Germanic Heroic Tradition in Video Games Enrique Torres-Hergueta,2025-10-03 This monograph examines the appropriation and ludification of the Germanic heroic tradition in video games as a digital medium a process that unfolds on the margins of official discourse about the early Middle Ages The project analyzes the adaptation of medieval material to the video game format through the use of Germanic epic motifs such as the configuration of the hero his conflict with the antagonist and the pursuit of fame and wealth derived from the medieval written sources that inspire them Using narratology the author evaluates the remediation of these narratives in video games as a playful digital and immersive experience

most exciting news stories across all the major gaming genres **The Emergence of the Digital Humanities** Steven E. Jones, 2013-08-15 The past decade has seen a profound shift in our collective understanding of the digital network What was once understood to be a transcendent virtual reality is now experienced as a ubiquitous grid of data that we move through and interact with every day raising new questions about the social locative embodied and object oriented nature of our experience in the networked world In *The Emergence of the Digital Humanities* Steven E Jones examines this shift in our relationship to digital technology and the ways that it has affected humanities scholarship and the academy more broadly Based on the premise that the network is now everywhere rather than merely out there Jones links together seemingly disparate cultural events the essential features of popular social media the rise of motion control gaming and mobile platforms the controversy over the gamification of everyday life the spatial turn fabrication and 3D printing and electronic publishing and argues that cultural responses to changes in technology provide an essential context for understanding the emergence of the digital humanities as a new field of study in this millennium The Open Access version of this book available at <https://doi.org/10.4324/9780203093085> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license **The Video Games Guide** Matt Fox, 2013-01-17 The Video Games Guide is the world's most comprehensive reference book on computer and video games Presented in an A to Z format this greatly expanded new edition spans fifty years of game design from the very earliest 1962's Spacewar through the present day releases on the PlayStation 3 Xbox 360 Wii and PC Each game entry includes the year of release the hardware it was released on the name of the developer publisher a one to five star quality rating and a descriptive review which offers fascinating nuggets of trivia historical notes cross referencing with other titles information on each game's sequels and of course the author's views and insights into the game In addition to the main entries and reviews a full color gallery provides a visual timeline of gaming through the decades and several appendices help to place nearly 3,000 games in context Appendices include a chronology of gaming software and hardware a list of game designers showing their main titles results of annual video game awards notes on sourcing video games and a glossary of gaming terms **Elder Scrolls V Skyrim Unofficial Game Guide** Hse Strategies, 2017-02-12 UNOFFICIAL GUIDE Advanced Tips Strategy Guide This is the most comprehensive and only detailed guide you will find online Available for instant download on your mobile phone eBook device or in paperback form With the success of my hundreds of other written guides and strategies I have written another advanced professional guide for new and veteran players This gives specific strategies and tips on how to progress in the game beat your opponents acquire more coins and currency plus much more Professional Tips and Strategies Selecting a Race Leveling Up Your Character Character Builds Secrets Tips Cheats Unlockables and Tricks Used By Pro Players How to Get Tons of Cash Coins PLUS MUCH MORE All versions of this guide have screenshots to help you better understand the game There is no other guide that is as comprehensive and advanced as this one Disclaimer This product is not associated affiliated endorsed certified or sponsored

by the Original Copyright Owner American/Medieval Goes North Gillian R. Overing, Ulrike Wiethaus, 2019-10-07 One of the great virtues of American Medieval Goes North is its wide range of contributors with fascinatingly diverse relationships to the main terms of analysis. There are academic scholars, poets, filmmakers, tribal elders, teachers at various levels, there are Indigenous people, people from settler colonial cultures, expats, immigrants. Their analytic and imaginative encounters with the North catch at the intensely symbolic and political charge of that locus. At a time when Medieval Studies cannot afford to ignore the period's popular uptake, cannot continue with business as usual in the face of white supremacists' brazen appropriations of the Middle Ages, this volume points to new possibilities for grappling with the uneasy relationships between the American and the medieval. Prof. Carolyn Dinshaw, New York University

Teaching the Middle Ages through Modern Games Robert Houghton, 2022-10-24 Games can act as invaluable tools for the teaching of the Middle Ages. The learning potential of physical and digital games is increasingly undeniable at every level of historical study. These games can provide a foundation of information through their stories and worlds. They can foster understanding of complex systems through their mechanics and rules. Their very nature requires the player to learn to progress. The educational power of games is particularly potent within the study of the Middle Ages. These games act as the first or most substantial introduction to the period for many students and can strongly influence their understanding of the era. Within the classroom, they can be deployed to introduce new and alien themes to students typically unfamiliar with the subject matter swiftly and effectively. They can foster an interest in and understanding of the medieval world through various innovative means and hence act as a key educational

tool This volume presents a series of essays addressing the practical use of games of all varieties as teaching tools within Medieval Studies and related fields In doing so it provides examples of the use of games at pre university undergraduate and postgraduate levels of study and considers the application of commercial games development of bespoke historical games use of game design as a learning process and use of games outside the classroom As such the book is a flexible and diverse pedagogical resource and its methods may be readily adapted to the teaching of different medieval themes or other periods of history
