recipes have attracted this legion of fans to the self proclaimed Diet Queen of DeWitt Iowa Over the years JoAnna has shared her common folk wisdom through her personal appearances and public lectures her television and radio shows and in her books and newsletter Now that wisdom is distilled in String of Pearls Like pearls the insights revealed in this book are precious each has been polished by hard work and burnished by experience And while each may be beautiful alone when taken together they create a vision of beauty strength and durability Yet String of Pearls is as practical down to earth and full of common sense as JoAnna herself With this book she helps readers feel good about themselves and focus on the truly important and enduring things in their lives      *Neural Networks: Tricks of the Trade* Genevieve B. Orr,Klaus-Robert Müller,2003-07-31 It is our belief that researchers and practitioners acquire through experience and word of mouth techniques and heuristics that help them successfully apply neural networks to di cult real world problems Often these tricks are theo tically well motivated Sometimes they are the result of trial and error However their most common link is that they are usually hidden in people s heads or in the back pages of space constrained conference papers As a result newcomers to the eld waste much time wondering why their networks train so slowly and perform so poorly This book is an outgrowth of a 1996 NIPS workshop called Tricks of the Trade whose goal was to begin the process of gathering and documenting these tricks The interest that the workshop generated motivated us to expand our collection and compile it into this book Although we have no doubt that there are many tricks we have missed we hope that what we have included will prove to be useful particularly to those who are relatively new to the eld Each chapter contains one or more tricks presented by a given author or authors We have attempted to group related chapters into sections though we recognize that the di erent sections are far from disjoint Some of the chapters e g 1 13 17 contain entire systems of tricks that are far more general than the category they have been placed in      *Neural Networks: Tricks of the Trade* Grégoire Montavon,Geneviève Orr,Klaus-Robert Müller,2012-11-14 The twenty last years have been marked by an increase in available data and computing power In parallel to this trend the focus of neural network research and the practice of training neural networks has undergone a number of important changes for example use of deep learning machines The second edition of the book augments the first edition with more tricks which have resulted from 14 years of theory and experimentation by some of the world s most prominent neural network researchers These tricks can make a substantial difference in terms of speed ease of implementation and accuracy when it comes to putting algorithms to work on real problems      *Weekly World News* ,1995-03-21 Rooted in the creative success of over 30 years of supermarket tabloid publishing the Weekly World News has been the world s only reliable news source since 1979 The online hub [www.weeklyworldnews.com](http://www.weeklyworldnews.com) is a leading entertainment news site      *Finish Your Film!
