Love, Justice, and Education William H. Schubert, 2010-01-01 Love, Justice, and Education by William H. Schubert brings to life key ideas in the work of John Dewey and their relevance for the world today. He does this by imagining a continuation of a highly evocative article that Dewey published in the New York Times in 1933. Dewey wrote from the posture of having visited Utopia. Schubert begins each of thirty short chapters with a phrase or sentence from Dewey's article in response to which a continuous flow of Utopians consider what is necessary for educational and social reform among Earthlings. Schubert encourages the Utopians, who have studied Earthling practices and literatures, to recommend from their experience what Earthlings need for educational and social reform and how they can address obstacles to that reform. The Utopians speak to myriad implications of Dewey's report by drawing upon a wide range of philosophical, literary, and educational ideas, including many of Dewey's other writings. Their central message is that loving relationships and empathic dedication to social justice are necessary for educational reform that responds wholeheartedly to learner needs and interests. True to Dewey's original position, such education must be built upon social reform that works to overcome acquisitive society based on greed, the principal impediment to realizing human potential, democratic society, and educational relationships that enhance it. To overcome the debilitating acquisitiveness that plagues Earth is the challenge for educators and all human beings who seek to involve the young in composing their lives and cultivating a world of integrity, beauty, justice, love, and continuously evolving capacities of humanity. **From San Francisco Eastward** Carolyn Grattan Eichin, 2020-02-12 Finalist for the 2021 Willa Literary Award in Scholarly Non-Fiction, Finalist for the 2021 Will Rogers Medallion Award in Western Non-Fiction. Carolyn Grattan Eichin's *From San Francisco Eastward* explores the dynamics and influence of theater in the West during the Victorian era. San Francisco, Eichin argues, served as the nucleus of the western theatrical world, having attained prominence behind only New York and Boston as the nation's most important theatrical center by 1870. By focusing on the West's hinterland communities, theater as a capitalist venture driven by the sale of cultural forms is illuminated against the backdrop of urbanization. Using the vagaries of the West's notorious boom-bust economic cycles, Eichin traces the fiscal

demographic and geographic influences that shaped western theater With an emphasis on the 1860s and 70s this thoroughly researched work uses distinct notions of ethnicity class and gender to examine a cultural institution driven by a market economy From San Francisco Eastward is a thorough analysis of the ever changing theatrical personalities and strategies that shaped Victorian theater in the West and the ways in which theater as a business transformed the values of a region
