Perspectives de l'emploi de l'OCDE 2016 OECD, 2016-08-25. L'édition 2016 des Perspectives de l'emploi de l'OCDE propose un examen approfondi de l'évolution récente du marché du travail et de ses perspectives court terme dans les pays de l'OCDE. Une annexe statistique complète les analyses et recommandations présentées dans ce rapport. Études économiques de l'OCDE : Grèce 2023 (version abrégée) OECD, 2024-01-18. L'économie grecque a rebondi après la crise liée au COVID-19, ce qui s'est traduit par une croissance vigoureuse de l'emploi. Les mesures d'aide prises par les pouvoirs publics, la mise en œuvre du plan pour la reprise et la résilience baptisé Grèce 2.0 et les réformes de la décennie antérieure ont soutenu l'activité économique. Néanmoins, les vents contraires résultant de la flambée des prix de l'énergie et de l'incertitude consécutives à la guerre d'agression menée par la Russie contre l'Ukraine ont ralenti la reprise. Renouer avec un excédent budgétaire mieux cibler les aides énergétiques et préserver les recettes publiques tout en élargissant la base d'imposition et en améliorant l'efficacité du système fiscal contribueront à entretenir la reprise et à ouvrir les perspectives de la Grèce d'obtenir un reclassement de sa dette souveraine dans la catégorie investissement. En poursuivant les réformes en s'attachant en priorité à assainir les banques et en remédiant aux obstacles qui limitent de longue date l'investissement, les pouvoirs publics peuvent contribuer à prolonger cette dynamique long terme. Cela aiderait également la Grèce à prendre sa part des efforts déployés face au changement climatique en ramenant à zéro ses missions nettes de gaz à effet de serre GES tout en améliorant le niveau de vie de la population. Le changement climatique a déjà des effets perturbateurs sur les moyens de subsistance et le bien-être des Grecs. Une combinaison judicieuse de tarification du carbone, d'investissements publics en infrastructure, d'amélioration de l'efficacité énergétique des bâtiments et de renforcement des modes de transport faibles émissions peut permettre de réduire les missions de GES de manière économiquement efficace tout en améliorant la qualité des logements et la mobilité, donc les conditions de vie en Grèce. Associer l'ensemble des parties prenantes, faire merger un consensus et soutenir les ménages vulnérables affectés par la transition vers une économie verte contribueront à garantir la poursuite des progrès accomplis sur le long terme. **THÉMATIQUE LA TRANSITION VERS UNE ÉCONOMIE VERTE** Le système éducatif français - 5e éd. - Grands enjeux et transformations Bruno Garnier, 2025-08-20. Les concours de recrutement des professeurs des écoles, des collèges ou des lycées, des CPE et des personnels d'inspection et de direction requièrent tous la maîtrise des grands enjeux du système éducatif français. Avec quels héritages historiques l'école française doit-elle composer aujourd'hui ? Quel sens donner aux principes fondateurs de l'école républicaine : égalité des chances, lutte contre les discriminations et les fractures sociales et culturelles, panouissement de la personne, laïcité, formation citoyenne, lien social, insertion professionnelle ? Quels sont les grands principes législatifs qui régissent l'éducation en France ? Qu'est-ce que la

modalités actuelles d'insertion de cette population locale dans la vie professionnelle dans le cadre quotidien. Il apparaît chaque fois que la dimension origine étrangère ou bien engendre des handicaps supplémentaires ou bien aggrave ceux que connaissent tous les jeunes quelle que soit leur nationalité. Sauf à courir le risque de graves difficultés sociales, un pays ne peut laisser en marge une fraction de sa population qui représente d'ores et déjà 10% de l'effectif total de la classe d'âge considérée. Pour éviter une action globale et cohérente doit être menée et développée en direction des jeunes d'origine étrangère afin de parvenir à une égalité de traitement et de chances. Telle est la finalité poursuivie par ce rapport qui formule 6 propositions d'orientation générale et 32 propositions concrètes couvrant les différents domaines de l'insertion de ces jeunes dans la société française.
