margaret M. Andrews,2003 Now in its Fourth Edition this transcultural nursing text conveys the importance of diverse cultural knowledge for the evaluation of patient outcomes understanding persons in clinical settings and appropriate responses to clinical situations during the nurse client interaction Detailed theory is discussed and each chapter contains awareness exercises to ensure comprehension of the nursing role as trusted health care providers Coverage includes cultural variation in lifestyle communication and beliefs New to this edition is a two color design revised content on assessment and applications of concepts a new chapter on culturally appropriate interventions and more case studies research studies and clinical vignettes Maternal Child Nursing Care - E-Book Shannon E. Perry, Marilyn J. Hockenberry, Kitty Cashion, Kathryn Rhodes Alden, Ellen Olshansky, Deitra Leonard Lowdermilk, 2022-03-05 Master the essentials of maternity and pediatric nursing with this comprehensive all in one text Maternal Child Nursing Care 7th Edition covers the issues and concerns of women during their childbearing years and children during their developing years It uses a family centered problem solving approach to patient care with guidelines supported by evidence based practice New to this edition is an emphasis on clinical judgment skills and a new chapter on children with integumentary dysfunction Written by a team of experts led by Shannon E Perry and Marilyn J Hockenberry this book provides the accurate information you need to succeed in the classroom the clinical setting and on the Next Generation NCLEX RN examination Focus on the family throughout the text emphasizes the influence of the entire family in health and illness Expert authors of the market leading maternity and pediatric nursing textbooks combine to ensure delivery of the most accurate up to date content Information on victims of sexual abuse as parents and human trafficking helps prepare students to handle these delicate issues Nursing Alerts highlight critical information that could lead to deteriorating or emergency situations Guidelines boxes outline nursing procedures in an easy to follow format Evidence Based Practice boxes include findings from recent clinical studies Emergency Treatment boxes describe the signs and symptoms of emergency situations and provide step by step interventions Atraumatic Care boxes teach students how to manage pain and provide competent care to pediatric patients with the least amount of physical or psychological stress Community Focus boxes emphasize community issues provide resources and guidance and illustrate nursing care in a variety of settings Patient Teaching boxes highlight important information nurses need to communicate to patients and families Cultural Considerations boxes describe beliefs and practices relating to pregnancy labor and birth parenting and women s health Family Centered Care boxes draw attention to the needs or concerns of families that students should consider to provide family centered care **Nurse Practitioners and Nurse Anesthetists: The Evolution of the Global Roles** Sophia L. Thomas, Jackie S. Rowles, 2023-06-05 As the only book of its kind this publication provides students clinicians researchers ministries of health and others with a valuable thorough and focused understanding of the

development of the nurse practitioner NP and nurse anesthetist NA two advanced practice nursing roles which have improved access to care and healthcare outcomes as bilateral role development has progressed internationally As the two roles have significant clinical differences the book will appraise each role separately within two sections utilizing different approaches After a thorough platform of defining and describing each role including history and origins education practice regulation and leadership the book guides by example utilizing unique country case studies divided by WHO regions as exemplars for international role development as well as an outlook for the future of advanced practice nursing on the global stage The book expands on the tenets and principles as outlined in the ICN Guidelines on Advanced Practice Nursing for Nurse Practitioners 2020 and Nurse Anesthetists 2021 providing the reader with an internationally vetted and accepted comprehension of the roles guiding and inspiring future role development to improve global health care

Fundamentals of Nursing & Midwifery Helen Hall,Paul Glew,Johanna Rhodes,2022-01-03 A trusted person centred resource to start you on the path to professional success Fundamentals of Nursing and Midwifery is a popular foundational nursing text specifically developed for Australian and New Zealand students This comprehensive resource provides a detailed overview of key information with person centred care highlighted throughout to focus on the individualistic interactive and holistic nature of nursing and midwifery practice It uses accessible language that introduces students to the why as well as the how of nursing and midwifery It focuses not only on a person s physical healthcare needs but also on the intellectual emotional sociocultural and spiritual aspects of care In this way students learn to be holistic health care professionals while acquiring the foundational knowledge procedures and skills required for successful nursing or midwifery practice

Community-based Maternity Care Geoffrey Marsh,Mary Renfrew,1998-10-22 This important book makes the case for placing maternity care in the community It has been written by a multidisciplinary group The first section considers the role and function of the participants in community based maternity care the woman the midwife and the GP The second section discusses four major contemporary issues the radically changing social background the economics of care audit and education of the carers Next the major clinical challenges in maternity care are tackled how to reduce the differences in morbidity and mortality which are associated with differences in age social class and ethnicity the care of disadvantaged groups prematurity and low birth weight and their prevention technology used in childbirth and the fetal origins of adult disease Finally all aspects of the clinical care carried out by Gps and midwives are covered The editors hope that after reading this book midwives Gps and obstetricians should find the theory underpinning their work has been sharply defined and that their work will be more effective and evidence based The editors a GP and a midwife anticipate the resolution of the current tensions between midwife GP and obstetrician and look forward to a responsive effective and sensitive service for mothers and babies in the next millennium

School of Nursing University of California, San Francisco. School of Nursing,1979

Wings of Gauze Barbara Bair,Susan E. Cayleff,1993 Minority women are also less likely to have personal physicians to have quality health

insurance coverage or to be treated with respect and understanding in negotiating with health care institutions. However, many have as resources belief systems and traditions of caretaking expertise and mutual understanding that broaden dominant ways of perceiving well or ill being in the world. Thus their stories are about both oppression and empowerment, victimization as well as the strength to reshape and redefine. The emphasis in this collection is on changing perception, giving voice, and addressing the issues of racial discrimination. There is also discussion of solutions, ways to personal empowerment and better health, ways of changing outreach to more equitably instill the benefits of preventive education, ways of altering the structures of care offered through health institutions, and ways to think about self help.
