Media Anthropology Eric W. Rothenbuhler, Mihai Coman, 2005-05-05. Media Anthropology is an interdisciplinary reader that represents a convergence of issues and interests on anthropological approaches to the study of media. While other books on this topic examine traditional anthropology and push that field toward the media, in this book, editors Eric W. Rothenbuhler and Mihai Coman take a novel approach by analyzing media studies and guiding that field toward anthropological thinking. This anthology charts media anthropology as a field of study and provides examples of current research that identify its major concepts and methods in chapters written by leading scholars from several countries and academic disciplines. Key Features: Offers original articles and a few selected reprints from leading worldwide scholars in a variety of academic disciplines to provide the most integrated treatment of this interdisciplinary topic. Contains introductions that set the context for articles written from varying points of view. Includes a Theory into Practice section that shows how anthropological concepts and methods can improve the teaching and practice of media studies. Makes the relevant literature accessible in an up-to-date and even-handed organization, offering students a broader understanding than they could obtain from other books, which are primarily anthropological in disciplinary orientation. Media Anthropology is an excellent textbook for undergraduate and graduate students studying media anthropology in communication and media studies, journalism, anthropology, sociology, and cultural studies programs.
