The Iron Whim Darren Sean Wershler-Henry, 2007 The Iron Whim is an intelligent irreverent and humorous history of writing culture and technology It covers the early history and evolution of the typewriter as well as the various attempts over the years to change the keyboard configuration but it is primarily about the role played by this marvel in the writer's life Darren Wershler Henry populates his book with figures as disparate as Bram Stoker Mark Twain Franz Kafka Norman Mailer Alger Hiss William Burroughs J G Ballard Jack Kerouac Hunter S Thompson Northrop Frye David Cronenberg and David Letterman the soundtrack ranges from the industrial clatter of a newsroom full of Underwoods to the more muted tapping and hum of the Selectric Wershler Henry casts a bemused eye on the odd history of early writing machines important and unusual typewritten texts the creation of On the Road and the exploits of a typewriting cockroach named Archy numerous monkeys poets and even a couple of vampires He gathers into his narrative typewriter related rumors and anecdotes Henry James became so accustomed to dictating his novels to a typist that he required the sound of a randomly operated typewriter even to begin to compose And by broadening his focus to look at typewriting as a social system as well as the typewriter as a technological form he examines the fascinating way that the tool has actually shaped the creative process With engaging subject matter that ranges over two hundred years of literature and culture in English The Iron Whim builds on recent interest in books about familiar objects and taps into our nostalgia for a method of communication and composition that has all but vanished
