CMS FY 2010 Top Ten Hospice Survey Deficiencies (Compliance Tip Sheet)

Introduction

The Centers for Medicare and Medicaid Services (CMS) identifies the top ten most frequent survey deficiencies cited during Medicare hospice recertification surveys annually. This compliance tip sheet will:

- ✓ List the survey deficiency by Medicare hospice Condition of Participation* (CoP) and by Hospice Program Interpretive Guidance** L-Tag from federal Fiscal Year 2000.
- ✓ Provide an example of the deficiency based on actual CMS survey deficiency data.
- ✓ Provide suggestions from a clinical, documentation, and administrative perspective for compliance.
- ✓ List the standard and practice example from the NHPCO [Standards of Practice for Hospice Programs \(2012\)](#) related to the cited deficiency.

* The [Medicare hospice Conditions of Participation \(2008\)](#) contain the federal regulations that govern all Medicare-certified hospice programs.

** The Hospice Program Appendix M: [Interpretive Guidelines \(2000\)](#) are guidance to personnel conducting surveys of hospices, and serve to clarify and/or explain the intent of the regulations. All surveyors are required to use them in assessing compliance with federal requirements. The purpose of the protocols and guidelines is to direct the surveyor's attention to avenues of investigation in preparation for the survey, conducting the survey and evaluating the survey findings.

CMS Top Ten Hospice Survey Deficiencies

The top ten hospice survey deficiencies listed in order of the most frequently cited are:

1. **Medicare hospice CoP: §418.56(b) Standard: Plan of care.**
All hospice care and services furnished to patients and their families must follow an individualized written plan of care established by the hospice interdisciplinary group in collaboration with the attending physician (if any), the patient or representative, and the primary caregiver in accordance with the patient's needs if any of them so desire.
Interpretive Guidelines L-Tag: L1411
2. **Medicare hospice CoP: §418.56(c) Standard: Content of the plan of care.**
The hospice must develop an individualized written plan of care for each patient. The plan of care must reflect patient and family goals and interventions based on the problems identified in the

Evidence-Based Geriatric Nursing Protocols for Best Practice Marie Boltz, Marie P. Boltz, Elizabeth Capezuti, Terry T. Fulmer, 2024-09-26 Praise for previous editions The evidence based protocols are designed as a primary reference and are useful substantive and timely The broader contributions of useful format and succinct review of the evidence make it likely that this text will continue to be the leading resource in nursing education and practice The Gerontologist As a gerontological clinical educator research nurse I will often use this as a reference The format and the content are good and the explanations of how to best use the evidence simplify the process of sifting through mountains of information to figure the best practice Score 97 Doodys The result of a collaboration between expert practitioners and educators in geriatric nursing the seventh edition of this acclaimed reference has been updated and revised with new information on chronic conditions and emerging models of care presented in 10 completely new chapters It provides the most current evidence based protocols for improving both quality of care and patient outcomes when caring for older adults in multiple disciplines and settings As in past editions the seventh edition is distinguished by its use of a rigorous systematic method AGREE Appraisal of Guidelines for Research and Evaluation to improve the validity of the book s evidence based content Chapters provide assessment and management principles clinical interventions and information on specialty practice and models of care Included in most chapters are protocols developed for each clinical condition by experts in that specific area Evidence is current and derived from all settings of care including community primary acute and long term care Protocols include an overview and evidence based assessment and intervention strategies Illustrative case studies with discussion are presented in most chapters along with chapter objectives and references with evidence ratings Instructor s resources include an AACN Mapping Grid Course Cartridge Transition Guide PowerPoints and Test Bank New to the Seventh Edition Updated to encompass the latest trends in older adult care chronic conditions and emerging models of care New chapters on care and management of diabetes and respiratory care New chapters on issues surrounding nutrition and dementia and mental illness New chapter on care and comfort at the end of life New chapters on adopting principles of diversity equity and inclusion and an age friendly health system into practice New chapters on models of care in long term community based and primary care Key Features Delivers easy to follow geriatric protocols for best practices Updates

evidence regularly to reflect current practice standards Encompasses a broad scope of content including detailed information rarely covered in professional literature Offers case studies and discussions to illustrate application of protocol to practice Written by renowned leaders in geriatric nursing education and practice Use of AGREE Appraisal of Guidelines for Research and Evaluation to improve the validity of evidence throughout the text *Fast Facts for the Hospice Nurse* Patricia Moyle Wright,2017-01-28 An on the go reference for hospice nurses and those interested in end of life care this practical guide covers the essential elements in the compassionate and holistic care of terminally ill patients and their families Nurses care for patients facing end of life issues in every practice specialty and as the U S population continues to age the need for proficiency in end of life skills will become increasingly important Fast Facts for the Hospice Nurse A Concise Guide to End of Life Care is an invaluable resource that provides emotional administrative and palliative support whether in a hospice long term care facility or acute care setting This vital go to text clearly and concisely lays out not only how to care for patients facing end of life issues but also how to engage in self care and cope with occupational stress Beginning with an overview of hospice care including its history and philosophy this book offers a timeline of the growth of the hospice movement in the United States Subsequent sections include up to date information on the clinical responsibilities of the hospice nurse in addressing the physical psychological and spiritual needs of terminally ill patients and their families in a culturally sensitive way This book also outlines the administrative duties of the hospice nurse including hospice documentation a review of hospice regulations and quality management The closing section focuses on occupational stress in hospice nursing and how to engage in self care This text can serve as a useful clinical resource and also as a reference for nurses seeking hospice certification from the Hospice and Palliative Credentialing Center Key Features Organized within the context of the scope and standards of practice of the Hospice and Palliative Nurses Association Addresses key points about issues unique to hospice nursing and highlights evidence based interventions Addresses important Medicare regulations and reimbursement Offers numerous clinical resources to assist with hospice nursing practice Serves as a concise study resource for hospice nursing certification *Rosdahl's Textbook of Basic Nursing* Caroline Rosdahl,2021-08-24 A proven approach preferred by LPN LVN educators and students for more than 50 years Rosdahl s Textbook of Basic Nursing 12th Edition has been thoroughly revised and updated to equip today s LPN LVN students with the foundational knowledge and skills to confidently pass the NCLEX PN and deliver safe effective care This engaging easy to read highly visual text reflects up to date clinical practices and provides the perfect learning package to ensure understanding and help students confidently transition to clinical practice *Oxford Textbook of Palliative Nursing* Betty R. Ferrell,Nessa Coyle,Judith A. Paice,2015 The Oxford Textbook of Palliative Nursing is the definitive text on nursing care of the seriously ill and dying It is a comprehensive work addressing all aspects of palliative care including physical psychological social and spiritual needs The text is written by leaders in the field and includes an impressive section on international palliative care Each chapter includes case examples

and a strong evidence base to support the highest quality of care The book is rich with tables and figures offering practical resources for clinical practice across all settings of care and encompassing all ages from pediatrics to geriatrics Palliative Care for Chronic Cancer Patients in the Community Michael Silberman, 2020-10-29 The new global cancer data suggests that the global burden has risen to 18.1 million new cases per year and 9.6 million cancer deaths per year A number of factors appear to be driving this increase in particular a growing and aging global population and an increase of exposure to cancer risk factors linked to social and economic development For rapidly growing economies the data suggests a shift from poverty or infection related cancers to those associated with lifestyles more typical in industrialized countries There is still large geographical diversity in cancer occurrence and variations in the magnitude and profile of the disease between and within world regions There are specific types of cancer that dominate globally lung female breast and colorectal cancer and the regional variations in common cancer types signal the extent to which societal economic and lifestyle changes interplay to differentially impact on the profile of this most complex group of diseases Unfortunately despite advances in cancer care a significant proportion of patients at home experience sub optimal outcomes Barriers to successful treatment outcomes include but are not limited to access to oncologists in the primary health centers non adherence lack of experienced oncology and palliative care nurses in the community inadequate monitoring and the lack of training of family and pediatric physicians Telemedicine approaches including telephone triage education telemonitoring teleconsultation and status tracking through mobile applications have shown promise in further improving outcomes in particular for chronic cancer patients following their hospitalization Lessons can be learned from existing hospices in North America the United Kingdom Australia Centers of Excellence in Africa Uganda and modern community services in India Kerala An important goal of this book is to describe and encourage professionals to develop new community programs in palliative care which include training and empowering physicians and nurses in the community on the principles of palliative care The Middle East Cancer Consortium MECC together with the American Society of Clinical Oncology ASCO and the American Oncology Nursing Society ONS have conducted multiple courses ranging from basic palliative care to more specialized training in palliative care for multiple nationalities in Europe Asia and Africa Our experience clearly indicates that to promote such activities one needs strong leadership and confirmed political will to support the endeavor The new book will emphasize the importance of having a core of multiple stakeholders including community leaders government NGOs and media to be actively involved in advocating for the cause and generating public awareness This text will provide the reader with a comprehensive understanding of the outside of the hospital treatment of cancer patients by medical paramedical and volunteer personnel In doing so this text will encourage the creation of new palliative care services improving upon the existing ones and stimulate further research in this field Part 1 of the text will begin with an overview of the current state of affairs of services provided to cancer patients while being cared for by primary health centers It will also review the current literature regarding medical and psychological

based therapy options in the community for cancer patients at different stages of their disease Part 2 will address the unique role of the community nurse within the framework of the multidisciplinary team treating the patient in the attempt to provide optimal evaluation and care in very challenging situations such as with terminal patients Part 3 will provide insightful models of this new discipline and serve as a valuable resource for physicians nurses social workers and others involved in the care of cancer patients The book will take a multidisciplinary approach integrating clinical and environmental data for practical management to enhance the efficacy of treatment while relieving suffering Part 4 will also discuss the application of modern technological approaches to track symptoms quality of life diet mobility duration of sleep and medication use including pain killers in chronic cancer patients in the community Part 5 of the book will also be devoted to modes of developing a collaborative program between governmental and non governmental organization sectors This includes volunteer workers in close collaboration with medical professionals for providing emotional and spiritual support nursing care nutritional support and empowering family caregivers Such a model makes palliative care in the community a people s movement thus transferring part of the responsibility and ownership to the community

Textbook of Palliative Care Communication Elaine Wittenberg PhD, Betty R. Ferrell RN, PhD, MA, FAAN, FPCN, CHPN, Joy Goldsmith PhD, Thomas Smith MD, Sandra Ragan MD, Myra Glajchen, The Rev. George Handzo, 2015-10-23 The Textbook of Palliative Care Communication is the authoritative text on communication in palliative care providing a compilation of international and interdisciplinary perspectives The volume was uniquely developed by an interdisciplinary editorial team to address an array of providers including physicians nurses social workers and chaplains and unites clinicians with academic researchers interested in the study of communication By featuring practical conversation and curriculum tools stemming from research this text integrates scholarship and inquiry into translatable content that others can use to improve their practice teach skills to others and engage in patient centered communication The volume begins by defining communication explicating debatable issues in research and highlighting specific approaches to studying communication in a palliative care context Chapters focus on health literacy and cultural communication patient and family communication barriers and approaches to discussing palliative care with specific patient populations discussing pain life support advance care planning and quality of life topics such as sexuality spirituality hope and grief Team communication in various care settings is outlined and current research and education for healthcare professionals are summarized Unique to this volume are chapters on conducting communication research both qualitatively and quantitatively to promote further research in palliative care
