Essays From the North American Review (Classic Reprint) Allen Thorndike Rice, 2018-01-12 Excerpt from Essays From the North American Review When the North American Review was projected the object of its founders was to give public voice to a group of students scholars and thinkers in and around the university at Cambridge and the capital of Massachusetts then not unaptly called the Athens of the New World and the form of the Review was suggested by the amazing success which had attended the experiment so boldly ventured upon but a few years before by Jeffrey Brougham Horner Sydney Smith About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works [The North American Review](#) ,1866 **The North American Review (Classic Reprint)** ,2015-07-07 Excerpt from The North American Review The constitution takes no notice of the man who is present but abstains from acting It is only those who are present acting and doing business that it regards Members present doing nothing imperil no right and do no injury to any one but members present who attempt to make laws affecting the rights and liberties of the whole people may do infinite mischief to millions Therefore the constitution requires that a majority of the House shall do whatever is done Our government is founded upon the immovable conviction in the minds of our people that freedom is their birthright that governments are instituted to secure it and that to be rightful they must exist by the consent of the governed In every line of our organic laws jealousy of power is written and in all questions of doubt our creed is He who stands still stands best When affirmative action is to be taken when the status quo is to be abandoned it must be done by the consent and cooperation of the greater part Our whole history is an indictment against excesses in the legislation and administration of other governments The Declaration of Independence proclaimed to the world that we held that we were endowed by our Creator with certain inalienable rights These we cannot permit any government to take from us nor can we voluntarily surrender them Here is defined a boundary beyond which no government can go When the constitution was formed governing power was divided and subdivided among many agencies and closely laced within the corsets and stays of federal and State constitutions The constitution lays down clearly and explicitly the principle of majority rule not a majority of a minority but a majority of the whole and this principle is as clearly and explicitly ignored by the parliamentary assemblies of Europe No government in Europe stands upon the inalienable right of its citizens or subjects None of them stand upon the equal rights of all before the law England for many generations has been looking through a glass darkly at the freeman with equal rights and privileges France catches a meteoric glimpse occasionally when it throws her into transports

the least familiar kind of historical writing It is in some respects the most difficult requiring and certainly far the most laborious study The facts for civil history we gather from personal experience or from the examination of a comparatively few authors whose statements the historian transfers with such modification and commentary as he pleases to his own pages But in literary history the books are the facts and pretty substantial ones in many cases which are not to be mastered at a glance or on the report of another It is a tedious process to read through a library in order to decide that the greater part is probably not worth reading at all Literary history must come late in the intellectual development of a nation It is the history of books and there can be no history of books till books are written It presupposes moreover a critical knowledge an acquaintance with the principles of taste which can come only from a wide study and comparison of models It is therefore necessarily the product of an advanced state of civilization and mental culture About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

The North American Review, Vol. 20 (Classic Reprint), 2015-07-13 Excerpt from The North American Review Vol 20 The death of Lord Byron without depressing the price of stocks or affecting the election of President has produced a deep and general feeling of regret throughout the country The loss of a truly great poet is in fact an event that affects immediately in their occupations and their pleasures a much larger number of persons than that of a distinguished statesman or of a military conqueror Politicians and warriors move the mighty springs that regulate the destinies of nations and determine the happiness or misery of the individuals that compose them but their personal influence upon these individuals is extremely limited Few see or converse with them Still fewer enjoy their intimacy Their reputation with the multitude is matter of history while they live and when they die it is still the same The public know as much or more of them than they did before But the powerful writer and especially the gifted poet addresses himself directly to the heart and makes a warm personal friend of every man of education and feeling within the circle of his readers While the others produce their effects upon the condition of individuals by acting directly upon large masses he brings out his general effects by operating immediately upon the minds of individuals About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve

historical works *The North American Review, Vol. 9 (Classic Reprint)* ,2015-07-11 Excerpt from The North American Review Vol 9 This work was intended in part as a defence of the character of the late unfortunate queen of France against the calumnies that were circulated respecting her at the opening of the French revolution Madame Campan apprehended that the libellous pamphlets of that time had made a lasting impression upon public opinion in and out of France On this head we are inclined to think that her fears were greatly exaggerated Whatever may have been the weaknesses or the faults of the royal family in their days of prosperity the atrocities perpetrated upon them by the revolutionary cannibals and the heroic virtues which they displayed in their hour of trial very justly and naturally excited a strong feeling in their favor If there is now any error in the general estimate of their characters it is not probably on the adverse side This is more particularly true of the queen who exhibited throughout higher qualities than the king and as an elegant and accomplished female excited a deeper sentiment of interest and pity About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *The North American Review, Vol. 128 (Classic Reprint)* ,2018-01-17 Excerpt from The North American Review Vol 128 The fishing rights exercised by American citizens in the neighborhood of the eastern coast of British North America have been for nearly a century the subject of irritation and controversy between the peoples and governments of the two countries Every effort to compose disputes and prevent difficulties has usually produced only a fresh and copious crop of doubtful questions and new points of collision About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *The North American Review, Vol. 78 (Classic Reprint)* ,2015-07-18 Excerpt from The North American Review Vol 78 This work betrays still other luculent tokens of its authors nationality The Anglo Saxon mind builds upon a broad basis of facts or phenomena successive series of generalizations pyramid wise and culminating in some single law of matter or of mind The German inverts the pyramid reasons from premises intangibly minute to theories that span the universe With him a possible indication is often an unanswerable argument and immense top heavy piles of ratiocination rest on a mere hairs breadth of assumed or half proved fact Bunsen s reasoning is often of this class and acquiescence in his

conclusions not infrequently demands a voluntary ignoring of the lower strata of the lofty yet compact fabric. It is this habit of the German mind that fits it so eminently for the obscurer departments of literary and historical research. In the very nature of things an isolated event must often leave only the slightest and most questionable tokens of its authenticity or an unofficial document only the faintest traces of its authorship and its purpose. A strong effort of the imagination is needed at once to develop the capacities of the hypothesis thus feebly indicated and to exclude the score of possible theories which might equally satisfy all the conditions of the problem. But to the vision which can thus follow up in the dark the merest sand tracks of probability a blaze of light is dazzling and bewildering and as to truths and facts patent to all the rest of the world German philosophy and theology are prone to grope in incurable blindness. But as to the salient doctrines the canonical records and the historical evidence of Christianity Bunsen is free from the sceptical tendencies of his nation. He is a man of sincere faith and profound religious reverence. His subtlety is exercised not in undermining the foundations but in strengthening the buttresses of evangelical truth. His intellectual instincts are all in the direction of Christian belief and his earnestness in its behalf in numerous instances supplies the almost invisible thread of inference and hypothetical reasoning.

The North American Review, Vol. 45 (Classic Reprint), 2015-07-12. Excerpt from The North American Review Vol 45. To speak correctly it was their imperfect civilization, their ignorance of the means and the subjects of communication which thus kept them asunder. Now on the contrary a change in the domestic institutions of one country can hardly be effected without a corresponding agitation in those of its neighbours. A treaty of alliance can scarcely be adjusted without the intervention of a general congress. The sword cannot be unsheathed in one part of Christendom without thousands leaping from their scabbards in every other. The whole system is bound together by as nice sympathies as if animated by a common pulse and the remotest countries of Europe are brought into contiguity as intimate as were in ancient times the provinces of a single monarchy. This intimate association has been prodigiously increased of late years by the unprecedented discoveries which science has made for facilitating intercommunication. The inhabitant of Great Britain that ultima Thule of the ancients can now run down to the extremity of Italy in less time than it took Horace to go from Rome to Brundisium. A steamboat of fashionable tourists will touch at all the places of note in the Iliad and Odyssey in fewer weeks than it would have cost years to an ancient Argonaut or a crusader of the Middle Ages. Every one of course travels and almost every capital and noted watering place on the continent swarms with its thousands and Paris with its tens of thousands of

itinerant Cockneys many of whom perhaps have not wandered beyond the sound of Bow bells in their own little island Few of these adventurers are so dull as not to be quickened into something like curiosity respecting the language and institutions of the strange people among whom they are thrown while the better sort and more intelligent are led to study more carefully the new forms whether in arts or letters under which human genius is unveiled to them The effect of all this is especially visible in the reforms introduced into the modern systems of education In both the universities recently established in London the apparatus for instruction instead of being limited to the ancient tongues is extended to the whole circle of modern literature and the editorial labors of many of the professors show that they do not sleep on their posts About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
