Migrant Imaginaries Figures In Italian Migration Literature Italian Modernities:

Migrant Imaginaries Jennifer Burns, 2013 This book addresses a rich corpus of contemporary narratives by authors who have come to Italy as migrants. It traces the figurative commonalities that emerge across these diverse texts which together suggest the shape and substance of what might be termed migrant imaginaries. Examining five central figures and concepts: identity, memory, home, place and space, and literature across a range of novels and stories by writers of African and Middle Eastern origin, the study elucidates the affective and expressive processes that inflect migrant story telling. Drawing on the work of cultural theorists such as Sara Ahmed and Michel de Certeau, as well as on recent work in postcolonial literary studies, memory studies, human geography and feminist theory, the book probes the varied works of Shirin Ramzanali, Fazel Amara, Lakhous, Mohsen Melliti, Younis Tawfik and many others. Each chapter posits alternative interpretations of the ways in which the interior experience of encounters across territories, cultures and languages is figured in this literature. In doing so, the book moves towards a wider apprehension of recent Italian migration narratives as suggestions of what a new notion of contemporary Italian literature might look like, figured at once within and beyond the boundaries of a national literature, a national language and a national cultural imaginary.

Il pensiero letterario come fondamento di una testa ben fatta
Marina Geat, 2017-02-01 La pubblicazione degli Atti del convegno internazionale *Il pensiero letterario come fondamento di una testa ben fatta* si propone di dare ampia disseminazione a riflessioni di studiosi che, a partire da approcci disciplinari diversi, si interrogano tutti circa l'importanza del testo letterario quale fattore strutturante di un modo complesso e ricco di guardare il mondo, di comprendere meglio se stessi e gli altri, di concepire la rete di relazioni nel tempo e nello spazio che compone il nostro ambiente di vita fisico e mentale, di elaborare nuove prospettive di visione o forme di accesso alla realtà e al linguaggio più intime e dirette, come fa ad esempio la poesia. Sul solco del concetto di testa ben fatta, da Montaigne a Edgar Morin, la letteratura appare come una fondamentale modalità di connessione e di comprensione dei molteplici aspetti che realizzano la nostra umanità per noi che siamo innanzi tutto degli esseri di parola e di testi. Le Scienze dell'educazione traggono certamente vantaggio da questa consapevolezza anche e soprattutto nel mondo attuale.

Transnational Lampedusa Jacopo Colombini, 2023-12-07 This book examines how Lampedusa, Italy's southernmost island, has become a transnational symbol representing migration to Europe from the Global South. It analyses how three very different associations have used the name Lampedusa as a means of restoring a sense of subjectivity or agency to migrants themselves. Jacopo Colombini argues that the work of the Archivio delle Memorie Migranti (Rome), the self-organised refugee group Lampedusa in Hamburg, and the Lampedusa-based Collettivo Askavusa offers an alternative to the stereotypical, often racially connoted public discussion of migrant presence in Italy and Europe. He also demonstrates, however, that the marginalisation of migrant and refugee voices in the public discourse is also partially and unavoidably reproduced in the cultural projects that wish to restore their agency.
