Transmedia Storytelling Jennifer Camden, Kate Faber Oestreich, 2018-12-14 This volume charts the evolution of Pemberley Digital s transmedia adaptations of nineteenth century novels in order to interrogate the uneasy relationship between transmedia storytelling and consumer culture It first examines two Austen centered films *Lost in Austen* and *Austenland* that present immersive Austen experiences that anticipate Pemberley Digital s transmedia adaptations bridging traditional film adaptations and transmedia s participatory culture Subsequent chapters turn to Pemberley Digital s transmedia adaptations of Austen s and Shelley s novels to argue that although such adaptations may appear feminist in their emphasis on female protagonists their larger narratives expose a subtext of anxiety about unstable gender roles financial vulnerability and the undervaluation of career specific skill sets both for the characters and the production company itself

The study provides a robust theoretical framework within which to read transmedia adaptations of classic literature illuminating both the potential of and the challenges facing digital and transmedia storytellers and participants

Romantic Capabilities Mike Goode, 2020-10-02 *Romantic Capabilities* discusses the relationship between popular new media uses of literary texts Devising and modelling an original critical methodology that bridges historicist literary criticism and reception studies with media studies and formalism this volume contends that how a literary text behaves when it encounters new media reveals medial capabilities of the text that can transform how we understand its significance for the original historical context for which it was created Following an introductory theoretical chapter that explains the book's unconventional approach to the archive *Romantic Capabilities* analyzes significant popular media behaviors exhibited by three major Romantic British literary corpuses the viral circulation of William Blake's pictures and proverbs across contemporary media the gravitation of Victorian panorama painters and 3D photographers to Walter Scott's historical fictions and the ongoing popular practice of writing fanfiction set in the worlds of Jane Austen's novels and their imaginary country estates The result is a book that reveals Blake to be an important early theorist of viral media and the law Scott's novels to be studies in vision that helped give rise to modern immersive media and Austenian realism to be a mode of ecological design whose project fanfiction grasps and extends It offers insight into the politics of virality the dependence of immersion on a sense of frame and the extent to which eighteenth century landscape gardening anticipated Deleuzian ideas of the virtual by granting existence to reality's as yet unrealized capabilities
