Oil In Troubled Waters The Politics Of Oil In The Timor Sea:

Oil in Troubled Waters Lansell Taudevin, 2009-12-13 When East Timor voted in 1999 to opt for independence from the occupation of Indonesia its main hope for economic stability lay in accessing a fair share of the oil reserves of the Timor Sea. The island of Timor is separated from the Australian mainland by the same sea. Who would have the right to benefit from that oil? Australia already had oil wells operating on the North West shelf and claimed a maritime boundary that reached hundreds of kilometers across the Timor Sea to the edge of its continental shelf only a few kilometers from Timor's eastern coastline. Was this fair? Was it legal? This book looks at the complexities of boundaries, maritime economic and the many other terms beloved of international lawyers. It examines how the laws of the sea affected other nations with narrow and not so narrow bodies of water between them and how disputes were settled or in several cases never settled. Where do you draw the line between two countries? Draw it down the middle, the median or where? Half way. It seems so simple. But it is not. Oil Under Troubled Water Bernard Collaery, 2020-03-03 In May 2018 Bernard Collaery, a former Attorney General of the Australian Capital Territory and long term legal counsel to the government of East Timor, was charged by the Australian Commonwealth Director of Public Prosecutions with conspiracy to breach the Intelligence Services Act 2001. He was forbidden from talking about the charges against him but under parliamentary privilege independent MP Andrew Wilkie revealed what has since been described as Australian politics' biggest scandal. Five years earlier, after ASIO officers raided Collaery's home and office, Collaery told journalists that ASIS had been bugging the East Timorese government during negotiations over Timor Sea oil. He was about to represent East Timor as well as calling the evidence of a former senior ASIS agent known publicly only as Witness K at The Hague in a case against the Australian government. *Oil Under Troubled Water* relates the sordid history of Australian government dealings with East Timor and how the actions of both major political parties have enriched Australia and its corporate allies at the expense of its tiny neighbour and wartime ally, one of the poorest nations in the world. **East Timor, René Girard and Neocolonial Violence** Susan Connelly, 2022-01-13 In a new historical interpretation of the relationship between Australia and East Timor, Susan Connelly draws on the mimetic theory of René Girard to show how the East Timorese people were scapegoated by Australian foreign policy during the 20th century. Charting key developments in East Timor's history and applying three aspects of Girard's framework, the scapegoat, texts of persecution and conversion, Connelly reveals Australia's mimetic dependence on Indonesia and other nations for security. She argues that Australia's complicity in the Indonesian invasion and occupation of East Timor perpetuated the sacrifice of the Timorese people as victims, thus calling into question the traditional Australian values of egalitarianism and fairness. Connelly also examines the embryonic conversion process apparent in levels of recognition of the innocent victim and of the Australian role in East Timor's suffering, as well as the consequent effects on Australian self-perception. Emphasising Girardian considerations of fear, suffering, forgiveness and conversion, this book offers a fresh perspective on Australian and Timorese relations that in turn

sheds light on the origins and operations of human violence **A Bridge over Troubled Waters** Helene Ruiz Fabri,Erik Franckx,Marco Benatar,Tamar Meshel,2020-10-12 A Bridge Over Troubled Waters Dispute Resolution in the Law of International Watercourses and the Law of the Sea takes stock of the progress made thus far in the resolution of disputes concerning international watercourses and the oceans in addition to considering their future paths Written by renowned academics and practitioners the chapters of this edited collection enable the reader to reflect on the achievements and setbacks that characterize each field and their potential for cross fertilization Four major themes are explored the shifting boundaries of traditional methods of dispute settlement the contributions made by relevant organizations to dispute settlement the interplay between substantive and procedural rules and case studies on dispute resolution in the Nile and the Arctic **Exporting Democracy** Sophia Z Kovachevich,2022-05-05 The world is in ferment The situation of today s world is at its worst There is trouble in every part of the world We were supposed to have peace and prosperity at the end of the Great Wars And for a few decades we did The Cold War kept peace of sorts and no major wars were fought But it all changed with the collapse of the USSR We lost the balance of power and only USA dominated At the moment there are wars all over the world on every continent it is the super powers attacking small nations The excuses are taking democracy to those countries by force through war or war on terror We are terrorising small nations in the name of ending terror by bringing not only terror but also death destruction and annihilation in our wake This book sets out to comprehensively look at the reasons behind the present condition of the world today It looks to uncover if there is any real democracy in the world today and the types of democracy available to us Not everything is suited to everyone We certainly do not want totalitarian rule in the name of democracy But that is the way we are going It is time to stop Take stock and decide do we want a better world or do we want to destroy this world Perhaps we are the final throes of our civilisation and don t even realise it *South-East Asian Seas, Oil Under Troubled Waters* Mark J. Valencia,1985 Issued under the auspices of the East West Environment and Policy Institute the East West Center Honolulu Hawaii *The Idealist* Nicholas Jose,2023-09-01 NEW WORK BY CELEBRATED NOVELIST AND ESSAYIST NICHOLAS JOSE SET AGAINST THE TURMOIL OF THE INDEPENDENCE MOVEMENT IN EAST TIMOR Set in Australia East Timor and Washington in the lead up to the independence referendum in East Timor in 1999 The Idealist is a novel which explores the entanglement of private and public life It is a political mystery the portrait of a marriage a reflection on friendship and a study of a personality as it breaks down under pressure Jake an Australian defence analyst is torn between his support for the people of East Timor whose commitment to independence in the face of mounting violence he has experienced personally and his sense of responsibility for and complicity in the actions of his government When he is found dead in the garage of his Washington home after passing secret intelligence to his American counterpart his wife Anne wants justice The narrative is told from changing perspectives moving through time and memory in search of what really happened It is a story above all about the formation necessity and human cost of idealism **Narrative of**

Denial Peter Job, 2021-06-01 The Indonesian invasion of East Timor in 1975 led to a prolonged conflict severe human rights abuses and a large loss of life From 1975 to 1983 the Indonesian military's campaign of encirclement and annihilation destroyed rural food resources creating the famine that took most of the lives lost during the occupation The Australian governments of Gough Whitlam and Malcolm Fraser presented themselves as advocates for human rights and the international rule of law while viewing relations with Indonesia as key to their foreign policy objectives These positions came into conflict due to the Indonesian invasion of East Timor Based upon an extensive study of Australian foreign affairs archives as well as interviews A Narrative of Denial demonstrates how the Australian government responded to the conflict by propagating a version of events that denied the reality of the catastrophe occurring in East Timor It worked to protect the Suharto regime internationally thereby allowing it to continue its repression relatively unhindered This remarkable story will unsettle existing perceptions of how Australia operates in world affairs Diplomacy, Communication, and Peace William Maley, 2020-11-15 This book is composed of interconnected essays which reflect on challenging new issues related to diplomacy communication and peace This book begins by drawing out some of the challenges for diplomacy that arise from modern theories of semantics and of strategic communication as well as those posed by the need for secrecy and by the activities of agents of influence It then proceeds to examine important issues in contemporary diplomacy including refugee diplomacy humanitarian diplomacy sovereignty norms and consular activities It concludes with an exploration of dilemmas that confront attempts to promote peace through multilateral means such as the limitations of peacemaking diplomacy the difficulty of promoting democratic governance and the problems associated with dealing with morally repugnant actors The book is grounded in the conception of diplomacy as a social practice with multiple players and recognises that the state has many different elements and that state actors live in worlds shaped not just by their relations with other states but also by their own complex domestic politics This book will be of much interest to students of diplomacy foreign policy and International Relations **The Success of Small States in International Relations** Godfrey Baldacchino, 2023-06-09 The Success of Small States in International Relations highlights the normality and power of small states in international relations This book overturns the stereotype that small states however defined are weak and are or ought to be consigned to the margins of international relations It argues that small states are not punching above their weight or even anomalies since it is large states which are the anomaly in the global system The text unpacks the nature and character of small state success while also looking critically at thirteen episodes in modern history where small states singly or collectively emerged victorious in confrontations with larger states The case studies globally sourced are bookended by conceptual and analytic reviews of what these events mean for diplomacy international relations and small states more generally This book will appeal to scholars and students of comparative political science and international relations particularly from small states as well as policy makers and senior small state government officers *Carbon Capture Utilization and Storage* Eduardo G.

Pereira,Alberto J. Fossa,Thomas L. Muinzer,2025-03-29 This book delves into how carbon capture utilization and storage CCUS technologies might help accelerate the worldwide transition to sustainable energy while meeting Paris Agreement targets This comprehensive handbook examines how governments businesses and society may effectively implement CCUS programs to cut carbon emissions and promote economic development The book begins with basic ideas and exposes readers to CCUS technologies and their critical role in reaching net zero emissions by 2050 It investigates successful CCUS installations from various countries and suggests prospects for host governments and energy firms The book combines technical innovation and carbon neutrality initiatives while also addressing regulatory frameworks and normative factors that are critical for wider acceptance With climate change mitigation at its core the book offers pragmatic recommendations for policymakers and industry leaders on how to employ CCUS for sustainable development making it a valuable resource for environmental researchers energy professionals and policymakers working toward a low carbon economy **Maritime**

Disputes and International Law Constantinos Yiallourides,2019-05-20 The settlement of the maritime boundary disputes between China and Japan in the East China Sea and between Greece and Turkey in the Aegean Sea is politically deadlocked While diplomatic settlement efforts have been ongoing for the past several decades neither side in each case appears prepared to back down from its respective maritime and territorial claims Several incidents at sea have occurred prompting diplomatic protests military standoffs even exchange of fire The existing status quo is inherently unstable and does not favour either side to the extent that it holds hostage the multiple benefits that could otherwise be generated from the exploitation of the seabed energy and mineral resources in the disputed waters creating an urgent need for a meaningful discussion on finding a practical way forward This monograph undertakes a comprehensive analysis of these disputes based on the rules and principles of international law critically evaluating possible institutional designs of inter State cooperation over seabed activities in disputed maritime areas and makes recommendations for the prospect of realising joint development regimes in the East China Sea and the Aegean to coordinate the exploration for and exploitation of resources without having resorted previously to boundary delimitation settlement MUP Stuart Kells,2023-02-07 Australia s oldest university press is also one of our best known and most trusted publishers Founded in 1921 as a bookshop for students at the University of

Melbourne Melbourne University Press was soon publishing important works that contained the best of national scholarship Landmark MUP books and series include The Australian Dictionary of Biography Manning Clark s History of Australia The Encyclopaedia of New Guinea and the journal Meanjin These and other MUP publications helped shape how Australians perceived themselves and how they talked about literature politics race the Pacific the world wars and public policy From its inception MUP grappled with hard questions How should a university press be governed To what extent should such a press be concerned with political polemical and radical works And can a university press be financially self sustaining if it focuses on books that commercial publishers overlook The respective leaders of MUP answered these questions in ways that

regularly led the press into controversy Using a century of MUP publications and archives Stuart Kells has written a rich and fascinating history of an invaluable Australian institution one that is widely seen as public property and whose ups and downs have always been news

The International Law of the Sea Donald R Rothwell, Tim Stephens, 2023-08-10 Praise for the previous edition A complete overview of the subject which does not intimidate the reader but rather spurs interest and understanding in the subject European Energy and Environmental Law Review the book is scholarly yet accessible and very readable thoroughly recommended Law Institute Journal Description The law of the sea provides for the regulation management and governance of the ocean spaces that cover over two thirds of the Earth s surface This book provides a comprehensive assessment of the foundational principles of the law of the sea a critical overview of the 1982 United Nations Convention on the Law of the Sea and an analysis of subsequent developments including many bilateral regional and global agreements that supplement the Convention The third edition of this acclaimed text has been thoroughly revised and updated and now incorporates a dedicated chapter on natural and artificial islands All of the main areas of the law of the sea are addressed including the foundations and sources of the law the nature and extent of the maritime zones the delimitation of overlapping maritime boundaries the place of archipelagic and other special states in the law of the sea navigational rights and freedoms military activities at sea marine scientific research and marine resource and conservation issues such as fisheries marine environmental protection and dispute settlement The book also takes stock of contemporary oceans governance issues not adequately addressed by the Convention Overarching challenges facing the law of the sea are considered including how new maritime security initiatives can be reconciled with traditional navigational rights and freedoms the need for stronger legal and policy responses to protect the global ocean environment from climate change and ocean acidification and work on a new agreement for the conservation and sustainable use of marine biological diversity in areas beyond national jurisdiction
