*The History and Politics of Free Movement within the European Union* Saila Heinikoski, 2020-11-26 The right to free movement is the one privilege that EU citizens value the most in the Union but one that has also created much political controversy in recent years as the debates preceding the 2016 Brexit referendum aptly illustrate This book examines how European politicians have justified and criticized free movement from the commencement of the first Commission of the EU 25 in November 2004 to the Brexit referendum in June 2016 The analysis takes into account the discourses of Heads of State Governments and Ministers of the Interior or Home Secretaries of six major European states the UK Germany France Italy Spain and Romania In addition to these national leaders the speeches of European Commissioners responsible for free movement matters are also considered The book introduces a new conceptual framework for analysing practical reasoning in political discourses and applies it in the analysis of national free movement debates contextualised in respective migration histories In addition to results related to political discourses the study unearths wider problems related to free movement including the diversified and variegated approaches towards different groups of movers as well as the exclusive attitudes apparent in both discourses and policies The History and Politics of Free Movement within the European Union is of interest to anyone studying national and

European politics and ideologies contemporary history migration policies and political argumentation     Labour Migration in the European Union Gönül Oğuz,2020-03-12 No analysis of migration in Europe today can avoid consideration of the role of the EU institutions as well as the member states in policy making This is because the obstacles for labour mobility which have confronted the EU in the post enlargement period have been multi dimensional in nature have encompassed many different aspects of European integration process and have operated at many different levels Recent developments in the free movement of labour in Europe entail a comprehensive analysis of the dynamic of migration policy process contextualising institutional change cooperation control and competition between the EU institutions and the member states This book provides a picture of how governance of labour migration is constructed managed negotiated and decided at the European level It brings together in an informed and well organized way some of the key issues in the face of current migration crises and Brexit

New Challenges in Immigration Theory Crispino Akakpo,Patti Lenard,2017-10-02 As far as immigration theory is concerned the attempt to reconcile concern for all persons with the reality of state boundaries and exclusionary policies has proved difficult within the limits of normative liberal political philosophy However the realpolitik of migration in today s environment forces a major paradigm shift We must move beyond standard debates between those who argue for more open borders and those who argue for more closed borders This book aims to show that a realistic utopia of political theory of immigration is possible but argues that to do so we must focus on expanding the boundaries of what are familiar normative positions in political theory Theorists must better inform themselves of the concrete challenges facing migration policies statelessness brain drain migrant rights asylum policies migrant detention practices climate refugees etc We must ask what is the best we can and ought to wish for in the face of these difficult migration challenges Blake Carens and Cole offer pieces that outline the major normative questions in the political theory of immigration The positions these scholars outline are challenged by the pieces contributed by Lister Ottonelli Torresi Sager and Silverman These latter pieces force the reformulation of the central positions in normative political theory of immigration This book was originally
