New University London History Criticism:

Ridiculous Critics Philip Smallwood, Min Wild, 2014-09-16 Ridiculous Critics is an anthology of eighteenth century writings on the figure of the literary critic and on the critic's mixed and complex role. The collection assembles critical texts and satirical images chronologically to suggest a vision of the history of eighteenth century literary criticism. Including comic, vicious, heartfelt and absurd passages from critics, poets, novelists and literary commentators, celebrated and obscure, the writings range through poetry, fiction, drama and periodical writing. The anthology also includes two original essays discussing and illustrating the irrepressible spirit of critical ridicule in the period and commending its value and effect. The first offers an evaluation of the merciless and sometimes shockingly venomous satirical attacks on critical habits and personalities of the eighteenth century. The editors argue that such attacks are reflexive in the sense that criticism becomes increasingly supple and able to observe and examine its own irresponsible ingenuities from within. The volume's concluding essay supplies an analysis of modern modes of criticism and critical history and suggests applications across time. We propose that humor's vital force was once an important part of living criticism. The eighteenth century mockery of critics casts light on a neglected common thread in the history of criticism and its recent manifestations; it prompts questions about the relative absence of comedy from the stories we presently tell about critics, dead or alive. The passages invite laughter both with the critics and at their expense and suggest the place that ridicule might have had since the eighteenth century in the making of judgments and in the pricking of critical pretension. For this reason, they indicate the role that laughter may still have in criticism today and provide an encouraging precedent for its future.

The Critic in the Modern World James Ley, 2014-05-08 The Critic in the Modern World explores the work of six influential literary critics: Samuel Johnson, William Hazlitt, Matthew Arnold, T. S. Eliot, Lionel Trilling, and James Wood, each of whom occupies a distinct historical moment. It considers how these representative critics have constructed their public personae, the kinds of arguments they have used, and their core principles and philosophies. Spanning three hundred years of cultural history, The Critic in the Modern World considers the various ways in which literary critics have positioned themselves in relation to the modern tradition of descriptive criticism. In providing a lucid account of each critic's central principles and philosophies, it considers the role of the literary critic as a public figure, interpreting him as someone who is compelled to address the wider issues of individualism and the social implications of the democratising, secularising, liberalising forces of modernity.

Reconstructing Criticism Philip Smallwood, 2003 This study aims to bring the modern theory of literary criticism and Pope's Essay on Criticism of 1711 into a more productive and interesting association than critical historical structures have generally allowed. Smallwood marks out in current terms and in depth the specialized theoretical and aesthetic problem of defining criticism. He recognizes that criticism, no more than literature or art, cannot be finally codified or defined but insists on the need for clarity in the exposition of criticism's purposes and a fuller consciousness of a common community of practice.

available to audiences outside the academic fold Affirming the unfailing currency and utility of the term criticism as new languages have taken over the critical domain or have sought to replace or abolish literature Smallwood distinguishes between the normative definitions that are everywhere apparent in modern theory of criticism and the advantages to conceptual comprehension achieved by Pope's poetic idea of criticism in the Essay
