Happiness in Premodern Judaism Hava

Tirosh-Samuelson,2003-12-31 It is not common to think that Jews were interested in happiness or that Judaism has anything to say about happiness On the contrary the concept of happiness was a central concern of Jewish thinkers Hava Tirosh Samuelson shows that rabbinic Judaism regarded itself primarily as a prescription for the attainment of happiness and that the discourse on happiness captures the evolution of Jewish intellectual history from antiquity to the seventeenth century

These claims make sense if one understands happiness as human flourishing on the basis of Aristotle's thought in the *Nicomachean Ethics*. Linking virtue, knowledge, and well-being, Aristotle's analysis of happiness can be traced in Jewish understanding of human flourishing as early as the Greco-Roman world, but the fusion of Greek and Judaic perspectives on happiness reached its zenith in the Middle Ages in the thought of Moses Maimonides and his followers. Even the controversies about Maimonides' ideas could be viewed as discussions about the meaning of happiness and the way to attain it within Judaism. Much of this book then concerns the reception of Aristotle's *Ethics* in medieval Jewish philosophy. This book shows how a certain notion of happiness reflects the intellectual culture of a given period, including cultural exchanges among Judaism, Islam, and Christianity. Demonstrating the discourse on happiness as a dramatic interplay between Wisdom and Torah, between philosophy and religion, between reason and faith, Hava Tirosh Samuelson presents to specialists and non-specialists alike a fascinating tour of Jewish intellectual history.
