Mao's Crusade Alfred L. Chan, 2001-06-07 During 1957 and 1958 Mao was seized by a vision that the Chinese economy could develop rapidly in leaps and bounds by relying on intuition and mass spontaneity As a consequence he single handedly launched a colossal mobilization campaign called the Great Leap Forward which featured many radical policy innovations including the people's communes This book is the first in depth and original study of policy formulation and implementation during the Leap to link the roles of Mao the central leaders the ministries and the province of Guangdong Rejecting the theory that the Leap was an outcome of bureaucratic politics and competition the study establishes beyond doubt the supreme and dominant position of Mao in initiating and commanding the Leap Alfred L Chan goes further than propounding a Mao dominant model by documenting the strategic and tactical moves made by Mao in order to neutralize all opposition and to carry the day He also discusses in detail the policy roles and input of other top leaders on whom the improvising Mao relied to feed his imagination and to flesh out his policies In the chapters on the implementation of the Leap Dr Chan explores how the ministries of Metallurgy and Agriculture were transformed from bureaucratic agencies into agents of mobilization and how impossible targets forced them to keep up appearances by focussing on the rituals of mass mobilization Similarly other chapters on Guangdong show the simultaneously fervent ritualistic and desperate attempts to implement every hunch and intuition emanating from the centre Exhaustive research using new material made available in the post Mao era as well as archives from the 1950s and 1960s has yielded novel and original insights into the leader Mao central decision making and policy implementation in the communist hierarchy

The Nature of Chinese Politics: From Mao to Jiang Jonathan Unger, 2016-09-16 This book describes and analyzes how politics among the Chinese leadership has operated and evolved from the period of Mao's court up to the present day Part I explores politics under Mao and Deng For this section the five leading western analysts of elite Chinese politics Lowell Dittmer Lucian Pye Frederick Teiwes Andrew Nathan and Tsou Tang have contributed major papers that measure the empirical evidence against political science theory recent Chinese history and Chinese political culture Part II explores and analyzes the ongoing changes in Chinese politics during Jiang's tenure and includes analyses by almost all the leading English language scholars in the field

China beyond the Headlines Lionel M. Jensen, Timothy B. Weston, 2000-03-22 This unique book takes the reader beyond the headlines to explore a China few Westerners have seen The authors argue that the great gap between what specialists understand and the general public

believes has led to distorted and potentially dangerous misunderstandings of China Seeking to bridge that gap a group of prominent scholars and activists challenge readers to move past the usual images of China presented by the media and to think about the common problems shared by China and the United States In a morally engaged spirit they explore such issues as environmental degradation unemployment growing inequality ethnicity human rights corruption and changing images of women to bring to life the fabric of contemporary Chinese life and how it twines around the political consciousness of Americans

China Gungwu Wang, John Wong, 1999 This volume serves as a convenient handbook for both scholars and laymen to have a good overview of China's major developments and transformation in the political economic legal and social spheres since 1978 Such a review would be useful for appreciating the enormous problems that will challenge China in its next phase of transition

Governance and Politics of China Tony Saich, 2024-10-17 The success or failure of China's development will impact not only its own citizens but also those of the world China is widely recognized as a global actor on the world stage and no global challenge can be resolved without its participation It is important to understand how the country is ruled and what its policy priorities are Can China move to a more market based economy while controlling environmental degradation Can it integrate hundreds of millions of new migrants into the urban landscape The tensions between communist and capitalist identities continue to divide society as China searches for a path to modernization In this revised fifth edition and essential guide to the subject Tony Saich delivers a thorough introduction to all aspects of politics and governance in post Mao China taking full account of the changes of the 20th Party Congress and the 13th National People's Congress as well as the situation in Hong Kong and current debates in Chinese society

Globalization and State Transformation in China Yongnian Zheng, 2004 As China develops its economy the author argues it will be held back by its refusal to import democratic values

The End of the Maoist Era: Chinese Politics During the Twilight of the Cultural Revolution, 1972-1976 Frederick C Teiwes, Warren Sun, 2014-12-18 This book launches an ambitious reexamination of the elite politics behind one of the most remarkable transformations in the late twentieth century As the first part of a new interpretation of the evolution of Chinese politics during the years 1972-82 it provides a detailed study of the end of the Maoist era demonstrating Mao's continuing dominance even as his ability to control events ebbed away The tensions within the gang of four the different treatment of Zhou Enlai and Deng Xiaoping and the largely unexamined role of younger radicals are analyzed to reveal a view of the dynamic of elite politics that is at odds with accepted scholarship The authors draw upon newly available documentary sources and extensive interviews with Chinese participants and historians to develop their challenging interpretation of one of the most poorly understood periods in the history of the People's Republic of China

Mao Cult Daniel Leese, 2011-10-31 Although many books have explored Mao's posthumous legacy none has scrutinized the massive worship that was fostered around him during the Cultural Revolution This book is the first to do so By analyzing secret archival documents Daniel Leese traces the history of the cult within the Communist Party and at the

grassroots level The party leadership's original intention was to develop a prominent brand symbol which would compete with the nationalists' elevation of Chiang Kai-shek However they did not anticipate that Mao would use this symbolic power to mobilize Chinese youth to rebel against party bureaucracy itself The result was anarchy and when the army was called in it relied on mandatory rituals of worship such as daily reading of the Little Red Book to restore order Such fascinating detail sheds light not only on the personality cult of Mao but also on hero worship in other traditions *China's Use of Military Force* Andrew Scobell, 2003-09-08 In this unique study of China's militarism Andrew Scobell examines the use of military force abroad as in Korea 1950 Vietnam 1979 and the Taiwan Strait 1995 1996 and domestically as during the Cultural Revolution of the late 1960s and in the 1989 military crackdown in Tiananmen Square Debunking the view that China has become increasingly belligerent in recent years because of the growing influence of soldiers Scobell concludes that China's strategic culture has remained unchanged for decades Nevertheless the author uncovers the existence of a Cult of Defense in Chinese strategic culture The author warns that this Cult of Defense disposes Chinese leaders to rationalize all military deployment as defensive while changes in the People's Liberation Army's doctrine and capabilities over the past two decades suggest that China's twenty-first century leaders may use military force more readily than their predecessors **The**

Emergence of Global Maoism Matthew Galway, 2022-03-15 The *Emergence of Global Maoism* examines the spread of Mao Zedong's writings ideology and institutions when they traveled outside of China Matthew Galway links Chinese Communist Party efforts to globalize Maoism to the dialectical engagement of exported Maoism by Cambodian Maoist intellectuals How do ideas manifest outside of their place of origin Galway analyzes how universal ideological systems became localized both in Mao's indigenization of Marxism-Leninism and in the Communist Party of Kampuchea's indigenization of Maoism into its own revolutionary ideology By examining the intellectual journeys of CPK leaders who during their studies in Paris in the 1950s became progressive activist intellectuals and full-fledged Communists he shows that they responded to political and socioeconomic crises by speaking back to Maoism adapting it through practice without abandoning its universality Among Mao's greatest achievements the Sinification of Marxism enabled the CCP to canonize Mao's thought and export it to a progressive audience of international intellectuals These intellectuals would come to embrace the ideology as they set a course for social change The *Emergence of Global Maoism* illuminates the process through which China moved its goal from class revolution to a larger anticolonial project that sought to cast out European and American imperialism from Asia

Making China Modern Klaus Mühlhahn, 2019-01-14 Thoughtful probing a worthy successor to the famous histories of Fairbank and Spence that will be read by all students and scholars of modern China William C Kirby coauthor of *Can China Lead* It is tempting to attribute the rise of China to Deng Xiaoping and to recent changes in economic policy But China has a long history of creative adaptation In the eighteenth century the Qing Empire dominated a third of the world's population Then as the Opium Wars and the Taiping Rebellion ripped the country apart China found itself verging on free fall More

recently after Mao China managed a surprising recovery rapidly undergoing profound economic and social change A dynamic story of crisis and recovery failure and triumph Making China Modern explores the versatility and resourcefulness that guaranteed China's survival powered its rise and will determine its future Chronicles reforms revolutions and wars through the lens of institutions often rebutting Western impressions New Yorker A remarkable accomplishment Unlike an earlier generation of scholarship Making China Modern does not treat China's contemporary transformation as a postscript It accepts China as a major and active player in the world places China at the center of an interconnected and global network of engagement links domestic politics to international dynamics and seeks to approach China on its own terms Wen hsin Yeh author of Shanghai Splendor *China's Leaders* David Shambaugh, 2021-06-25 Since the founding of the People's Republic of China over 70 years ago five paramount leaders have shaped the fates and fortunes of the nation and the ruling Chinese Communist Party Mao Zedong Deng Xiaoping Jiang Zemin Hu Jintao and Xi Jinping Under their leaderships China has undergone an extraordinary transformation from an undeveloped and insular country to a comprehensive world power In this definitive study renowned Sinologist David Shambaugh offers a refreshing account of China's dramatic post revolutionary history through the prism of those who ruled it Exploring the persona formative socialization psychology and professional experiences of each leader Shambaugh shows how their differing leadership styles and tactics of rule shaped China domestically and internationally Mao was a populist tyrant Deng a pragmatic Leninist Jiang a bureaucratic politician Hu a technocratic apparatchik and Xi a modern emperor Covering the full scope of these leaders personalities and power this is an illuminating guide to China's modern history and understanding how China has become the superpower of today Also available as an audiobook **Media Politics in China** Maria Repnikova, 2017-06-15 Who watches over the party state In this engaging analysis Maria Repnikova reveals the webs of an uneasy partnership between critical journalists and the state in China More than merely a passive mouthpiece or a dissident voice the media in China also plays a critical oversight role one more frequently associated with liberal democracies than with authoritarian systems Chinese central officials cautiously endorse media supervision as a feedback mechanism as journalists carve out space for critical reporting by positioning themselves as aiding the agenda of the central state Drawing on rare access in the field Media Politics in China examines the process of guarded improvisation that has defined this volatile partnership over the past decade on a routine basis and in the aftermath of major crisis events Combined with a comparative analysis of media politics in the Soviet Union and contemporary Russia the book highlights the distinctiveness of Chinese journalist state relations as well as the renewed pressures facing them in the Xi era [China's Political Economy in Modern Times](#) Kent G Deng, 2011-10-04 This book examines Chinese political economy spanning from 1800 to the dawn of the 21st century shedding new light on our understanding of the reasons and impact of socio political and socio economic changes in China Crossing over the three disciplines of history politics and economics the analyses China's ideology politics and the economy using state building as

the key theme and puts the emphasis on China's internal factors and mechanisms instead of the influence from Western imperialism or Japanese colonialism. It pays close attention to the movers and shakers inside Chinese society and carefully reveals historical contingencies which lend the reader a unique and radically different re-interpretation of China's recent history.

China's Party Congress Guoguang Wu, 2015-09-18 The first analysis of the National Congress of the Chinese Communist Party more commonly known as the Party Congress. Drawing from new documentary evidence, Guoguang Wu examines the operation of the highest decision-making body in China's single ruling party, developing a theory of authoritarian legitimization that integrates informal politics with institutions.

The Party Family Kimberley Ens Manning, 2023-08-15 Co-winner of the Canadian Political Science Association Prize in Comparative Politics of the Canadian Political Science Association. The Party Family explores the formation and consolidation of the state in revolutionary China through the crucial role that social ties, specifically family ties, played in the state's capacity to respond to crisis before and after the foundation of the People's Republic of China. Central to these ties, Kimberley Ens Manning finds, were women as both the subjects and leaders of reform. Drawing on interviews with 163 participants in the provinces of Henan and Jiangsu as well as government documents and elite memoirs, biographies, speeches, and reports, Manning offers a new theoretical lens, attachment politics, to underscore how family and ideology intertwined to create an important building block of state capacity and governance. As The Party Family details, infant mortality in China dropped by more than half within a decade of the PRC's foundation, a policy achievement produced to a large extent through the personal and family ties of the maternalist policy coalition that led the reform movement. However, these achievements were undermined or reversed in the complex policy struggles over the family during Mao's Great Leap Forward, 1958-60.

Modernizing China's Military David Shambaugh, 2003-03-25 David Shambaugh, a leading international authority on Chinese strategic and military affairs, offers the most comprehensive and insightful assessment to date of the Chinese military. The result of a decade's research, *Modernizing China's Military* comes at a crucial moment in history, one when international attention is increasingly focused on the rise of Chinese military power. Basing his analysis on an unprecedented use of Chinese military publications and interviews with People's Liberation Army (PLA) officers, Shambaugh addresses important questions about Chinese strategic intentions and military capabilities, questions that are of key concern for government policymakers as well as strategic analysts and a concerned public.

Coercion and Governance Muthiah Alagappa, 2001 This far-ranging volume offers both a broad overview of the role of the military in contemporary Asia and a close look at the state of civil-military relations in sixteen Asian countries. It discusses these relations in countries where the military continues to dominate the political realm as well as others where it is disengaging from politics.
