OECD Factbook 2015-2016 Economic, Environmental and Social Statistics OECD, 2016-04-08 OECD Factbook 2015 2016 is a comprehensive and dynamic statistical publication from the OECD. Close to 100 indicators cover a wide range of areas. Data are provided for all OECD countries, the euro area, EU, and where data are available, Brazil, China, India, Indonesia, Russia, and South Africa. OECD Factbook 2015-2016 Oecd, Organisation for Economic Co-operation and Development, 2016-03-29. Scholarly Professional Organization for Economic Cooperation Development. **OECD Factbook 2015-2016** Organisation for Economic Co-operation and Development, 2016. OECD Factbook is the best selling annual title from the OECD. It provides a global overview of today's major economic, social, and environmental indicators. More countries than ever are covered in greater detail, enabling direct comparisons for many indicators between OECD Members and Brazil, China, India, Indonesia, Russian Federation, and South Africa. **Sociological Approaches to Health, Healthcare and Nursing, E-Book** Hannah Cooke, 2024-09-09. An understanding of the sociology of health and illness is central to effective health and social care practice. *Sociological Approaches to Health, Healthcare and Nursing* is a new book for pre and post registration nurses and allied health professionals that brings into focus the social context of their work and its social and cultural foundations. The book introduces key social theories and concepts in an accessible way. It covers a range of contemporary post COVID issues in health and healthcare. A central focus is the social determinants of health; the book discusses these in relation to inequality and discrimination related to social class, gender, sexual orientation, ethnicity, and disability. It examines contemporary cultural understandings of health, illness, and the body while linking these to social changes and the growth of digital technologies and social media. Aligned with the requirements of the updated NMC Standards of Proficiency for Nurses, this book will support the reader in considering modern healthcare systems and institutions and their role in either reproducing or challenging inequalities of health. It encourages the reader to critically reflect on their own role within them and how they themselves can help to effect positive change. Aligned to the requirements of the updated NMC Standards of Proficiency for Nurses, it presents a contemporary focus that takes into account changes in public health, healthcare services, and health work post pandemic. Case studies illustrate key issues and bring theory to life. Focuses on the wider determinants of health and inequalities in health and healthcare. Provides an understanding of the patient experience and its social and cultural context in order to support patient centred care. Addresses the political and policy context of healthcare, including contemporary changes in the organisation of health services, changes in health work, and changes in nursing work. Offers regular reflection points to encourage critical thinking. *Household Debt and Economic Crises* Heikki Hiilamo, 2018-08-31. The trajectories of increasing household debt are studied in the contexts of the US and the UK, Germany, the Netherlands, Finland, and Norway. *Household Debt and Economic Crises* examines remedies to prevent and alleviate the over indebtedness epidemic, creating a conceptual framework with which to analyse the causes and consequences of debt. Hiilamo argues that social policies are

needed to tackle the current borrowing crisis that endangers and prevents the full participation in society of individuals with excessive debts

*The Culture Transplant* Garrett Jones, 2022-11-15 A provocative new analysis of immigration s long term effects on a nation s economy and culture Over the last two decades as economists began using big datasets and modern computing power to reveal the sources of national prosperity their statistical results kept pointing toward the power of culture to drive the wealth of nations In *The Culture Transplant* Garrett Jones documents the cultural foundations of cross country income differences showing that immigrants import cultural attitudes from their homelands toward saving toward trust and toward the role of government that persist for decades and likely for centuries in their new national homes Full assimilation in a generation or two Jones reports is a myth And the cultural traits migrants bring to their new homes have enduring effects

upon a nation's economic potential Built upon mainstream well reviewed academic research that hasn't pierced the public consciousness this book offers a compelling refutation of an unspoken consensus that a nation's economic and political institutions won't be changed by immigration Jones refutes the common view that we can discuss migration policy without considering whether migration can over a few generations substantially transform the economic and political institutions of a nation And since most of the world's technological innovations come from just a handful of nations Jones concludes the entire world has a stake in whether migration policy will help or hurt the quality of government and thus the quality of scientific breakthroughs in those rare innovation powerhouses
