**Sartre on Sin** Kate Kirkpatrick,2017-10-20 Sartre on Sin Between Being and Nothingness argues that Jean Paul Sartre's early anti humanist philosophy is indebted to the Christian doctrine of original sin On the standard reading Sartre's most fundamental and attractive idea is freedom he wished to demonstrate the existence of human freedom and did so by connecting consciousness with nothingness Focusing on Being and Nothingness Kate Kirkpatrick demonstrates that Sartre's concept of nothingness *l'néant* has a Christian genealogy which has been overlooked in philosophical and theological discussions of his work Previous scholars have noted the resemblance between Sartre's and Augustine's ontologies to name but one shared theme both thinkers describe the human as the being through which nothingness enters the world However there has been no previous in depth examination of this resemblance Using historical exegetical and conceptual methods Kirkpatrick demonstrates that Sartre's intellectual formation prior to his discovery of phenomenology included theological elements especially concerning the compatibility of freedom with sin and grace After outlining the French Augustinianisms by which Sartre's account of the human as between being and nothingness was informed Kirkpatrick offers a close reading of Being and Nothingness which shows that the psychological epistemological and ethical consequences of Sartre's *l'néant* closely resemble the consequences of its theological predecessor and that his account of freedom can be read as an anti theodicy Sartre on Sin illustrates that Sartre's insights are valuable resources for contemporary hamartiology      *The Bookseller* ,1875      Index Scholasticus. Sartre and Theology Kate Kirkpatrick,2017-08-10 Jean Paul Sartre was one of the twentieth century's most prominent atheists But his philosophy was informed by theological writers and themes in ways that have not previously been acknowledged In Sartre and Theology Kirkpatrick examines Sartre's philosophical formation and rarely discussed early work demonstrating how and which theology shaped Sartre's thinking She also shows that Sartre's philosophy especially Being and Nothingness and Existentialism is A Humanism contributed to several prominent twentieth century theologies examining

Catholic Protestant Orthodox and Liberation theologians rebuttals and appropriations of Sartre For philosophers this work opens up an unmined vein of influence on Sartre s work which illuminates his conceptual divergences from the German phenomenological tradition And for theologians it offers insights into a theologically informed atheism which provoked responses from some of the twentieth century s greatest theologians an atheism from which we can still learn much today
