Framing War Francesco Olmastroni, 2014-10-10 Most research on framing has focused on media and elite frames the ways that the mass media and politicians present information about issues and events to the public Until now the process by which citizens opinions may affect the initial frame building process has been largely ignored The two way flow of influence between public opinion and decision makers has been analyzed more from a top down than a bottom up perspective Olmastroni addresses this issue by introducing a cyclical model of framing Additionally most empirical studies on media framing have centered on the United States Olmastroni s text seeks to overcome this limitation of prior research by examining different types of framing in three different countries Framing War uses the recent war on Iraq as a case study focusing on the elite and media framing of this event in order to examine the interaction between the political elite and the mass public in three Western democracies France Italy and the US during the early and on going stages of the military crisis The book analyzes whether and potentially the extent to which decision makers tracked and responded to public opinion in presenting their foreign policy choices It examines the strategies and approaches that governments potentially adopted to influence public opinion towards either the need for or the lack of need for a military intervention By representing the framing paradigm as a cycle Olmastroni shows how each actor within the system i e government and other elites news media and public opinion is linked to the others and contributes to the final representation of an issue In contrast with other theoretical perspectives of framing this book states that the framing influence does not only proceed from the government to the public but it often moves at the same level of the system with each actor playing different roles Olmastroni s insights on framing are significant for researchers in international relations political communication public opinion comparative politics and political psychology as well as policy analysts journalists and commentators , **American Civil War** Spencer C. Tucker, 2013-09-30 This expansive multivolume reference work provides a broad multidisciplinary examination of the Civil War period ranging from pre Civil War developments and catalysts such as the Mexican American War to the rebuilding of the war torn nation during Reconstruction The Civil War was undoubtedly the most important and seminal event in 19th century American history Students who understand the Civil War have a better grasp of the central dilemmas in the American historical narrative states rights versus federalism freedom versus slavery the role of the military establishment the extent of presidential powers and individual rights versus collective rights Many of these dilemmas continue to shape modern society and politics This comprehensive work facilitates both detailed reading and quick referencing for readers from the high school level to senior scholars in the field The exhaustive coverage of this encyclopedia includes all significant battles and skirmishes important figures both civilian and military weapons government relations with Native Americans and a plethora of social political cultural military and economic developments The entries also address the many events that led to the conflict the international diplomacy of the war the rise of the Republican Party and the growing crisis and stalemate in

American politics slavery and its impact on the nation as a whole the secession crisis the emergence of the total war concept and the complex challenges of the aftermath of the conflict *Watching Darkness Fall* David McKean,2025-09-23 A gripping and groundbreaking account of how all but one of FDR's ambassadors in Europe misjudged Hitler and his intentions As German tanks rolled toward Paris in late May 1940 the U S Ambassador to France William Bullitt was determined to stay put holed up in the Chateau St Firmin in Chantilly his country residence Bullitt told the president that he would neither evacuate the embassy nor his chateau an eighteenth Renaissance manse with a wine cellar of over 18 000 bottles even though we have only two revolvers in this entire mission with only forty bullets As German forces closed in on the French capital Bullitt wrote the president In case I should get blown up before I see you again I want you to know that it has been marvelous to work for you As the fighting raged in France across the English Channel Ambassador to Great Britain Joseph P Kennedy wrote to his wife Rose The situation is more than critical It means a terrible finish for the allies David McKean's *Watching Darkness Fall* will recount the rise of the Third Reich in Germany and the road to war from the perspective of four American diplomats in Europe who witnessed it firsthand Joseph Kennedy William Dodd Breckinridge Long and William Bullitt who all served in key Western European capitals London Berlin Rome Paris and Moscow in the years prior to World War II In many ways they were America's first line of defense and they often communicated with the president directly as Roosevelt's eyes and ears on the ground Unfortunately most of them underestimated the power and resolve of Adolf Hitler and Germany's Third Reich *Watching Darkness Fall* is a gripping new history of the years leading up to and the beginning of WWII in Europe told through the lives of five well educated and mostly wealthy men all vying for the attention of the man in the Oval Office

Communication and Language Analysis in the Public Sphere Hart, Roderick P.,2014-01-31 Although language is certainly individualized most people conform to linguistic norms because of their surroundings Over time particular words and phrases are popularized by the media social trends or world events and with emergence of internet technologies the communication between all types of people is much easier Communication and Language Analysis in the Public Sphere explores the influence of the World Wide Web on the relationships between ordinary citizens and the ability to communicate with politicians celebrities and the media As some words may gain popularity worldwide and others may begin to define a specific discipline This book is essential for linguistics researchers scholars and professionals interested in determining these patterns and how they affect groups and individuals The New York Times ,2009 Facsimile reproductions of more than 300 of the most significant and pivotal New York Times front pages **The Fruits Of His Labor** John B. Davis,2013-06 THE FRUITS OF HIS LABOR The true story of Professor Edmond Jefferson Oliver Principal of Fairfield Industrial High School it's staff it's students community state of Alabama the Nation and the World By John B Davis Class of 1951 Fruit results from planted seeds when seeds grow they bear fruit Galatians 5:22-23 We were taught that the fruit that you have to reach for is the sweetest The fruits of his labor are many the world is blessed with Fairfield Industrial High School F I H S graduates

eschewing their accomplishments through serving others As one of our graduates Lois Macon eloquently proclaimed There was a place called FAIRFIELD INDUSTRIAL HIGH SCHOOL and a man named EDMOND JEFFERSON OLIVER and his vision was to educate the coloreds living in a colored community children of colored parents who worked at colored jobs to send their colored children to a colored school The visionary Professor Oliver with head bloody but unbowed still forged ahead Each drop of blood in the sand like living water produced living fruit sprouting all around is evidence of his passion He calls to the visionaries and awaits that army to understand that each child of mother F I H S also has a purpose that each is and that is will be is when he or she is We the graduates of Fairfield Industrial High School are the fruits of his labor and some of our stories are unfolded in this book Like a plant Professor Oliver s roots are showing He grew good people in our small town with honesty sincerity and dignity Drop this book on the floor and where ever it opens it will be excellent reading This true story is dedicated to our BLACK Community I choose to capitalize the word BLACK because of all the hell we caught and are still catching in this country

When Bad Things Happen to Privileged People Dara Z. Strolovitch, 2023-07-06 A deep and thought provoking examination of crisis politics and their implications for power and marginalization in the United States From the climate crisis to the opioid crisis to the Coronavirus crisis the language of crisis is everywhere around us and ubiquitous in contemporary American politics and policymaking But for every problem that political actors describe as a crisis there are myriad other equally serious ones that are not described in this way Why has the term crisis been associated with some problems but not others What has crisis come to mean and what work does it do In When Bad Things Happen to Privileged People Dara Z Strolovitch brings a critical eye to the taken for granted political vernacular of crisis Using systematic analyses to trace the evolution of the use of the term crisis by both political elites and outsiders Strolovitch unpacks the idea of crisis in contemporary politics and demonstrates that crisis is itself an operation of politics She shows that racial justice activists innovated the language of crisis in an effort to transform racism from something understood as natural and intractable and to cast it instead as a policy problem that could be remedied Dominant political actors later seized on the language of crisis to compel the use of state power but often in ways that compounded rather than alleviated inequality and injustice In this eye opening and important book Strolovitch demonstrates that understanding crisis politics is key to understanding the politics of racial gender and class inequalities in the early twenty first century

The New York Times Magazine ,2009

Covering the Campus Brian Farkas, 2009 Among the oldest student publications in the United States the Miscellany News traces its roots back to 1866 Beginning as a literary magazine and evolving into a contemporary newspaper the paper has reported nearly 150 years of student experiences The Miscellany has seen generations of Vassar College students who have witnessed the horrors of international war felt the injustices of racial strife and observed stirring protests unfold on their own campus This narrative history of the Miscellany tells the story of the young men and women writing about their collegiate environment against the grand backdrop of American history With careful qualitative and

quantitative analysis along with scores of interviews with former editors Brian Farkas navigates the complex and fascinating history of the Miscellany Blending historical investigation with his personal experience Farkas presents a fascinating and often humorous window into journalism history s first draft *The New York Times* ,2009 **The First White House Library** Catherine M. Parisian,2010 The First White House Library is the first book to consider the history of books and reading in the Executive Mansion Talking to the Girls Edvige Giunta,Mary Anne Trasciatti,2022-03-22 Candid and intimate accounts of the factory worker tragedy that shaped American labor rights On March 25 1911 a fire broke out on the eighth floor of the Asch Building in Greenwich Village New York The top three floors housed the Triangle Waist Company a factory where approximately 500 workers mostly young immigrant women and girls labored to produce fashionable cotton blouses known as waists The fire killed 146 workers in a mere 15 minutes but pierced the perpetual conscience of citizens everywhere The Asch Building had been considered a modern fireproof structure but inadequate fire safety regulations left the workers inside unprotected The tragedy of the fire and the resulting movements for change were pivotal in shaping workers rights and unions A powerful collection of diverse voices Talking to the Girls Intimate and Political Essays on the Triangle Fire brings together stories from writers artists activists scholars and family members of the Triangle workers Nineteen contributors from across the globe speak of a singular event with remarkable impact One hundred and eleven years after the tragic incident Talking to the Girls articulates a story of contemporary global relevance and stands as an act of collective testimony a written memorial to the Triangle victims **The Politics of National Capitalism** James P. Brennan,Marcelo Rougier,2009-01-01 In mid twentieth century Latin America there was a strong consensus between Left and Right Communists working under the directives of the Third International nationalists within the military interested in fostering industrialization and populists about the need to break away from the colonial legacies of the past and to escape from the constraints of the international capitalist system Even though they disagreed about the desired end state Argentines of all political stripes could agree on the need for economic independence and national sovereignty which would be brought about through the efforts of a national bourgeoisie James Brennan and Marcelo Rougier aim to provide a political history of this national bourgeoisie in this book Deploying an eclectic methodology combining aspects of the new institutionalism the new economic history Marxist political economy and deep research in numerous rarely consulted archives into what they dub the new business history the authors offer the first thorough empirically based history of the national bourgeoisie s peak association the Confederaci n General Econ mica CGE and of the Argentine bourgeoisie s relationship with the state They also investigate the relationship of the bourgeoisie to Per n and the Peronist movement by studying the history of one industrial sector the metalworking industry and two regional economies one primarily industrial C rdoba and another mostly agrarian Chaco with some attention to a third Tucum n a cane cultivating and sugar refining region sharing some features of both While spanning three decades the book concentrates most on the years of Peronist government 1946 55 and 1973 76

Encyclopedia of journalism. 6. Appendices Christopher H. Sterling, 2009-09-25 The six volume Encyclopedia of Journalism covers all significant dimensions of journalism including print broadcast and Internet journalism US and international perspectives history technology legal issues and court cases ownership and economics **The Housing Boom and Bust** Thomas Sowell, 2010-02-23 This is a plain English explanation of how we got into the current economic disaster that developed out of the economics and politics of the housing boom and bust The creative financing of home mortgages and the even more creative marketing of financial securities based on American mortgages to countries around the world are part of the story of how a financial house of cards was built up and then suddenly collapsed The politics behind all this is another story full of strange twists No punches are pulled when discussing politicians of either party the financial dangers they created or the distractions they created later to escape their own responsibility for what happened when the financial house of cards in the financial markets collapsed What to do now that we are in the midst of an economic disaster is yet another story one whose ending we do not yet know but one whose outlines and implications are explored to reveal some surprising and sobering lessons Literary Research and the American Realism and Naturalism Period Linda L. Stein, Peter J. Lehu, 2009 Literary Research and the American Realism and Naturalism Period Strategies and Sources will help those interested in researching this era Authors Linda L Stein and Peter J Lehu emphasize research methodology and outline the best practices for the research process paying attention to the unique challenges inherent in conducting studies of national literature *To Laugh That We May Not Weep* Glenn Bray, Frank Young, 2017-03-29 Art Young was one of the most renowned and incendiary political cartoonists in the first half of the 20th century And far more an illustrator for magazines such as The Saturday Evening Post and Colliers a magazine publisher a New York State Senatorial candidate on the Socialist ticket and perhaps the only cartoonist to be tried under the Espionage Act for sedition He made his reputation appearing in The Masses on a regular basis using lyrical vibrant graphics and a deep appreciation of mankind s inherent folly to create powerful political cartoons To Laugh That We May Not Weep is a sweeping career retrospective reprinting often for the first time in 60 or 70 years over 800 of Young s timeless charming and devastating cartoons and illustrations many reproduced from original artwork to create a fresh new portrait of this towering figure in the worlds of cartooning and politics With essays by Art Spiegelman Justin Green Art Young biographer Marc Moorash Anthony Mourek and Glenn Bray with a biographical overview of Young s life and work by Frank M Young To Laugh That We May Weep is a long awaited tribute to one of the great lost cartoonists whose work is as relevant in the 21st century as it was in its own time The New York Times Complete Front Pages. Ediz. Inglese , 2009 *The Mediated World* David T. Z. Mindich, 2023-12-11 A full color interdisciplinary exploration of how media and mass communication shape society and how students can take control of their media futures Today s students have a world of knowledge at their fingertips and no longer need books to list names and dates What they need is the story of how everything fits together and the critical tools to take charge of their place within

that story David T Z Mindich's *The Mediated World* charts the story of media as it has shaped human life and as it infuses every aspect of our modern existence Mindich's engaging narrative style focuses on concepts and real world contexts to promote the media literacy students need to understand their personal relationships with media Empowered as media consumers creators and curators students realize their responsibility to work within the vast world of media to create more positive and productive futures The second edition of this text brings historical media and overarching themes to life for students Each chapter opens with a contemporary vignette that meets students in the current moment before encouraging them to consider the past Application sidebars suggest practical activities that allow students to delve deeper into topics while Reflection boxes encourage students to think critically about their own media use With a strong emphasis on media literacy that treats students as media stakeholders who have a vested interest in understanding its workings and effects Mindich's text is the perfect book for a generation of students looking to take charge of their futures in this mediated world
