Spoken Word. ZBBC 1198. 2 Audio Cassettes Garrison Keillor, 19?? *Displacing the Divine* Douglas Alan Walrath, 2010-05-07 As religious leaders ministers are often assumed to embody the faith of the institution they represent As cultural symbols they reflect subtle changes in society and belief specifically people's perception of God and the evolving role of the church For more than forty years Douglas Alan Walrath has tracked changing patterns of belief and church participation in American society and his research has revealed a particularly fascinating trend portrayals of ministers in American fiction mirror changing perceptions of the Protestant church and a Protestant God From the novels of Harriet Beecher Stowe who portrays ministers as faithful Calvinists to the works of Herman Melville who challenges Calvinism to its very core Walrath considers a variety of fictional ministers including Garrison Keillor's Lake Wobegon Lutherans and Gail Godwin's women clergy He identifies a range of types religious misfits harsh Puritans incorrigible scoundrels secular businessmen perpetrators of oppression victims of belief prudent believers phony preachers reactionaries and social activists He concludes with the modern legacy of nineteenth and early twentieth century images of ministers which highlights the ongoing challenges that skepticism secularization and science have brought to today's religious leaders and fictional counterparts *Displacing the Divine* offers a novel encounter with social change giving the reader access through the intimacy and humanity of literature to the evolving character of an American tradition *Unleashing the Potential of the Smaller Church* Shawn McMullen, 2006 Drawing from the experiences of ministers in smaller churches from coast to coast leaders and members alike will find motivation and resources for vision casting and strategic planning in the ministry setting of the smaller church and community This book addresses topics including outreach evangelism missions youth ministry children's ministry working with volunteers and planning for growth New York Magazine, 1987-06-15 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning

writing and photography covering everything from politics and food to theater and fashion the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea *State*, 1992 Newsletter United States. Department of State, 1992 **Twain's Brand** Judith Yaross Lee, 2013-02-26 Samuel L Clemens lost the 1882 lawsuit declaring his exclusive right to use Mark Twain as a commercial trademark but he succeeded in the marketplace where synergy among his comic journalism live performances authorship and entrepreneurship made Mark Twain the premier national and international brand of American humor in his day And so it remains in ours because Mark Twain's humor not only expressed views of self and society well ahead of its time but also anticipated ways in which humor and culture coalesce in today's postindustrial information economy the global trade in media performances and other forms of intellectual property that began after the Civil War In Twain's Brand Humor in Contemporary American Culture Judith Yaross Lee traces four hallmarks of Twain's humor that are especially significant today Mark Twain's invention of a stage persona comically conflated with his biographical self lives on in contemporary performances by Garrison Keillor Margaret Cho Jerry Seinfeld and Jon Stewart The postcolonial critique of Britain that underlies America's nationalist tall tale tradition not only self destructs in A Connecticut Yankee in King Arthur's Court but also drives the critique of American Exceptionalism in Philip Roth's literary satires The semi literate writing that gives Adventures of Huckleberry Finn its vernacular vision wrapping cultural critique in ostensibly innocent transgressions and misunderstandings has a counterpart in the apparently untutored drawing style and social critique seen in The Simpsons Lynda Barry's comics and The Boondocks And the humor business of recent decades depends on the same brand name promotion cross media synergy and copyright practices that Clemens pioneered and fought for a century ago Twain's Brand highlights the modern relationship among humor commerce and culture that were first exploited by Mark Twain

Emerging Geographies of Belief Catherine Brace, 2010-10-12 This interdisciplinary book presents new research from international scholars that explores questions of belief faith and religion Focusing on theoretically informed cultural geographical and historical analyses of faith belief religion society and space the book presents new and revised theoretical approaches and methodologies grounded in rigorous empirical research both contemporary and historical The volume takes a deliberately eclectic approach reflecting the complex interactions of the political and poetic dimensions of sacredness in contemporary societies Taking this research agenda forward this book explores how religious beliefs inform and construct social identities public knowledge and modes of governance In particular the book meets an urgent need for a critical understanding of how terms such as religion faith fundamentalism and secularism for example inform public debates and foster constructive engagements both between faith groups and between people of faith and people of no faith The essays in Emerging Geographies of Belief also show that religion cannot be mapped neatly onto faith or belief We attempt to tease out the different circumstances in which for example belief can operate without religious adherence or faith can inspire social

action in geographies of hope The geography of the title relates to an overarching concern with space and spatiality rather than describing a single disciplinary approach Our concern with belief faith and religion operates at different temporal and spatial scales in different localities from the contemporary appeal to a more global sense of responsibility to a historically situated account of faith led educational practices This reflects more generally the so called spatial turn in the social sciences and humanities But despite this wide historical and geographical sweep the authors share some key concerns This collection is unique in combining theoretical conceptual and discursive approaches to the emerging geographies of belief with substantive examples of the intersection of belief faith and religion with aspects of everyday life Discussions of the potential subversive and prophetic capacities of faith belief and religion sit alongside consideration of how these have become implicated in the spaces and performances of hope It provides a critique of the situationist and substantive approaches to religion along with insights into the role of faith in education community and social work It considers the practices of remembrance representation and pilgrimage and the place of religion in contemporary identity politics In sum the book problematises the seemingly simple categories of faith religion and belief calling attention to how these are mobilised and implicated differently in different circumstances In addressing these themes the book provides a key theoretical resource but crucially goes on to show how multiple perspectives on belief however defined can be applied in practice Whilst there has been much contemporary work on the individual areas covered by the book they have not been brought together before to provide a dynamic insight into issues of the most pressing relevance
