New New World New New World:

The Old World, the New World, and the Creation of the Modern World, 1400-1650 Aaron M. Shatzman, 2013-08-01 The Old World the New World and the Creation of the Modern World 1400 1650 An Interpretive History provides a unique look at the early years of European discovery and colonization examining the impact of this period on the historical development of both the New and Old Worlds The text is enhanced by the incorporation of a wide variety of original source material allowing readers to benefit from a more first hand experience of the historical events of the period Providing the essential facts in conjunction with expert analysis the volume poses a number of important questions to enable readers to construct their own analysis of the evidence presented Uniquely the volume goes beyond the standard textbook formula of what when and where to delve more deeply into the specific as well as the wider significance of historical developments thereby providing the platform for a textured interpretive understanding of the history of the Atlantic world Where the New World Is Martyn Bone, 2018-01-15 Where the New World Is assesses how fiction published since 1980 has resituated the U S South globally and how earlier twentieth century writing already had done so in ways traditional southern literary studies tended to ignore Martyn Bone argues that this body of fiction has over the course of some eighty years challenged received readings and understandings of the U S South as a fixed place largely untouched by immigration or even internal migration and economic globalization The writers discussed by Bone emphasize how migration and labor have reconfigured the region's relation to the nation and a range of transnational scales hemispheric Jamaica the Bahamas Haiti transatlantic Black Atlantic Denmark England Mauritania and transpacific global southern Australia China Vietnam Writers under consideration include Zora Neale Hurston Nella Larsen John Oliver Killens Russell Banks Erna Brodber Cynthia Shearer Ha Jin Monique Truong Lan Cao Toni Morrison Peter Matthiessen Dave Eggers and Laila Lalami The book also seeks to resituate southern studies by drawing on theories of scale that originated in human geography In this way Bone also offers a new paradigm in which the U S South is thoroughly engaged with a range of other scales from the local to the global making both literature about the region and southern studies itself truly transnational in scope **The Founding of a New World** George Herbert Dryer, 1898

Library of Congress Subject Headings Library of Congress, 2007 The Making of New World Slavery Robin Blackburn, 2010-08-02 The Making of New World Slavery argues that independent commerce geared to burgeoning consumer markets was the driving force behind the rise of plantation slavery The baroque state sought successfully to feed upon this commerce and with markedly less success to regulate slavery and racial relations To illustrate this thesis Blackburn examines the deployment of slaves in the colonial possessions of the Portuguese the Spanish the Dutch the English and the French Plantation slavery is shown to have emerged from the impulses of civil society not from the strategies of individual states Robin Blackburn argues that the organization of slave plantations placed the West on a destructive path to modernity and that greatly preferable alternatives were both proposed and rejected Finally he shows that the surge of Atlantic trade

predicated on the murderous toil of the plantations made a decisive contribution to both the Industrial Revolution and the rise of the West

The Oxford Handbook of the Word John R. Taylor, 2015 This handbook addresses words in all their multifarious aspects and brings together scholars from every relevant discipline to do so The many subjects covered include word frequencies sounds and sound symbolism the structure of words taboo words lexical borrowing words in dictionaries and thesauri word origins and change place and personal names nicknames taxonomies word acquisition and bilingualism words in the mind word disorders and word games puns and puzzles Words are the most basic of all linguistic units the aspect of language of which everyone is likely to be most conscious A new word that makes it into the OED is prime news when baby says its first word its parents reckon it has started to speak knowing a language is often taken to mean knowing its words and languages are seen to be related by the similarities between their words Up to the twentieth century linguistic description was mainly an account of words and all the current subdivisions of linguistics have something to say about them A notable feature of human languages is the sheer vastness of their word inventories and scholars and writers have sometimes deliberately increased the richness of their languages by coining or importing new items into their word hoards The book presents scholarship and research in a manner that meets the interests of students and professionals and satisfies the curiosity of the educated reader

Early Modern Exchanges Helen Hackett, 2016-03-09 Marcus Gheeraerts's portrait of a Persian lady probably in fact an English lady in masquing costume exemplifies the hybridity of early modern English culture Her surrounding landscape and the embroidery on her gown are typically English but her head dress and slippers are decidedly exotic the inscriptions beside her are Latin and her creator was an incomer artist She is emblematic of the early modern culture of exchange both between England and its neighbours and between Europe and the wider world This volume presents fresh research into such early modern exchanges exploring how new identities subjectivities and artefacts were forged in dialogues and encounters between diverse cultures nations and language communities The early modern period was a time of creative interactions between cultures and disciplines and accordingly this is a multidisciplinary volume drawing together international experts in literature history modern and ancient languages and art history It understands cultural exchange as encompassing both the geographical mobilities of travel and trade and the transmission of ideas across borders and between languages as enabled by the new technology of print Sites of exchange were located not only in distant and unfamiliar lands but also in the bookseller's shop and the scholar's study The volume also explores the productive and complex dialogues between early modern culture and the classical past The types of exchanges discussed include the linguistic transactions of translation and imitation interactions between cultural elites such as monarchs courtiers and diplomats and the catalytic influences of particularly mobile or outward looking individuals and groups Ranging from the neo Latin poetry of an English author to the plays of a nun in seventeenth century New Spain from royal portraits exchanged in diplomatic negotiations to travelling companions in the Ottoman Empire the volume sheds new light

The Contemporary Post-Apocalyptic Novel Diletta De Cristofaro, 2019-12-26 Traditional apocalyptic texts concern the advent of a better world at the end of history that will make sense of everything that happened before But what is at stake in the contemporary shift to apocalyptic narratives in which the utopian end of time is removed The Contemporary Post Apocalyptic Novel offers an innovative critical model for our cultural obsession with the end by focussing on the significance of time in the 21st century post apocalyptic novel and challenging traditional apocalyptic logic Once confined to the genre of science fiction the increasing popularity of end of the world narratives has caused apocalyptic writing to feature in the work of some of contemporary literature's most well known fiction writers Considering novels by Will Self Cormac McCarthy David Mitchell Emily St John Mandel Jeanette Winterson and others Diletta De Cristofaro frames the contemporary apocalyptic imagination as a critique of modernity's apocalyptic conception of time and history Interdisciplinary in scope the book historicises apocalyptic beliefs by exploring how relentlessly they have shaped the modern world
