Resources in Education ,1984 Borderlines and Borderlands Alexander C. Diener,Joshua Hagen,2010 From our earliest schooldays we are shown the world as a colorful collage of countries each defined by their own immutable borders What we often don t realize is that every political boundary was created by people No political border is more natural or real than another yet some international borders make no apparent sense at all While focusing on some of these unusual border shapes this fascinating book highlights the important truth that all borders even those that appear normal are social constructions In an era where the continued relevance of the nation state is being questioned and where transnationalism is altering the degree to which borders effectively demarcate spaces of belonging the contributors argue that this point is vital to our understanding of the world The unique and compelling histories of some of the world s oddest borders provide an ideal context for this group of experts to offer accessible and enlightening discussions of cultural globalization economic integration international migration imperialism postcolonialism global terrorism nationalism and supranationalism Each author s regional expertise enriches a textured account of the historical context in which these borders came into existence as well as their historical and ongoing influence on the people and states they bound To view more maps from the David Rumsey Map Collection visit www.davidrumsey.com Contributions by Eric D Carter Karen Culcasi Alexander C Diener Joshua Hagen Reece Jones Robert Lloyd Nick Megoran Julian V Minghi David Newman Robert Ostergren and William C Rowe
