*Deliberate Practice for Psychotherapists* Tony Rousmaniere, 2016-12-01 This text explores how psychotherapists can use deliberate practice to improve their clinical effectiveness. By sourcing through decades of research on how experts in diverse fields achieve skill mastery, the author proposes it is possible for any therapist to dramatically improve their effectiveness. However, achieving expertise isn't easy. To improve, therapists must focus on clinical challenges and reconsider century-old methods of clinical training from the ground up. This volume presents a step-by-step program to engage readers in deliberate practice to improve clinical effectiveness across the therapists' entire career span, from beginning training for graduate students to continuing education for licensed and advanced clinicians.

[Discovering Body Language](#) Alan Elangovan, 2024-05-01 *Discovering Body Language: DBL For Your EYES Only* is a classic; it gives a timeless message about the use of body language in different circumstances. The book surmises both the positive and negative messages that people portray through the course of conversation. The aim of this book is to sharpen your eyes to see the hidden. A lot of people do not know the signs of deception, even if they are glaring, and that is why such individuals fall prey to unwanted circumstances. If you make this book your companion, then it becomes your inner sight to have a thorough understanding of people's thoughts and intents towards you. This book only discusses an aspect of the areas covered in *The Encyclopedia of Body Language*, a best-seller by the author. In the latter, the author holistically x-rayed all aspects of body language, and readers can convert body language knowledge to profit. It is a book that sets captives of communication free. The greatest giveaway of this book is that you will know how to read body language effectively. The author does not offer limited knowledge here; rather, he gives every reader the master key to make informed decisions by listening to the body language of their co-interlocutors.
