Reinventing the Soul Mari Ruti, 2020-10-20 Essential reading for scholars and students in critical theory psychoanalysis and gender studies How does the self care for itself in the posthumanist era What psychic processes might

allow the postmodern subject to find meaning and value in its life Is it possible to delineate a theory of psychic potentiality that is compatible with poststructuralist models of fluid decentered and polyvalent subjectivity Reinventing the Soul offers a new perspective on what it means to be a human being and to strive in the world despite the wounding effects of the socialization process Drawing on the rich legacies of French poststructuralism and Lacanian psychoanalysis Ruti builds an affirmative alternative to the post Foucaultian tendency to envision subjectivity as a function of hegemonic systems of power She proposes that the subject's encounter with the world also necessarily activates the psyche's innovative potential By focusing on matters of creative agency imaginative empowerment inner metamorphosis and self actualization Ruti outlines some of the mechanisms by which the psyche manages not only to survive its lack alienation or suffering but also to transform its abjection into an existentially livable reality Central to Ruti's argument is the idea that human beings relate to the world in active rather than merely passive ways as dynamic creators of meaning rather than as powerless dupes of disciplinary power

liberal democratic modernity at a moment when its future has never been less certain It examines the explosive threats the liberal order confronts today financial meltdown religious extremism environmental catastrophe Yet it also seeks to place these singularly modern crises within a much longer history For the contributors to this collection it is the ancient religious tradition called the messianic that provides the critical lens through which modernity may be interrogated In its ongoing struggles with the messianic liberal modernity confronts the promise and threat of a radically new Politics to Come So what are the Politics to Come How do they manifest themselves throughout history Why does the possibility of a messianic judgement continue to haunt the western political imaginary This collection offers a series of political philosophical and theological perspectives from which the future of liberal modernity if it has one can be imagined *Julia Kristeva* Noëlle McAfee, 2004 One of the most original thinkers of the twentieth century Julia Kristeva has been driving forward the fields of literary and cultural studies since the 1960s This volume is an accessible introductory guide to the main themes of Kristeva's work including her ideas on semiotics and symbolism abjection melancholia feminism revolt McAfee provides clear explanations of the more difficult aspects of Kristeva's theories helpfully placing her ideas in the relevant theoretical context be it literary theory psychoanalysis linguistics gender studies or philosophy and demonstrates the impact of her critical interventions in these areas Julia Kristeva is the essential guide for readers who are approaching the work of this challenging thinker for the first time and provides the ideal opportunity for those with more knowledge to re-familiarise themselves with Kristeva's key terms
