Mothers Monsters Whores Womens Violence In Global Politics:

Mothers, Monsters, Whores Laura Sjoberg, Caron E. Gentry, 2013-07-04 A woman did that The general reaction to women's political violence is still one of shock and incomprehension Mothers Monsters Whores provides an empirical study of women's violence in global politics The book looks at military women who engage in torture the Chechen Black Widows Middle Eastern suicide bombers and the women who directed and participated in genocides in Bosnia and Rwanda Sjoberg Gentry analyse the biological psychological and sexualized stereotypes through which these women are conventionally depicted arguing that these are rooted in assumptions about what is appropriate female behaviour What these stereotypes have in common is that they all perceive women as having no agency in any sphere of life from everyday choices to global political events This book is a major feminist re evaluation of women's motivations and actions as perpetrators of political violence Beyond Mothers, Monsters, Whores Caron E. Gentry, Laura Sjoberg, 2015-08-15 Beyond Mothers Monsters

Whores takes the suggestion in Mothers Monsters Whores that it is important to see genderings in characterizations of violent women and to use critique of those genderings to retheorize individual violence in global politics It begins by demonstrating the interdependence of the personal and international levels of global politics in violent women's lives but then shows that this interdependence is inaccurately depicted in gender subordinating narratives of women's violence Such narratives the authors argue are not only normatively problematic on the surface but also intersect with other identifiers such as race religion and geopolitical location **Mothers, Monsters, Whores : Women's Violence in Global Politics**

Beyond Mothers Monsters Whores takes the suggestion in Mothers Monsters Whores that it is important to see genderings in characterizations of violent women and to use critique of those genderings to retheorize individual violence in global politics It begins by demonstrating the interdependence of the personal and international levels of global politics in violent women's lives but then shows that this interdependence is inaccurately depicted in gender subordinating narratives of women's violence Such narratives the authors argue are not only normatively problematic on the surface but also intersect with other identifiers such as race religion and geopolitical location **Gender and Private Security in Global Politics** Maya

Eichler, 2015-03-04 The increasing reliance on private military and security companies in contemporary conflict marks a fundamental transformation in the organization of military violence and it raises issues of accountability and ethics that are of particular concern to feminists This privatization of force not only enables states to circumvent citizens democratic control over questions of war and peace but also undermines women's and minority groups claims for greater inclusion in the military sphere This is the first book to consider private security in global politics from the perspective of critical gender studies *Conflict Areas in the Balkans* Pinar Yürür, Arda Özkan, 2020-10-27 The situation in the Balkans such as the

solution to the status of Kosovo is currently the largest international political problem in Europe with the potential to burst into a world crisis regarding the Eastern Western relations On the other hand a successful solution to the problem in the Balkans could serve as a model for solving the Muslim Christian tensions elsewhere in the world It is the intention of this book to contribute proposals for solutions to the problems of Balkans The starting principle for the solutions to be effective is that they should come in a natural way from the people below and should not be enforced by the political elites from above Based on self determination of nations as a starting principle they should encourage intra regional cooperation among the regional entities economic cultural sport as a basis for political social understanding and cooperation secondly accelerate their economic political and social development and thirdly as a final step enable the inclusion of the Balkan countries into the European Union

A Woman's Place Joana Cook (Ph. D.),2020 A much needed book on the role of women in US counterterrorism in the wider Middle East and at home

The Monstrous & the Vulnerable Leonie B. Jackson,2022-05-01 In June 2014 Abu Bakr al Baghdadi declared an Islamic State in Iraq and Syria and called for Muslims around the world to migrate there Over the next five years around 150 women left the UK to heed this invitation and the so called jihadi brides were rarely out of the news This book traces the media fascination with those who joined the caliphate including Sally Jones Aqsa Mahmood and Shamima Begum Through an analysis of the media that presented the brides for public consumption Leonie B Jackson reveals the gendered dualistic construction of IS women as either monstrous or vulnerable Just as the monstrous woman was sensationalised as irredeemably evil the vulnerable girl was represented as groomed and na ve Both subjects were constructed in such a way that women s involvement in jihadism was detached from men s scrutinised more closely and explained through gender stereotypes that both erased the agency of female extremists and neglected their stated motivations As Jackson demonstrates these media representations also contributed to the development of new norms for dealing with the brides including targeted killing and the revocation of citizenship While the vulnerable girl was potentially redeemable the monstrous woman was increasingly considered expendable

Gendering Global Conflict Laura Sjoberg,2013-08-13 Laura Sjoberg positions gender and gender subordination as key factors in the making and fighting of global conflict Through the lens ofgender she examines the meaning causes practices and experiences of war building a more inclusive approach to the analysis of violent conflict between states Considering war at the international state substate and individual levels Sjoberg s feminist perspective elevates a number of causal variables in war decision making These include structural gender inequality cycles of gendered violence state masculine posturing the often overlooked role of emotion in political interactions gendered understandings of power and states mistaken perception of their own autonomy and unitary nature Gendering Global Conflict also calls attention to understudied spaces that can be sites of war such as the workplace the household and even the bedroom Her findings show gender to be a linchpin of even the most tedious and seemingly bland tactical and logistical decisions in violent conflict Armed with that information Sjoberg undertakes the task of redefining and

reintroducing critical readings of war's political economic and humanitarian dimensions developing the beginnings of a feminist theory of war

Women as War Criminals Izabela Steflja, Jessica Trisko Darden, 2020-09-08 Women war criminals are far more common than we think From the Holocaust to ethnic cleansing in the Balkans to the Rwandan genocide women have perpetrated heinous crimes Few have been punished These women go unnoticed because their very existence challenges our assumptions about war and about women Biases about women as peaceful and innocent prevent us from seeing women as war criminals and prevent postconflict justice systems from assigning women blame *Women as War Criminals* argues that women are just as capable as men of committing war crimes and crimes against humanity In addition to unsettling assumptions about women as agents of peace and reconciliation the book highlights the gendered dynamics of law and demonstrates that women are adept at using gender instrumentally to fight for better conditions and reduced sentences when war ends The book presents the legal cases of four women the President Biljana Plavic the Minister Pauline Nyiramasuhuko the Soldier Lynndie England and the Student Hoda Muthana Each woman's complex identity influenced her treatment by legal systems and her ability to mount a gendered defense before the court Justice as Steflja and Trisko Darden show is not blind to gender

Troubling Motherhood Lucy B. Hall, Anna L. Weissman, Laura J. Shepherd, 2020 In global politics women's bodies are policed objectified surveilled and feared with particular attention paid to both their met or unmet procreative potential While the significance of motherhood varies across cultures it is as this book argues connected not just to gender and sexuality but also to religion and nationality Reproduction is central to the flourishing of any nation or culture and therefore motherhood is a major signifier of women's relationship to the state This is so much the case that states enact laws about which women can bear children and have supported sterilization efforts in cases where women are not deemed appropriate bearers of the nation States also legislate reproductive technologies adoption and government support for parenting By considering representations and narratives of maternity this volume shows how practices of global politics shape and are shaped by the gendered norms and institutions that underpin motherhood Motherhood matters in global politics Yet the diverse ways in which performances and practices of motherhood are constituted by and are constitutive of other dimensions of political life are frequently obscured or assumed to be of little interest to scholars policymakers and practitioners Featuring innovative and diverse chapters on the politics of motherhood as an institution this collection shows that maternity is troubled complicated and heterogeneous in global politics Thus performances and practices of motherhood warrant closer and more sustained scrutiny This book builds on work by feminist international relations scholars extending into disruptive spaces of queer theory literary critique and post colonial studies The chapters in this book consider the meaning of motherhood particularly during times of war versus peace the connections between motherhood and nationhood and reproduction of the state and care work and maternal labor particularly as performed by transnational workers Ultimately this book demonstrates the complex interconnections between the individual the state and the global

graduate courses authors Anne Sisson Runyan and V Spike Peterson analyze gendered divisions of power and resources that contribute to the worldwide crises of representation violence and sustainability They emphasize how hard won attention to gender equality in world affairs can be co opted when gender is used to justify or mystify unjust forms of global governance international security and global political economy In the new and updated fourth edition Runyan and Peterson examine the challenges of forging transnational solidarities to de gender world politics scholarship and practice through renewed politics for greater representation and redistribution Yet they see promise in coalitional struggles to re radicalize feminist world political demands to change the downward conditions of women men children and the planet Updated to include framing questions at the opening of each chapter discussion questions and exercises at the end of each chapter and updated data on gender statistics and policymaking Chapters One and Two have also been revised to provide more support to readers with less of a background in gender politics Case studies and web resources are now also provided

International Security and Gender Nicole Detraz, 2013-04-24 What does it mean to be secure In the global news we hear stories daily about the wars in Iraq and Afghanistan about domestic level conflicts around the world about the challenges of cybersecurity and social security This broad list highlights the fact that security is an idea with multiple meanings but do we all experience security issues in the same way In this book Nicole Detraz explores the broad terrain of security studies through a gender lens Assumptions about masculinity and femininity play important roles in how we understand and react to security threats By examining issues of militarization peacekeeping terrorism human security and environmental security the book considers how the gender security nexus pushes us to ask different questions and broaden our sphere of analysis Including gender in our analysis of security challenges the primacy of some traditional security concepts and shifts the focus to be more inclusive Without a full understanding of the vulnerabilities and threats associated with security we may miss opportunities to address pressing global problems Our society often expects men and women to play different roles and this is no less true in the realm of security This book demonstrates that security debates exhibit gendered understandings of key concepts and whilst these gendered assumptions may benefit specific people they are often detrimental to others particularly in the key realm of policy making

Insurgent Women Jessica Trisko Darden, Alexis Henshaw, Ora Szekely, 2019-03-01 Why do women go to war Despite the reality that female combatants exist the world over we still know relatively little about who these women are what motivates them to take up arms how they are utilized by armed groups and what happens to them when war ends This book uses three case studies to explore variation in women s participation in nonstate armed groups in a range of contemporary political and social contexts the civil war in Ukraine the conflicts involving Kurdish groups in the Middle East and the civil war in Colombia In particular the authors examine three important aspects of women s participation in armed groups mobilization participation in combat and conflict cessation In doing so they shed light on women s pathways into and out of nonstate armed groups They also address the implications of women s participation in these conflicts for policy

including postconflict programming This is an accessible and timely work that will be a useful introduction to another side of contemporary conflict Georgetown Journal of International Affairs Margaret Schaack,Will Evans,2016-10-24 The Georgetown Journal of International Affairs is the official publication of the Edmund A Walsh School of Foreign Service at Georgetown University Each issue of the journal provides readers with a diverse array of timely peer reviewed content penned by top policymakers business leaders and academic luminaries **The Oxford Handbook of Peaceful Change in International Relations** T. V. Paul,Deborah Welch Larson,Harold A. Trinkunas,Anders Wivel,Ralf Emmers,2021 Abstract With the rapid rise of China and the relative decline of the United States the topic of power transition conflicts is back in popular and scholarly attention The discipline of International Relations offers much on why violent power transition conflicts occur yet very few substantive treatments exist on why and how peaceful changes happen in world politics This Handbook is the first comprehensive treatment of the subject of peaceful change in International Relations It contains some 41 chapters all written by scholars from different theoretical and conceptual backgrounds examining the multi faceted dimensions of this subject In the first part key conceptual and definitional clarifications are offered and in the second part papers address the historical origins of peaceful change as an International Relations subject matter during the Inter War Cold War and Post Cold War eras In the third part each of the IR theoretical traditions and paradigms in particular Realism liberalism constructivism and critical perspectives and their distinct views on peaceful change are analyzed In the fourth part papers tackle the key material ideational and social sources of change In the fifth part the papers explore selected great and middle powers and their foreign policy contributions to peaceful change realizing that many of these states have violent past or tend not to pursue peaceful policies consistently In part six the contributors evaluate the peaceful change that occurred in the world s key regions In the final part the editors address prospective research agenda and trajectories on this important subject matter Keywords Peaceful Change War Security International Relations Theory Sources of Change Systemic Theory Realism Liberalism Constructivism Critical Theories The Invention of Terrorism in France, 1904-1939 Chris Millington,2023-09-26 The Invention of Terrorism in France 1904 1939 investigates the political and social imaginaries of terrorism in the early twentieth century Chris Millington traces the development of how the French conceived of terrorism from the late nineteenth century notion that terrorism was the deed of the mad anarchist bomber to the fraught political clashes of the 1930s when terrorism came to be understood as a political act perpetrated against French interests by organized international movements Through a close analysis of a series of terrorist incidents and representations thereof in public discourse and the press the book argues that contemporary ideas of terrorism in France as unFrench that is contrary to the ideas and values however defined that make up Frenchness emerged in the interwar years and subsequently took root long before the terrorist campaigns of Algerian nationalists during the 1950s and 1960s Millington conceptualizes terrorism not only as the act itself but also as a political and cultural construction of violence composed from a variety of discourses

and deployed in particular circumstances by commentators witnesses and perpetrators In doing so he argues that the political and cultural battles inherent to perceptions of terrorism lay bare numerous concerns not least anxieties over immigration antiparliamentarianism representations of gender and the future of European peace
