Laster, Chelsea Bruner, 2018-08-06 Fueled by a flourishing capitalist economy undergirded by advancements in architectural design and urban infrastructure and patronized by growing bourgeois and elite classes New York s built environment was dramatically transformed in the 1870s and 1880s This book argues that this constituted the formative period of New York s modernization and cosmopolitanism the product of a vital self consciousness and a deliberate intent on the part of its elite citizenry to create a world class cultural metropolis reflecting the city s economic and political preeminence The interdisciplinary essays in this book examine New York s late nineteenth century evolution not simply as a question of its physical layout but also in terms of its radically new social composition comprising the individuals institutions and organizations that played determining roles in the city s cultural ascendancy

despite numerous setbacks and challenges Construction did not begin until 1898 and when completed in 1954 the cathedral became New Jersey's largest church and the most expensive Catholic church ever built in America During Pope John Paul II's visit to the United States in 1995 he celebrated evening prayer at the Cathedral On that occasion the Cathedral of the Sacred Heart was elevated to a basilica to become the Cathedral Basilica of the Sacred Heart Meticulously researched Gothic Pride brings to life the people who built contributed to and worshipped in Sacred Heart recalling such remarkable personalities as George Hobart Doane Jeremiah O'Rourke Gonippo Raggi and Archbishop Thomas Walsh In many ways the cathedral's story is a lens that lets us look at the history of Newark itself its rise as an industrial city and its urban culture in the nineteenth century its transformation in the twentieth century its immigrants and the profound effects of their cultures especially their religion on American life and the power of architecture to serve as a symbol of community values and pride
