Boon, 1880

Complicating, Considering, and Connecting Music Education Lauren Kapalka Richerme, 2020-05-05 In *Complicating Considering and Connecting Music Education* Lauren Kapalka Richerme proposes a poststructuralist inspired philosophy of music education *Complicating* current conceptions of self other and place Richerme emphasizes the embodied emotional and social aspects of humanity She also examines intersections between local and global music making Next Richerme explores the ethical implications of considering multiple viewpoints and imagining who music makers might become Ultimately she offers that music education is good for facilitating differing connections with one's self and multiple environments Throughout the text she also integrates the writings of Gilles Deleuze and Félix Guattari with narrative philosophy and personal narratives By highlighting the processes of complicating considering and connecting Richerme challenges the standardization and career centric rationales that ground contemporary music education policy and practice to better welcome diversity

Hard Choices, Soft Law John J. Kirton, Michael J. Trebilcock, 2017-03-02 An important read for academics and policy makers alike *Hard Choices Soft Law* asserts that voluntary standards or soft law are an important supplement to international law in a number of areas This key work firstly outlines the approach taken to combining soft and hard law and trade environment and labour values in the WTO and NAFTA and in the prospective Millennium Round Then using the forestry sector a realm where formal international law remains largely absent the book provides a detailed examination of the role of soft law in action It demonstrates how soft and hard law can be combined to promote trade environmental and social cohesion in ways that also permit sustainable development The book presents a wealth of knowledge from a range of contributors familiar with the work of the G7 G8 the OECD the Biodiversity Convention and the Codex Alimentarius

Soft Coal, Hard Choices Price V. Fishback, 1992-05-28 While most studies of labor in the coal industry focus on the struggle to organize unions this work offers a more diverse and quantitative examination of the labor market It regards the economic lives of the bituminous coal miners

in the early twentieth century Fishback's analytic framework encompasses competition among employers for labor the legal environment institutional development in response to transactions costs as well as the impact of labor unions on the coal industry Utilizing economic theory and statistics Fishback reveals the models hidden in the descriptions of events and then tests their internal consistency as well as the hypotheses they generate
