

METODAT EFEKTIVE TË TË MËSUARIT

Ne mendojmë shumë për metodat efektive të mësimdhënies dhe nuk mendojmë mjaftueshëm për metodat efektive të të mësuarit.

Mësimi duhet të përfshijë dy komponentë kryesore dërgimin dhe marrjen e informacionit.

Çdo metodë komunikimi që i shërben këtij qëllimi, pa cenuar objektivin e mësimi, mund të konsiderohet si metoda e re në mësimdhënie.

Në këtë mënyrë:

- Përfitojmë metoda të reja mësimore

- Përmirësojmë procesin e të mësuarit

- Forcojmë arsimin

Albanian: Lexime mbi epokën pasnormale (The Postnormal Times Reader) Ziauddin Sardar, 2023-01-01 We live in a period of accelerating change New trends technologies and crisis emerge rapidly and transform familiar social and political landscapes Established and cherished ideals with deep historical roots can be overturned overnight Unconventional and uncommon notions and events can appear as though from nowhere proliferate and become dominant The last few years alone have witnessed the emergence of populism and the far right in Europe and the US Brexit cracks in the European Union cyber wars accompanied by the re emergence of a cold war China as an increasingly dominant new superpower Pandemics like the Ebola and Zika viruses Climate change leading to extreme weather events Driverless cars AI Fake News Alternative Facts Post Truth Disruptive technologies that disrupt and often corrupt everything Everything seems to be in a state of flux nothing can be trusted All that we regard as normal is melting away right before us The postnormal times theory attempts to make sense of a rapidly changing world where uncertainty is the dominant theme and ignorance has become a valuable commodity The Postnormal Times Reader is a pioneering anthology of writings on the contradictory complex and chaotic nature of our era It covers the origins theory and methods of postnormal times and examines a host of issues ranging from climate change governance Middle East to religion and science from the perspective of postnormal times By mapping some of the key local and global issues of our transitional age the Reader suggests a way of navigating our turbulent futures **Përkthimet e**

Critically examining the Western secular approach to formal education the author contests the value of an education system focusing solely on the intellectual and physical aspects of human development The methodological aim and structure of this approach are compared to those of Islam which Dr Al Zeera notes gives credence to the importance of spiritual and religious factors as well as scholarly ones with the overall objective of forming whole and holy human being who instead of resisting the paradoxes of life uses their interrelatedness as a means of personal and societal development One interesting factor examined within the broader framework of the study is the area of female spirituality an element which the author argues is vastly under represented in prevalent Islamic literature This study is a holistic view of knowledge and a sociological

discussion adopting an unconventional approach of using the author's own personal experiences as the basis for debate and analysis. We are invited to enter the world of understanding and observation to experience for ourselves an unusual approach to dialectical thinking.

Ardhja e Antropologjisë në Shqipëri Albert Doja, 2021-01-01. Një dorëmanushaqe të egra për mendimet të thella në studimet shqiptare. Askush nuk ka shkaktuar më shumë shëndija intelektuale për t'nxjitur me kaq elegancë imagjinatën e re. Kërkimore shkencore në Shqipëri. This is a collection of works translated in Albanian aimed at showing how anthropology emerged and developed in Albania at the crossroad of Eastern and Western Europe. Albert Doja tries to identify different forms of distinction between folkloric ethnographic studies and contemporary anthropology emphasizing the necessity of embracing anthropological methodology in today's Albanian studies as a way to analyze and interpret Albanian specificities as an integral part of world processes. In these writings he explores a number of issues related to the state of Albanian studies, cultural heritage and national history including the social, political, ideological, cultural and moral transformations related to identity processes, religious questions or gender relations. His comparative analyses of history, culture, politics and society in Albania and Southeast Europe reveals the various academic cultures in which he had contributed and had gained experience including the debates between structural anthropology and post-structuralism in the perspective of new theoretical approaches.

Albanian: Muslim Contributions to World Civilization M. Basheer Ahmed, Syed A. Ahsani, & Dilnawaz A. Siddiqui, 2019-01-01. Islam's brilliant contributions to science, art and culture are a timeless and precious heritage which should be historically preserved for future generations. The great achievements of Muslim scholars are rarely if at all acknowledged in formal education and today their identity origins and impact remain largely obscure. This collection of papers aims to give readers a brief introduction to the intellectual history of Muslims and the contributions that eminent Muslim scholars have made in certain specific fields of knowledge including basic and applied physical and biological sciences, medicine, legal and political theories and practices, economic and financial concepts, models and institutions etc. The preservation of civilization necessitates a better understanding, sharing and recognition of our common human heritage. Given today's widespread negative stereotyping and falsely generated misunderstanding of Islam and Muslims, the publication of these papers on Muslim Contributions to World Civilization is vital to help repair the wrong that is being
