**To Sin Against Hope** Alfredo Gutierrez, 2013-03-12. Alfredo Gutierrez's father, a US citizen, was deported to Mexico from his Arizona hometown, the mining town where Alfredo grew up. This occurred during a wave of anti-immigrant hysteria stoked by the Great Depression, but as Gutierrez makes clear in a book that is both a personal chronicle and a thought-provoking history, the war on Mexican immigrants has rarely abated. Barack Obama now presides over an immigration policy every inch the equal of Herbert Hoover's in its harshness. His family experiences inspired Gutierrez to pursue the life of a Chicano activist. Kicked out of Arizona State University after leading a takeover of the president's office, he later became the majority leader of the Arizona State Senate. Later still, he was a successful political consultant. He remains an activist, and in this engrossing memoir and essay, he dissects the racism that has deformed a century of border policy, leading to a record number of deportations during the Obama presidency, and he analyzes the timidity of today's immigrant advocacy organizations. *To Sin Against Hope* brings to light the problems that have prevented the US from honoring the contributions and aspirations of its immigrants. It is a call to remember history and act for the future.

**Municipal Dreams** John Boughton, 2018-05-15. A narrative history of council housing from slums to the Grenfell Tower. Urgent, timely, and compelling, *Municipal Dreams* brilliantly brings the national story of housing to life. In this landmark reappraisal of council housing, historian John Boughton presents an alternative history of Britain. Rooted in the ambition to end slum living and the ideals of those who would build a new society, *Municipal Dreams* looks at how the state's duty to house its people decently became central to our politics. The book makes it clear why that legacy and its promise should be defended. Traversing the nation in this comprehensive social, political, and architectural history of council housing, Boughton offers a tour of some of the best and most remarkable of our housing estates, some happily ordinary, some judged notorious. He asks us to understand their complex story and to rethink our prejudices. His accounts include extraordinary planners and architects who wished to elevate working men and women through design, the competing ideologies that have promoted state housing and condemned it, the economic factors that have always constrained our housing ideals, the crisis wrought by Right to Buy, and the evolving controversies around regeneration. Boughton shows

how losing the dream of good housing has weakened our community and hurt its most vulnerable as was seen most catastrophically in the fire at Grenfell Tower

*To Sin Against Hope: How America Has Failed Its Immigrants: A Personal History* Alfredo Gutierrez, 2013-06-04 A moving life story from a leading voice in America's immigrant rights struggle Alfredo Gutierrez's father a US citizen was deported to Mexico from his Arizona hometown the mining town where Alfredo grew up This occurred during a wave of anti immigrant hysteria stoked by the Great Depression but as Gutierrez makes clear in a book that is both a personal chronicle and a thought provoking history the war on Mexican immigrants has rarely abated Barack Obama now presides over an immigration policy every inch the equal of Herbert Hoover's in its harshness His family experiences inspired Gutierrez to pursue the life of a Chicano activist Kicked out of Arizona State University after leading a takeover of the president's office he later became the majority leader of the Arizona State Senate Later still he was a successful political consultant He remains an activist and in this engrossing memoir and essay he dissects the racism that has deformed a century of border policy leading to a record number of deportations during the Obama presidency and he analyzes the timidity of today's immigrant advocacy organizations To Sin Against Hope brings to light the problems that have prevented the US from honoring the contributions and aspirations of its immigrants It is a call to remember history and act for the future

*Faith, Hope, and Love in the Kingdom of God* Robert Hernan Cubillos, 2017-04-27 We live in a world full of challenges The three graces can almost be seen as motors for Christian life in today's world but the words faith hope and love have so many everyday uses that their technical theological meanings are for many difficult to appreciate Modern life also leaves many yearning for authenticity and meaning Many religions have answered that need by calling to mind the image of a path Always profound progressions religious paths tend to be motivated either by practices the act of walking the path or focal points Christianity has a focal point an object and it sees the three graces as distinctively content filled The heart of this book is about helping people find the Christian path and their intellectual emotional and spiritual balance an equilibrium that is sustained by a strong personal faith an enduring hope for the future and genuine love that will withstand the worst of times It contributes to the category of Christian literature that provides a pattern for Christian living without surrendering the intellect to the more popular side of this genre
