Tomorrow's Learning: Involving Everyone. Learning with and about Technologies and Computing Arthur Tatnall, Mary Webb, 2018-01-25 This book constitutes the refereed post conference proceedings of the 11th IFIP TC 3 World Conference on Computers in Education WCCE 2017 held in Dublin Ireland in July 2017 The 57 revised full papers and 10 short papers were carefully reviewed and selected from 116 submissions during two rounds of reviewing and improvement The papers are organized in the following topical sections futures of technology for learning and education innovative practices with learning technologies and computer science education and its future focus and development Also included is The Dublin Declaration which identifies key aspects of innovation development successes concerns and interests in relation to ICT and education

PRINCE2® Guidelines for writing Project Initiation Documentation Rik Pennartz, 2018-07-01 This document is written for educational purposes for project managers who need to write a document with all agreements between the Project Board and the Project Manager The PID or Project Initiation Documentation is made during the Initiation Stage of a project before actual design development and delivery is being done The document is one of the main documents in the PRINCE2 method and is comparable to the Project Charter or Project Definition Document **Managing the Urgent and Unexpected**

Stephen Wearne, Keith White-Hunt, 2016-05-13 Sometimes unanticipated threats or opportunities create a situation in which work is required unexpectedly On these occasions such urgent and unexpected work demands an instant start in contrast to the often lengthy processes of investigation evaluation development selection and planning normal in businesses and public services before the start of a project Managing the Urgent and Unexpected explores what is different managerially if work is unexpected its implementation is urgent and an immediate start it is required The authors draw on twelve cases ranging from the launch of the Freeview television system in the United Kingdom to the sifting and removal of the New York World Trade Center pile of debris following the 9 11 terrorist attack They summarise how the response to each of these events was managed demonstrate that opportunities may sometimes be created in the face of adversity and suggest how normal organizations can prepare to manage abnormal demands Urgent and unexpected projects have to be rare in business or government to be economically and socially tolerable And yet organizations can and should be prepared for the unexpected The lessons offered here will help private and public organizations plan how to authorize and support future urgent work to take advantage of immediate new business opportunities or to protect or restore systems and services *Notes on Map Identification*, 1945 **The PRINCE2 Practitioner** Colin Bentley, 2015-04-24 Struggling to apply the principles of PRINCE2 in practice Need guidance on adapting the process for smaller projects PRINCE2 for Practitioners provides the solution This practical reference matching the details and requirements of the 2009 PRINCE2 manual contains new and updated real life examples and case studies links between related components and processes and clear guidance on how to fine tune the method to help you manage projects successfully whatever the context and size An affordable alternative to
