Proposals for Research Gerry Stahl,2011-01-11 My career has usually been funded by grants Here are some of the proposals I wrote at the University of Colorado and at Drexel University Successful grant proposals are tricky to write The ones reproduced here might provide helpful examples They may also provide explicit statements of some of the goals of my research over the years

Novice Mathematics Teachers' Professional Learning Xiaoli Lu,2022-05-04 This book investigates three novice high school mathematics teachers professional learning processes in the early stages of their careers at schools in Shanghai China Teacher professional learning is examined as a complex and dynamic system that connects both cognitive and situated perspectives on learning theory Inspiring mathematics teachers to adopt student focused pedagogies is challenging particularly in China where tensions in teacher centred content focused and examination oriented practices are predominant The three novice teachers who participated in this study brought different beliefs and knowledge derived from their different individual experiences to bear on their teaching practices However they were strongly influenced by the environments in which they taught and mainly adopted a professional learning approach to teacher centred practices despite reporting that they favoured student centred teaching practices The study also observed professional learning towards student centred pedagogical aspects in a single teacher case with mentorship support indicating that student centred pedagogies may be promoted within the constraints of the existing dominant teaching practice

PROPEL to Quality Healthcare Thomas M Muha,Martha Murphy,2017-07-28 You got into healthcare because you wanted to help people but quickly discovered providing high quality care is challenging Seemingly impossible demands are placed on you and your team Some coworkers are constantly complaining others are in their silos doing only what they must to get through the long

days Collaboration is often lacking and patients suffer the painful consequences It s easy to become overloaded with work and overwhelmed with negativity This is not how the healthcare profession has to be There is a new science Positive Psychology that studies how people are able to perform extraordinarily well in challenging situations After a dozen years of research in prestigious medical centers an evidence based method for applying this science has been developed That six step program is PROPEL You will read stories illustrating the experiences of doctors nurses and administrators who learned to use PROPEL to transform their professional life and for many their personal life as well You will learn how they were able to attain remarkable results with their teams units and clinics Staff callout and FMLA decreased 75% Wait times for chemotherapy infusion reduced 6 hours Staff turnover dropped 80% Pediatric MRI scheduling driven down from 14 weeks to 10 days Bone marrow transplant procedures increased by 50% ED diversion due to psychiatric patient boarding virtually eliminated Patient fall rate cut by 70% Use of agency and travelers nurses abolished Patient satisfaction scores up 50% The cumulative impact to the bottom line has been calculated to be millions of dollars The most meaningful measure of PROPEL s success however comes from the thousands of dedicated professionals who have expressed heartfelt gratitude for having learned how to recapture their joy for working in healthcare
