Oedipus Philosopher Meridian Crossing Aesthetics:

Oedipus, Philosopher Jean-Joseph Goux, 1993 If the logic of the Oedipus myth were subjected to rigorous and thoroughgoing analysis with the tools of anthropology comparative mythology and narratology might it invalidate the approach to the Oedipus complex that Freud derived from his psychoanalytic experience This book answers yes arguing that instead of the Oedipus complex explaining the myth the Oedipus myth explains the complex The author argues that the Oedipus myth is an historical anomaly a myth of failed royal investiture or of avoided masculine initiation Does this mean that we must return to the wisdom of tradition and strike out twenty five centuries of Oedipal history The author knows very well that such a solution would be fantasy and he concludes by speculating on how his analysis might contribute to a vision that has eluded Freudian psychoanalysis how to surpass the Oedipus complex with all the ethical consequences this would entail

The Muses Jean-Luc Nancy, 1996 Jean Luc Nancy s probing analysis of art and the sensible presentation of an idea examines why there are several arts and not just one He uses Hegel s conclusions in Aesthetics and the Phenomenology of Spirit as support for his theory

Gender and difference in the Middle Ages Sharon A. Farmer, Carol Braun Pasternack, Nothing less than a rethinking of what we mean when we talk about men and women of the medieval period this volume demonstrates how the idea of gender in the Middle Ages no less than now intersected in subtle and complex ways with other categories of difference Responding to the insights of postcolonial and feminist theory the authors show that medieval identities emerged through shifting paradigms that fluidity conflict and contingency characterized not only gender but also sexuality social status and religion This view emerges through essays that delve into a wide variety of cultures and draw on a broad range of disciplinary and theoretical approaches Scholars in the fields of history as well as literary and religious studies consider gendered hierarchies in western Christian Jewish Byzantine and Islamic areas of the medieval world

Sparks of the Logos Daniel Boyarin, 2003 This work covers the typological relation of rabbinic Judaism to Christianity and provides a re examination by going back to the roots of a rabbinic Judaism that would not manifest some of the deleterious social ideologies and practices that modern orthodox Judaism generally does

The Tragedy of Fatherhood Silke-Maria Weineck, 2014-08-28 Winner of the 2014 Aldo and Jeanne Scaglione Prize for Comparative Literary Studies awarded by the Modern Language Association Theories of power have always been intertwined with theories of fatherhood paternity is the oldest and most persistent metaphor of benign legitimate rule The paternal trope gains its strength from its integration of law body and affect in the affirmative model of fatherhood the biological father the legal father and the father who protects and nurtures his children are one and the same and in a complex system of mutual interdependence the father of the family is symbolically linked to the paternal gods of monotheism and the paternal ruler of the monarchic state If tragedy is the violent eruption of a necessary conflict between competing legitimate claims The Tragedy of Fatherhood argues that fatherhood is an essentially tragic structure Silke Maria Weineck traces both the tensions

and various strategies to resolve them through a series of readings of seminal literary and theoretical texts in the Western cultural tradition. In doing so she demonstrates both the fragility and resilience of fatherhood as the most important symbol of political power. A long history of fatherhood in literature, philosophy and political thought. *The Tragedy of Fatherhood* weaves together figures as seemingly disparate as Aristotle, Freud, Kafka and Kleist to produce a stunning reappraisal of the nature of power in the Western tradition.

The Work of Fire Maurice Blanchot, 1995. Maurice Blanchot is arguably the key figure after Sartre in exploring the relation between literature and philosophy. Blanchot developed a distinctive limpid form of essay writing; these essays in form and substance left their imprint on the work of the most influential French theorists. The writings of Barthes, Foucault and Derrida are unimaginable without Blanchot. Published in French in 1949, *The Work of Fire* is a collection of twenty-two essays originally published in literary journals. Certain themes recur repeatedly: the relation of literature and language to death, the significance of repetition, the historical, personal and social function of literature, and simply the question what is at stake in the fact that something such as art or literature exists. Among the authors discussed are Kafka, Mallarmé, Hölderlin, Baudelaire, Rimbaud, Sartre, Gide, Pascal, Valéry, Hemingway and Henry Miller.

The Experience of Freedom Jean-Luc Nancy, 1993. The most systematic, radical and lucid treatise on freedom that has been written in contemporary Continental philosophy; this book combats the renunciation of freedom attested in modern history by articulating the experience of freedom at work in thought itself.

Philosophical Inquiry, 2000. *On the Name* Jacques Derrida, 1995. The name. What does one call this? What does one understand under the name of name? And what occurs when one gives a name? What does one give then? One does not offer a thing; one delivers nothing and still something comes to be, which comes down to giving that which one does not have. As Plotinus said of the Good: What happens above all when it is necessary to sur-name, renaming there where precisely the name comes to be found lacking. What makes the proper name into a sort of sur-name, pseudonym or cryptonym, at once singular and singularly untranslatable? Jacques Derrida thus poses a central problem in contemporary language, ethics and politics which he addresses in a linked series of the three essays: *Passions*, *An Oblique Offering* is a reflection on the question of the response, on the duty and obligation to respond, and on the possibility of not responding, which is to say on the ethics and politics of responsibility. *Sauf le nom*. *Post-Scriptum* considers the problematics of naming and alterity or transcendence raised inevitably by a rigorous negative theology. Much of the text is organized around close readings of the poetry of Angelus Silesius. The final essay, *Khôra*, explores the problem of space or spacing of the word *khôra* in Plato's *Timaeus*. Even as it places and makes possible nothing less than the whole world, *khôra* opens and dislocates, displaces all the categories that govern the production of that world, from naming to gender. In addition to readers in philosophy and literature, *Khôra* will be of special interest to those in the burgeoning field of space studies, architecture, urbanism, design.

Points... Jacques Derrida, 1995. A collection of 23 interviews given over the last 2 decades illustrating the extraordinary breadth of Derrida's concerns. *Writings* "Chatter" Peter Fenves, Peter David Fenves, 1993.

This book shows that in chatter Kierkegaard uncovered a specifically linguistic mode of negativity which became the medium in which a non speculative and non historicism presentation of history could be carried out The author examines in detail those writings of Kierkegaard in which he undertook complex negotiations with the threat and also the promise of chatter

Topographies Joseph Hillis Miller,1995 This book investigates the function of topographical names and descriptions in a variety of narratives poems and philosophical or theoretical texts primarily from the 19th and 20th centuries but including also Plato and the Bible Topics include the initiating efficacy of speech acts ethical responsibility political or legislative power the translation of theory from one topographical location to another the way topographical delineations can function as parable or allegory and the relation of personification to landscape *The Dualist* ,1994 *The Journal of Philosophy* ,1993 Covers topics in philosophy psychology and scientific methods Vols 31 include A Bibliography of philosophy 1933

Aporias Jacques Derrida,1993 Derrida s new book bears a special significance because it focuses on an issue that has informed the whole of his work up to the present One of the aporetic experiences touched upon is that my death can never be subject to an experience that would be properly mine that I can have and account for yet that there is at the same time nothing closer to me and more properly mine than my death **Commentaries - Kommentare** Glenn W. Most,1999

Posthumous People Massimo Cacciari,1996 Cacciari discusses Vienna at a crucial turning point in Western thinking as the 19th century ended treating this extraordinarily rich concentration of people and events as the hub upon which wheeled into the 20th century **An Essay on the Tragic** Peter Szondi,2002 This is a succinct and elegant argument for the

specificity of a philosophy of tragedy as opposed to a poetics of tragedy espoused by Aristotle **Bibliographic Guide to Psychology** New York Public Library. Research Libraries,1993 **Doing Cultural Theory** David Walton,2012-03-26 Will

be a very useful tool for any student trying to make sense of the vast expanses of contemporary cultural theory and criticism Well written and admirably self reflective it combines rigorous explications and applications of many of the most influential concepts and theorists Lawrence Grossberg University of North Carolina Accessible and insightful throughout offering help to both experienced and inexperienced students of cultural theory Highly recommended John Storey University of Sunderland **Doing Cultural Theory** teaches more than just the basics of cultural theory It unpacks its complexities with real life examples and shows readers how to link theory and practice This book Offers accessible introductions to how cultural studies has engaged with key theories in structuralism poststructuralism and postmodernism Teaches straightforward ways of practising these theories so students learn to think for themselves Uses practice boxes to show students how to apply cultural theory in the real world Guides students through the literature with carefully selected further reading recommendation Other textbooks only show how others have analyzed and interpreted the world **Doing Cultural Theory** takes it a step further and teaches students step by step how to do cultural theory for themselves
