**The Spirituality of Wine** Gisela H. Kreglinger, 2016 Wine serves an important role both in Scripture and in the Christian church but its significance has received relatively little theological attention in modern times This book fills that gap Viewing wine as a gift of God's created bounty and as a special symbol used pervasively throughout Scripture Kreglinger canvasses the history of wine in the church particularly its use in the Lord's Supper discusses the fascinating process of winemaking and considers both the health benefits of wine and the dangers of alcohol abuse Offering a vision of the Christian life that sees God in all things including the work of a vintner and the enjoyment of a well crafted glass of wine

**Why True Biblical Creationists Believe That Jesus Did Not Make Alcohol!** Leighton Campbell, 2008-07 This book shows that the account of Creation given to us by God in the Book of Genesis simply does not allow anyone claiming to be a Biblical Creationist in the true sense of the word to accept that our Lord could have made wine that consisted of alcohol This study reveals that there are parallels that can be drawn from the almost universal acceptance of the evolutionary or semi evolutionary world view by many Christians that it took God millions of years to Create everything instead of 6 literal 24 hour days to their world view adopted from unbelievers that when the Bible speaks of wine it is always of the alcoholic nature Instead it shows us that contrary to the views of many Christians and indeed unbelievers the notion that good wine has to be fermented or alcoholic is indeed erroneous and evolutionary in concept Using the clear literal truths established in the Creation account as its foundation this material unequivocally declares that the wine that Jesus made from water was in fact pure unfermented grape juice Leighton Campbell is a member of a Fundamental Evangelical Pentecostal Church He has served in youth ministries and evangelism He is currently active in the teaching ministry He is married to Jennifer and they have three children

**Captive Will** Cynthia Geppert, 2024-05-30 Twenty first century neuroscience has discovered that in some severe cases addiction may so constrain human freedom that the will is only able to choose to use substances of abuse At this advanced stage substance use has become the primary driver of salience co-opting and subsuming other moral priorities and human rewards Scholars have investigated Aristotle's concept of akrasia as an ancient mirror of this understanding and there have been some preliminary discussions of Augustine's concept of the divided will as it bears on addiction No detailed and comprehensive exploration of the work of Augustine has yet been undertaken as it relates to three contemporary models of addiction the choice learning and brain disease models Augustine's psychological awareness his mastery of ancient theological and philosophical thinking and his enormous and enduring influence on both Catholic and Protestant theology make him an ideal subject for such research This incisive book argues that Augustine's doctrine of the captive will offers a theological parallel of each of these contemporary models of addiction      **Tackling Mental Illness Together** Alan
