, *Eclipses, Transits, and Comets of the Nineteenth Century* Stella Cottam, Wayne Orchiston, 2014-09-16 Winner of the AAS 2019 Donald E Osterbrock Book Prize for Historical Astronomy Grabbing the attention of poets politicians and the general public alike a series of spectacular astronomical events in the late 1800s galvanized Americans to take a greater interest in astronomy than ever before At a time when the sciences were not yet as well established in the United States as they were in Europe this public interest and support provided the growing scientific community in the United States with the platform they needed to advance the field of astronomy in the United States Earlier in the 19th century comets meteors and the discovery of the planet Neptune were all sources of inspiration to the general public The specific events to be considered here are the total solar eclipses of 1868 1869 and 1878 and the transits of Venus of 1874 and 1882 The available media responded to public interest as well as generating more interest These events laid the groundwork that led to today's thriving network of American amateur astronomers and provide a fascinating look at earlier conceptions of the stars **Covering the Campus** Brian Farkas, 2009 Among the oldest student publications in the United States the Miscellany News traces its roots back to 1866 Beginning as a literary magazine and evolving into a contemporary newspaper the paper has reported nearly 150 years of student experiences The Miscellany has seen generations of Vassar College students who have witnessed the horrors of international war felt the injustices of racial strife and observed stirring protests unfold on their own campus This narrative history of the Miscellany tells the story of the young men and women writing about their collegiate environment against the grand backdrop of American history With careful qualitative and quantitative analysis along with scores of interviews with former editors Brian Farkas navigates the complex and fascinating history of the Miscellany Blending historical investigation with his personal experience Farkas presents a fascinating and often humorous window into journalism history's first draft **The New York Times Magazine**, 2009 The Road to War Marvin Kalb, 2013-05-09 Not since Pearl Harbor has an American president gone to Congress to request a declaration of war Nevertheless since then one president after another from Truman to Obama has ordered American troops into wars all over the world From Korea to Vietnam Panama to Grenada Lebanon to Bosnia Afghanistan to Iraq why have presidents sidestepped declarations of war Marvin Kalb former chief diplomatic correspondent for CBS and NBC News explores this key question in his thirteenth book about the presidency and U S foreign policy Instead of a declaration of war presidents have justified their war making powers by citing commitments private and public made by former presidents Many of these commitments have been honored but some betrayed Surprisingly given the tight U S Israeli relationship Israeli leaders feel that at times they have been betrayed by American presidents Is it time for a negotiated defense treaty between the United States and Israel as a way of substituting for a string of secret presidential commitments From Israel to Vietnam presidential commitments have proven to be tricky and dangerous For example one president after another committed the United States to the defense of South

Vietnam often without explanation Over the years these commitments mushroomed into national policy leading to a war costing 58 000 American lives Few in Congress or the media chose to question the war s provenance or legitimacy until it was too late No president saw the need for a declaration of war considering one to be old fashioned The word of a president can morph into a national commitment It can become the functional equivalent of a declaration of war Therefore whenever a president commits the United States to a policy or course of action with or increasingly without congressional approval watch out the White House may be setting the nation on a road toward war The Road to War was a 2013 Foreword Reviews honorable mention in the subject of War Military **New York Times Books** ,1972 *Media Fellowship International* Jeanne C. DeFazio,Susan Stafford,2025-03-03 This project pays tribute to Pastor Bob Rieth High profile members of the entertainment industry were members of Pastor Rieth s Media Fellowship International In first person accounts the contributing authors demonstrate great love for Pastor Rieth describing him as a truly remarkable relational evangelist who was a powerful minister of Jesus s redemptive love This book contains actual primary sources that describe this seminal significant and influential ministry **The New York Times** ,2012 Facsimile reproductions of more than 300 of the most significant and pivotal New York Times front pages **The New York Times** Richard Bernstein,Bill Keller,2008 An overview of more than 150 years of history reproduces more than three hundred of the most significant front page spreads from The New York Times accompanied by insightful essays **Watching Darkness Fall** David McKean,2025-09-23 A gripping and groundbreaking account of how all but one of FDR s ambassadors in Europe misjudged Hitler and his intentions As German tanks rolled toward Paris in late May 1940 the U S Ambassador to France William Bullitt was determined to stay put holed up in the Chateau St Firmin in Chantilly his country residence Bullitt told the president that he would neither evacuate the embassy nor his chateau an eighteenth Renaissance manse with a wine cellar of over 18 000 bottles even though we have only two revolvers in this entire mission with only forty bullets As German forces closed in on the French capital Bullitt wrote the president In case I should get blown up before I see you again I want you to know that it has been marvelous to work for you As the fighting raged in France across the English Channel Ambassador to Great Britain Joseph P Kennedy wrote to his wife Rose The situation is more than critical It means a terrible finish for the allies David McKean s *Watching Darkness Fall* will recount the rise of the Third Reich in Germany and the road to war from the perspective of four American diplomats in Europe who witnessed it firsthand Joseph Kennedy William Dodd Breckinridge Long and William Bullitt who all served in key Western European capitals London Berlin Rome Paris and Moscow in the years prior to World War II In many ways they were America s first line of defense and they often communicated with the president directly as Roosevelt s eyes and ears on the ground Unfortunately most of them underestimated the power and resolve of Adolf Hitler and Germany s Third Reich *Watching Darkness Fall* is a gripping new history of the years leading up to and the beginning of WWII in Europe told through the lives of five well educated and mostly wealthy men all vying for the attention of the man in

the Oval Office      **Communication and Language Analysis in the Public Sphere** Hart, Roderick P.,2014-01-31 Although language is certainly individualized most people conform to linguistic norms because of their surroundings Over time particular words and phrases are popularized by the media social trends or world events and with emergence of internet technologies the communication between all types of people is much easier Communication and Language Analysis in the Public Sphere explores the influence of the World Wide Web on the relationships between ordinary citizens and the ability to communicate with politicians celebrities and the media As some words may gain popularity worldwide and others may begin to define a specific discipline This book is essential for linguistics researchers scholars and professionals interested in determining these patterns and how they affect groups and individuals      Framing War Francesco Olmastroni,2014-10-10 Most research on framing has focused on media and elite frames the ways that the mass media and politicians present information about issues and events to the public Until now the process by which citizens opinions may affect the initial frame building process has been largely ignored The two way flow of influence between public opinion and decision makers has been analyzed more from a top down than a bottom up perspective Olmastroni addresses this issue by introducing a cyclical model of framing Additionally most empirical studies on media framing have centered on the United States Olmastroni s text seeks to overcome this limitation of prior research by examining different types of framing in three different countries Framing War uses the recent war on Iraq as a case study focusing on the elite and media framing of this event in order to examine the interaction between the political elite and the mass public in three Western democracies France Italy and the US during the early and on going stages of the military crisis The book analyzes whether and potentially the extent to which decision makers tracked and responded to public opinion in presenting their foreign policy choices It examines the strategies and approaches that governments potentially adopted to influence public opinion towards either the need for or the lack of need for a military intervention By representing the framing paradigm as a cycle Olmastroni shows how each actor within the system i e government and other elites news media and public opinion is linked to the others and contributes to the final representation of an issue In contrast with other theoretical perspectives of framing this book states that the framing influence does not only proceed from the government to the public but it often moves at the same level of the system with each actor playing different roles Olmastroni s insights on framing are significant for researchers in international relations political communication public opinion comparative politics and political psychology as well as policy analysts journalists and commentators      *The Publishers Weekly* ,2008      *The New York Times Page One, 1851-2004* ,2004      **The Writers Directory** ,2013      Encyclopedia of journalism. 6. **The Presidency in the Era of 24-Hour News** Jeffrey E. Cohen, 2010-11-16 The Presidency in the Era of 24 Hour News examines how changes in the news media since the golden age of television when three major networks held a near monopoly on the news people saw in the United States have altered the way presidents communicate with the public and garner popular support How did Bill Clinton manage to maintain high approval ratings during the Monica Lewinsky scandal Why has the Iraq war mired George Bush in the lowest approval ratings of his presidency Jeffrey Cohen reveals how the decline of government regulation and the growth of Internet and cable news outlets have made news organizations more competitive resulting in decreased coverage of the president in the traditional news media and an increasingly negative tone in the coverage that does occur He traces the dwindling of public trust in the news and shows how people pay less attention to it than they once did Cohen argues that the news media's influence over public opinion has decreased considerably as a result and so has the president's ability to influence the public through the news media This has prompted a sea change in presidential leadership style Engaging the public less to mobilize broad support presidents increasingly cultivate special interest groups that often already back the White House's agenda This book carries far reaching implications for the future of presidential governance and American democracy in the era of new media
