Collective Innovation Processes Dimitri Uzunidis, 2018-10-08 In macro meso and micro economic systems the concept of innovation involves a variety of resources and functions It includes all formal and informal institutions networks and actors that influence innovation and act as innovation boosters within companies at the territorial level at the level of innovation networks or in national economies This book deals with innovation in a globalized context in terms of the entrepreneur enterprise territorial and sectoral systems and national systems of innovation in which collective innovation processes are formed *Collective Movements and Emerging Political Spaces* Angharad Closs Stephens, Martina Tazzioli, 2024-05-31

Collective Movements and Emerging Political Spaces addresses the politics of new forms of collective movements ranging from anti austerity protests to migrant struggles and anticolonial demonstrations Drawing on examples from various countries as well as struggles taking place across borders this book traces the emergence of new practices of being political described as collective movements These represent something looser than a common identity long held as necessary for a political struggle to cohere They also suggest a different understanding of emancipation to the promise of transformation in time By addressing various examples of collective movements the chapters in this book examine other ways of being political together formed through relations carved in cramped spaces or small movements that rearrange our ideas about what is possible Drawing on the temporary and fleeting nature of many migrants struggles the chapters develop concepts and approaches that acknowledge how such mobilisations trouble many standard political sociological categories including nation identity and citizenship In combining an attentiveness to theories of affect emotion and atmosphere they also go beyond a focus on either individuals or collectives to address the ways bodies are moved by the world and by others Overall the chapters propose new questions methods and starting points for addressing collective movements in emerging political spaces and for understanding how what counts as politics is being redrawn on the ground This book will interest students researchers and scholars of international political sociology human geography international relations critical security studies and migration studies *Three Worlds of Collective Human Experience: Individual Life, Social Change, and Human Evolution* Victor N. Shaw, 2018-08-22

This book explores three worlds shared by the humans in their collective experiences It identifies and explores the world of commonsense the world of religion and the world of science as three essential dimensions of human experience The book helps understand that humans can gain comfort and pleasure in commonsense achieve meaning and purpose from religion and attain truth and rationality through science It actively applies theories to and develops theoretical explanations from different domains or situations of human existence This book is of interest to theorists researchers instructors and students across major academic disciplines in the humanities and social sciences *Collective Memory as Currency* Tracy Adams, 2024-07-01 Why is the past so dominant in the present This book conceptualizes collective memory as currency a medium of exchange a system in common use and one that is traded between and within nations

Bringing together contemporary case studies and multidisciplinary scholarship this volume shows how past events are used and perceived as a commodity and a substantially fungible marketable item produced to satisfy wants or needs their supply or demand being a part of one universal market This book provides readers with a broader understanding of the power of the past in the present Specific past events are incarnated into collective memories that can transform into iconic almost mythical stories that can be employed to help make sense of the present Through evoking constructing and reconstructing selectively highlighting certain aspects or perspectives of prominent past events these collective memories become a significant resource that actors and publics turn to in times of need As currency these memories provide a service As currency they can also relatively easily travel between collectives since it is commonly understood that the past has value in the present and that this value is similarly utilized in various countries around the world
