Canada the Good Marcel Martel, 2014-03-27 To invest in vice can be a sound financial decision but despite the lure of healthy profits individuals and mutual funds have been reluctant to invest in this type of stock After all who would take pride in supporting the tobacco industry knowing it sells a deadly product And what social responsibilities do investors bear with respect to compulsive gamblers who have lost so much money that suicide becomes an attractive option Canada the Good considers more than five hundred years of debates and regulation that have conditioned Canadians attitudes towards certain vices Early European settlers implemented a Christian moral order that regulated sexual behaviour gambling and drinking Later some transgressions were diagnosed as health issues that required treatment Those who refused the label of illness argued that behaviours formerly deemed as vices were within the range of normal human behaviour This historical synthesis demonstrates how moral regulation has changed over time how it has shaped Canadians lives why some debates have almost disappeared and others persist and why some individuals and groups have felt empowered to tackle collective social issues Against the background of the evolution of the state the enlargement of the body politic and mounting forays into court activism the author illustrates the complexity over time of various forms of social regulation and the control of vice

Modern Chinese Legal Reform Xiaobing Li, Qiang Fang, 2013-02-15 China's rapid socioeconomic transformation of the past twenty years has led to dramatic changes in its judicial system and legal practices. As China becomes more powerful on the world stage, the global community has dedicated more resources and attention to understanding the country's evolving democratization, and policymakers have identified the development of civil liberties and long-term legal reforms as crucial for the nation's acceptance as a global partner. *Modern Chinese Legal Reform* is designed as a legal and political research tool to help English-speaking scholars interpret the many recent changes to China's legal system. Investigating subjects such as constitutional history, the intersection of politics and law, democratization, civil legal practices, and judicial mechanisms, the essays in this volume situate current constitutional debates in the context of both the country's ideology and traditions and the wider global community. Editors Xiaobing Li and Qiang Fang bring together scholars from multiple disciplines to provide a comprehensive and balanced look at a difficult subject. Featuring newly available official sources and interviews with Chinese administrators, judges, law enforcement officers, and legal experts, this essential resource enables readers to view key events through the eyes of individuals who are intimately acquainted with the challenges and successes of the past twenty years.

The Chinese Enlightenment Vera Schwarcz, 1986 It is widely accepted both inside China and in the West that contemporary Chinese history begins with the May Fourth Movement. Vera Schwarcz's imaginative new study provides China scholars and historians with an analysis of what makes that event a turning point in the intellectual, spiritual, cultural, and political life of twentieth-century China.

The Registered Church in China Wayne Ten Harmsel, 2021-03-09 In *The Registered Church in China*, Wayne Ten Harmsel pulls back for Western readers the shroud of mystery surrounding Chinese registered churches. Through interviews with Chinese pastors, evangelists, and lay Christians, he provides a rare view of what it means to live in the shadow of both the government and the well-known house churches. Registered churches have received criticism from both of these sources as well as from many churches in other countries, particularly the United States. Ten Harmsel examines the charges leveled against registered churches and presents a balanced picture of the complexity of the church situation in China. Such complexity arises, for instance, in the registered churches' struggle to respond to new religious regulations and the controversy over Sinicization. China has become a major center of twenty-first-century Christianity, and despite how little is known about registered churches in the West, these congregations play a significant role in shaping Chinese Christianity today.

The Representation of Japanese Politics in Manga Roman Rosenbaum, 2020-10-29 This edited volume explores political motives, discourses, and agendas in Japanese manga and graphic art with the objective of highlighting the agency of Japanese and wider Asian storytelling traditions within the context of global political traditions. The

story of the Cheh-Kiang mission of the Church missionary society Arthur Evans Moule, 1879 Drug Policy and the Public Good, 2010 *Drug Policy and the Public Good* is a book by an international group of addiction scientists to improve the links between addiction science and drug policy. It presents the accumulated scientific knowledge on drug use research that has a direct relevance to the development of drug policy at local, national and international levels. *When Good Drugs Go Bad* Dan Malleck, 2015-07-15 Throughout the 1800s opium and cocaine could be easily obtained to treat a range of ailments in Canada. Dependency when it occurred was considered a matter of personal vice. Near the end of the century attitudes shifted and access to drugs became more restricted. How did this happen? Dan Malleck examines the conditions that led to Canada's current drug laws. Drawing on newspaper accounts, medical and pharmacy journals, professional association files, asylum documents, physicians' case books and pharmacy records, Malleck demonstrates how a number of social, economic and cultural forces converged in the early 1900s to influence lawmakers and criminalize addiction. His research exposes how social concerns about drug addiction had less to do with the long pipe and shadowy den than with lobbying by medical professionals, a growing pharmaceutical industry and concern about the morality and future of the nation. The Routledge History of Crime in America James Campbell, Vivien Miller, 2024-12-27 Covering a broad chronology from the colonial era to the present, this volume's 28 chapters reflect the diverse approaches, interests and findings of an international group of new and established scholars working on American crime histories today. The book is organized around major themes in crime history, including violence, science and technology, culture, gender and organized crime, and it addresses pressing contemporary concerns such as mass incarceration and the racial politics of crime in modern America. It also engages with the history of crime literature, film and popular culture, from colonial execution sermons to true crime television in the twenty-first century. The volume is alert to continuities and diversity over time and place in the history of American crime, notably in chapters on the South, the West and the impact of urbanization on practices and ideas about crime and law enforcement in different periods of the American past. *The Routledge History of Crime in America* is an indispensable interdisciplinary resource for students and researchers working in areas of crime, crime policy, punishment, policing and incarceration.

Asian Thought & Society, 1997 **Crime and the Chinese Dream** Edited by Børge Bakken, 2017-12-11 Although official propaganda emphasizes the Chinese Dream as the dream of all Chinese, the opportunities of achieving the prosperity by legal means are distributed unequally. *Crime and the Chinese Dream* reveals how people on the margins of Chinese society find their way to the Chinese Dream through illegal or deviant behaviours. The case studies in this book include corrupt doctors in public hospitals in Beijing, fraudsters in a village called Cake Uncles, illegal motorcycle taxi drivers in Guangzhou, drug users being re-educated in detention centres and internet addicts who are treated as criminals by the system. Despite the patriotic and collectivistic tint of the official dream metaphor, the contributors to this volume show that the Chinese Dream is essentially a state capitalist dream which is embedded within the problems and opportunities of capitalism as well.

as a dream of control An original and important contribution to comparative criminology international studies and crime and justice research in China this book highlights the ironies present in the American Dream that exist in the Chinese Dream as well It contains diverse research topics that separate ideology from reality and Bakken s excellent introduction frames them in the literatures on social problems and social inequality Henry N Pontell John Jay College of Criminal Justice City University of New York This is an outstanding collection of essays which importantly enlarges the terms of debate on crime in China It reveals how China is complex not only because of its internal social and economic diversity but also because of integration into global capitalism with all its inherent inequalities and commodification Bill Hebenton Centre for Criminology and Criminal Justice University of Manchester
