**Teens Choosing to Read** Gay Ivey, Peter Johnston, 2023 In a sea of troubling reporting about education teaching reading and the wellbeing of teens Ivey and Johnston bring some good news that shows what happens when we stop underestimating young people This accessible book offers an engaging account of a 4 year study of adolescents who went from reluctant to enthusiastic readers These youth reported that reading not only helped them manage their stress but also helped them negotiate happier more meaningful lives This amazing transformation occurred when their teachers simply allowed them to select their own books invited them to read with no strings attached and provided time for them to do so These students nearly all of whom reported a previously negative relationship with reading began to read voraciously inside and outside of school performed better on state tests and transformed their personal relational emotional and moral lives in the process This illuminating book leads readers on a tour of adolescents reading lives in their own words offering a long overdue analysis of students deep engagement with literature The text also includes research to inform arguments about what students should and should not read and the consequences of limiting students access to the books that interest them through censorship Book Features Links young adults reading engagement with socio emotional and intellectual development Provides nuanced descriptions of teaching practices that facilitate student agency in learning Features student voices that have been absent in debates about what is appropriate for young people to read and under what circumstances Connects student perspectives on reading with positive outcomes of reading to research from other disciplines Illuminates the breadth and depth of the responsibilities of teaching English language arts

McGruder Ph.D. CRC,2018-10-04 Life itself can be like riding a roller coaster It s full of ups and downs high and low points Using the lyrics of an old gospel song by Linda Ronstadt Life is like a mountain railway with an engineer that s brave We must make this run successful from the cradle to the grave one of the greatest challenges we all face to navigate life s journey is developing healthy godly relationships One of our greatest failures in developing healthy relationships is well described by a story sharer in this book She compares a bad or toxic relationship with the plight of sin Sin will take you farther than you want to go keep you longer than you want to stay and cost you more than you want to pay Such can be said about a bad or toxic relationship In Dr McGruder s book Cutting Your Losses from a Bad or Toxic Relationship he warns those who discover themselves in such a relationship and fail to heed warnings and escape from harm s way Remaining in such a relationship can waste a significant portion of your life s journey and the result can tally up to emotional mental psychological and spiritual gross costs However this book will provide insight on how to survive and thrive it all      The Marriage of Minds Rachel Ablow,2007 The Marriage of Minds examines the implications of the common Victorian claim that novel reading can achieve the psychic ethical and affective benefits also commonly associated with sympathy in married life Through close readings of canonical texts in relation to the histories of sympathy marriage and reading The Marriage of Minds begins to fill a long standing gap between eighteenth century philosophical notions of sympathy and twentieth century psychoanalytic concepts of identification It examines the wide variety of ways in which novels were understood to educate or reform readers in the mid nineteenth century Finally it demonstrates how both the form of the Victorian novel and the experience supposed to result from that form were implicated in ongoing debates about the nature purpose and law of marriage      Church Life ,1906
