OLAF STAPLEDON

Speaking for the Future

A black and white portrait of Olaf Stapledon, a man with dark hair, wearing a dark suit, white shirt, and dark tie. He is leaning forward, resting his chin on his hand, and looking directly at the camera with a slight smile. The background is dark and out of focus.

Robert Crossley
Foreword by Brian W. Aldiss

Olaf Stapledon Speaking For The Future Utopianism Communitarianism

Michael Dellwing, Martin Harbusch

Olaf Stapledon Speaking For The Future Utopianism Communitarianism:

Olaf Stapledon Robert Crossley, 1994-07-01 William Olaf Stapledon is best remembered for the extraordinary works of speculative fiction he published between 1930 and 1950 As a novelist he was known as the spokesman for the Age of Einstein and has influenced writers as diverse as Virginia Woolf Arthur C Clarke and Doris Lessing This biography is the first to draw on a vast body of unpublished and private documents interviews correspondence archival material and papers in private hands to reveal fully the internal struggles that shaped Stapledon's life and reclaim for public attention a distinctive voice of the modern era Late in his life in an unpublished letter to the future Stapledon unwittingly provided the rationale for his biography It is just possible that my very obscurity may fit me to speak more faithfully for my period than any of its great unique personalities A pacifist in World War I an advocate of European unity and world government one of the first teachers in the Workers Educational Association and an early protestor against apartheid Stapledon turned utopian beliefs into practical politics With roots in the shipping worlds of Devon Liverpool and the Suez Canal he was transformed from a self-described provincial on the margins of English literary and political life into a visionary idealist who attracted the attention of scientists journalists and novelists and given his left wing political affiliations even the F B I Stapledon's novels Last and First Men Star Maker Odd John and Sirius have gathered a passionate following and they have seldom been out of print in the last twenty five years But the personal experiences and political commitments that shaped this creative work have until now barely been known Robert Crossley's work reveals how in public and in private in his social activism as in his fiction Olaf Stapledon embodied many of the modern era's anxieties and hopes that allow his works to continue to speak to and for the future

Shadows of the Future Patrick Parrinder, 1995-09-01 H G Wells the inventor of the concept of the time machine and the phrase the Shape of Things to Come described his life's work as one of critical anticipation Shadows of the Future identifies the attempt to imagine possible futures as the unifying principle behind Wells's diverse and sometimes wayward literary career The book unravels the complex layers of meaning in The Time Machine and shows how throughout his life he sought to exploit the potential of literary and cultural prophecy in new ways Described by John Middleton Murry as the last prophet of bourgeois Europe he was also its first futurologist In Shadows of the Future Wells's assumption of the prophet's role is related to his championship of the modern scientific outlook and to the theory and practice of science fiction and utopian literature Parrinder explores the connections between novelty and repetition between imagining the future and imagining the past and between prophecy and parody as literary modes Wells's science fiction is reexamined both as a projection of the cosmology implicit in the writings of Darwin and Huxley and as a new variation on the Romantic and Enlightenment themes of such earlier authors as Blake Gibbon and Mary Shelley Later chapters relate Wells's fiction to his nonfiction and look at the uneasy relationship of his utopianism to literary prophecy and at the paradoxes inherent in the militant internationalism of the prophet at large Finally Wells's influence is traced in a study of the antiutopian fictions of

Zamyatin and Orwell and in a broad account of the connections between science fiction and the scientific outlook down to our own time *Utopian and Science Fiction by Women* Jane L. Donawerth, Carol A. Kolmerten, 1994-07-01 This collection speaks to common themes and strategies in women's writing about their different worlds from Margaret Cavendish's seventeenth century Blazing World of the North Pole to the men-less islands of the French writer Scudery to the eighteenth and nineteenth century utopias of Shelley and Gaskell and science fiction pulps finishing with the more contemporary feminist fictions of Le Guin Wittig Piercy and Michison It shows that these fictions historically speak to each other and together amount to a literary tradition of women's writing about a better place **Anticipations** David Seed, 1995-05-01 The essays in this book focus particularly on how early SF engages with such contemporary issues as exploration the development of science and social planning Although written by academics this book is cast in an accessible style avoiding the use of theoretical jargon **Jewish Agricultural Colonies in New Jersey, 1882-1920** Ellen Eisenberg, 1995-08-01 Most of the synagogues are gone a temple has been converted into a Baptist church There is little indication to the passerby that the southern New Jersey's Salem and Cumberland counties once contained active Jewish colonies the largest and most successful in fact of the settlement experiments undertaken by Russian Jewish immigrants in America during the late nineteenth century Ellen Eisenberg's work focuses on the transformation of these colonies over a period of four decades from agrarian communal colonies to private mixed industrial agricultural communities The colonies grew out of the same back to the land sentiment that led to the development of the first modern Jewish agricultural settlements in Palestine Founded in 1882 the settlements survived for over thirty years The community of Alliance's population alone grew to nearly 1000 by 1908 Originally established as socialistic agrarian settlements by young idealists from the Russian Jewish Am Olam movement the colonies eventually became dependent on industrial employment based on private ownership The early independent ideological settlers ultimately clashed with the financial sponsors and the migrants they recruited who did not share the settlers' communitarian and agrarian goals **Life in a Technocracy** Harold Loeb, 1996-06 The origins of technocracy are shrouded in controversy but most of its leaders were inspired by their association with the social critic Thorstein Veblen between 1919 and 1921 Harold Loeb an expatriate in Paris in the 1920s was one of the more accomplished and interesting of the technocrats In *Life in a Technocracy* now a twentieth century utopian classic he expounds on the merits of creating a utopian society through technocracy predicting the future of art education religion and government under the leadership of technical professionals *Rastafari* Barry Chevannes, 1994-12-01 The first comprehensive work on the origins of the Jamaica-based Rastafaris including interviews with some of the earliest members of the movement *Rastafari* is a valuable work with a rich historical and ethnographic approach that seeks to correct several misconceptions in existing literature the true origin of dreadlocks for instance It will interest religion scholars historians scholars of Black studies and a general audience interested in the movement and how Rastafarians settled in other countries *Daring to*

Dream Carol Farley Kessler, 1995 This study of American utopian fiction by women before 1950 includes excerpts from seven novels This second edition presents a feminist revision of Edward Bellamy's influential *Looking Backwards* and ends with a World War II interplanetary women centred fantasy *Writing the New World* David Fausett, 1993 Vergemeinschaftung in Zeiten der Zombie-Apokalypse Michael Dellwing, Martin Harbusch, 2014-09-30 TV Serien haben in den letzten Jahren explosionsartig an kultureller Bedeutung gewonnen Sie haben den Film als f hrendes Unterhaltungsmedium und damit auch als Mittel zur sozialen Distinktion l ngst abgel st Literatur Medien und Kommunikationswissenschaften haben diesen Bedeutungsgewinn erkannt und parallel dazu Fernsehforschung zu einem neuen Schwerpunkt entwickelt besonders im englischsprachigen Raum Dieser Band m chte einen Beitrag dazu leisten die bestehenden Besch ftigungen der Fernsehforschung an die Sozialwissenschaft anzubinden und die Diskussion im deutschsprachigen Raum bef rdern Dabei w hlt er einen Zugang ber eine thetische Eingrenzung um die sozialwissenschaftliche Komponente der Untersuchungen zu betonen Er nimmt sich den in den letzten Jahren immer popul rer werdenden Figuren von Zombies Vampiren Aliens Geistern Monstern und anderen fantastischen Anderen an Im besonderen Verh ltnis zu sonstigen sozialen Bedeutungen und Identit ten die in soziologischer Perspektive immer als konstruiert erscheinen bietet die Besch ftigung mit fantastischen Anderen hier eine Chance Denn im Spiegel des Fantastischen und Irrealen kann das Eigene in seiner Konstruiertheit offensichtlich gemacht werden *Special Love / Special Sex* Robert S. Fogarty, 1994-10-01 Victor Hawley was a thirty year old dental assistant with a passion for collecting butterflies who fell in love with Mary Jones another colony member Because of the community's unique social and sexual practices however the two were kept apart and denied their request to have a child In the eyes of the community their love was unsanctified Instead on the order of colony founder John Humphrey Noyes Jones was subsequently impregnated by Noyes's son Fogarty effectively uses the diary to illuminate with particular clarity the largely ignored darker side of the community Thus this rare chronicle opens for radical reinterpretation the Oneida Community's plan on procreation and the central role that sexual domination played in its history Hawley's intense struggle to reconcile individual and community needs and desires illustrates a fundamental tension that characterized the community in the years immediately preceding its dissolution In 1877 after twenty three years at Oneida Victor Hawley left the community with Mary Jones after he nursed her through an agonizing pregnancy that ended in stillbirth They married had five children and lived on their own outside the embrace of Eden From numerous entries in Hawley's secret diary which were written in an arcane shorthand Robert S Fogarty successfully extracts some astonishing personal details which include descriptions of areas of community life never before revealed on such matters as religious commitment and experiments in eugenics *Special Love Special Sex* will be specifically of interest to scholars in utopian and communitarian studies and to social historians Forthcoming Books Rose Arny, 1994-04 *Olaf Stapledon: Last and First Men: A Story of the Near and Far Future* , Henry W Targowski provides information about English science fiction writer Olaf Stapledon 1886 1950 and his

book entitled Last and First Men A Story of the Near and Far Future The book tells the story of the reemergence of humans in new forms and on new planets until the end of the solar system which occurs when the sun dies **To the End of Time**
Olaf Stapledon, Basil Davenport, 1953
