Readers Erin A. McCarthy, 2020-02-07 When poetry was printed poets and their publishers could no longer take for granted that readers would have the necessary knowledge and skill to read it well By making poems available to anyone who either had the means to buy a book or knew someone who did print publication radically expanded the early modern reading public These new readers publishers feared might not buy or like the books Worse their misreadings could put the authors the publishers or the readers themselves at risk Doubtful Readers Print Poetry and the Reading Public in Early Modern England focuses on early modern publishers efforts to identify and accommodate new readers of verse that had previously been restricted to particular social networks in manuscript Focusing on the period between the maturing of the market for printed English literature in the 1590s and the emergence of the professional poet following the Restoration this study shows that poetry was shaped by and itself shaped strong print publication traditions By reading printed editions of poems by William Shakespeare Aemilia Lanyer John Donne and others this book shows how publishers negotiated genre gender social access reputation literary knowledge and the value of English literature itself It uses literary historical bibliographical and quantitative evidence to show how publishers strategies changed over time Ultimately Doubtful Readers argues that although or perhaps because publishers interpretive and editorial efforts are often elided in studies of early modern poetry their interventions have had an enduring impact on our canons texts and literary histories **Philosophy and Kafka**

Brendan Moran, Carlo Salzani, 2013-04-19 The relationship of philosophy with Kafka's oeuvre is complex It has been argued that Kafka's novels and stories defy philosophic extrapolation conversely it has also been suggested that precisely the tendency of Kafka's writings to elude discursive solution is itself a philosophical tendency one that is somehow contributing to a wiser relationship of human beings with language These matters are the focus of the proposed volume on Philosophy and Kafka The proposed collection brings together essays that interrogate the relationship of philosophy and Kafka and offer new and original interpretations The volume obviously cannot claim completeness but it partially does justice to the multiplicity of philosophical issues and philosophical interpretations at stake This variety informs the composition of the volume itself A number of essays focus on specific philosophical commentaries on Kafka's work from Adorno's to Agamben's from Arendt's to Benjamin's from Deleuze and Guattari's to Derrida's A number of essays consider the possible relevance of certain philosophical outlooks for examining Kafka's writings here Kafka's name goes alongside those of Socrates Kant Kierkegaard

Nietzsche Wittgenstein Buber Heidegger Blanchot and Levinas Finally a number of essays consider Kafka's writings in terms of a specific philosophical theme such as communication and subjectivity language and meaning knowledge and truth the human animal divide justice and freedom In all contributions to the volume such themes motifs and interpretations arise To varying degrees all essays are concerned with the relationship of literature and philosophy and thus with the philosophical significance of Kafka's writings
