Manuel bibliographique des sciences psychiques ou occultes Albert Louis Caillet, 1913 **The Politics of Musical Identity** Annegret Fauser, 2017-07-05 This volume explores the way in which composers, performers and critics shaped individual and collective identities in music from Europe and the United States from the 1860s to the 1950s. Selected essays and articles engage with works and their reception by Richard Wagner, Georges Bizet in an American incarnation, Lili and Nadia Boulanger, William Grant Still and Aaron Copland, and with performers such as Wanda Landowska and even Marilyn Monroe. Ranging in context from the opera house through the concert hall to the salon and from establishment cultures to counter-cultural products, the main focus is how music permits new ways of considering issues of nationality, class, race and gender. These essays, three presented for the first time in English translation, reflect the work in both musical and cultural studies of a distinguished scholar whose international career spans the Atlantic and beyond.
