Southeast Asia *Internationalization of Higher Education in East Asia* Ka-Ho Mok, Kar Ming Yu, 2013-11-12 The rise in demand for higher education in the Asia Pacific region is an undeniable reflection of the growing pace of globalization and the subsequent pressures imposed by it. Aspiring to become globally competitive and to position favourably in the global university league tables, governments in Asia have either engaged in a serious quest to become a regional education hub or they have concentrated on developing transnational higher education to create more opportunities in order to meet their citizens' pressing demand for higher education. *Internationalization of Higher Education in East Asia* critically examines and provides comparative perspectives on the major strategies that selected Asian countries and societies have adopted to transform their higher education sector and enhance their national competitiveness in the increasingly globalized world. This volume, by leading scholars in the field of education development and policy studies, makes critical reflections on how Asian governments in particular and universities in general have responded to the growing challenges of globalization by promoting more internationalization, student mobility and entrepreneurship in higher education. This book is an essential collection for policy makers, researchers and postgraduate students studying higher education. Asian education and international education Locating Southeast Asia H.G.C. Schulte Nordholt, R. Raben, 2020-06-22 Southeast Asia calls to mind a wide range of images: tropical forests and mountains, islands and seas, and a multitude of languages, cultures and religions. The area has never formed a unified political realm nor has it ever developed a cultural or civilisational unity. Many academics have defined Southeast Asia over the years as what is left after subtracting Australia, the South Pacific islands and China and India. Others have pointed at diversity, the variety and fluidity of the cultures, wide-ranging forms of economic activity and openness to external influences as the defining feature of the region. But with area studies out of fashion, is Southeast Asia even relevant any longer? This volume considers Southeast Asia drawn from a number of regional and disciplinary perspectives. The authors look at the region from the standpoint of Thailand and the Philippines, Singapore and Hong Kong, Japan and the Asian mainland, the South China Sea and the seacoasts of the region. They also discuss the significance of borders, monetary networks, transnational flows of people, goods and information, and knowledge in shaping Southeast Asia, both for its residents and for the scholars who study it and for the wider world. Handbook of Markets and Economies: East Asia, Southeast Asia, Australia, New Zealand Anthony Pecotich, Clifford J Shultz, 2016-07-22 East and Southeast Asia is a vast and complex region. Its countries have a bewildering array of histories, demographics, economic structures, cultural backgrounds and global marketing potential. This Handbook unravels the mystery. Each chapter is written by a country specialist and provides a thorough and up-to-date analysis of one of the ESEA countries. Each author follows a consistent model and covers geography and natural resources, the political system, the economic system, the social system and the marketing environment. Complete chapters are devoted to Australia, Brunei, Cambodia, China and Hong Kong, East Timor, Indonesia, Japan, Korea, North and South Laos, Malaysia, Myanmar, New Zealand, Papua New Guinea, the Philippines, Singapore

Taiwan Thailand and Vietnam Not just a review of current conditions the Handbook offers prognoses for future marketing and commercial activity in each country This definitive resource is generously illustrated with maps figures and tables and includes comprehensive references and source materials for each country It is an essential reference for students researchers and practitioners in the global economy
