Bow,Arturo Santa Cruz,2013 At the turn of the millennium Mexico seemed to have finally found its path to political and economic modernization a state which had been deeply embedded in society was being pulled out with new political leaders allowing market forces to play a greater role in guiding the nation s economic development and allowing old patron client networks to crumble At the same time many hoped that political and legal reforms would increase the state s capacity to provide prosperity security and equity for its citizens In the midst of this historic transformation however Mexico was confronted with an urgent new policy challenge Internationally recognized experts from the academic and think tank communities in the United States Mexico and Canada consider the origins of the current crisis in Mexico and the nature and effectiveness of the Calder n government s response Simply not another book on North American regional security this volume uses Joel Migdal s concept of the state in society to provide a refreshingly clear and accessible exploration of political change in the developing world The engagement with the US and Canada gives the reader a chance to observe the dynamics of persuasion across the developmental divide Four key questions structure the study What does the ongoing security crisis in Mexico tell us about the changing role of the state in society there What does the changing role of the state tell us about the nature and intractability of the crisis How has the transition to democracy affected the links between the state and organized crime in Mexico and the state s capacity to contain non state challengers What kinds of political and legal reforms are called for and what effects can we expect them to have on the extent and intensity of violence in Mexico No other study comprehensively uncovers new conceptual and theoretical insights in each of these areas whilst offering some practical guidance for policy makers and publics seeking to understand these urgent and complex challenges      *Challenging Organized Crime in the Western Hemisphere* Philip B. in response to heightened powers of law enforcement and how law enforcement in turn responds creating an ongoing dynamic interaction The book shows how a state such as the United States has and can develop new laws and practices in ways that enable them to deal with relatively large violent groups and yet preserve the rule of law and civil liberties While most texts describe organized crime groups and the challenges to government they impose from a static perspective the authors dissect the interaction over time of organized crime and democratic governance that has created the present structure and balance of advantages in the United States Readers learn about the markets for contraband and extortionate protection that form the bulk of organized criminal enterprise the vulnerabilities of the traditional practices and rules of law enforcement the effects of globalization of criminal enterprises on their contest with the state the effectiveness of various practices of law enforcement and the continuing forces of change often technological in the businesses of organized crime and law enforcement that play important roles in the contest between them This thought provoking book is ideal for students of organized and transnational crime in university programs and law schools as well as researchers and legal practitioners who seek to look beyond the simple traditional history of organized crime and develop a strategy to confront organized crime in the future     Review of the Regulation of Freight Transport in Mexico OECD,2017-01-09 This publication identifies the main regulatory obstacles of the following transport sectors in Mexico road transport railways ports border crossing and airway passengers The report also offers recommendations to improve the quality of the regulatory framework of these sectors     *OECD Economic Surveys: Mexico 2017* OECD,2017-01-10 This 2017 OECD Economic Survey of Mexico examines recent economic developments policies and prospects The special chapters cover inclusive growth and productivity

Citizen Support for Democratic and Autocratic Regimes Marlene Mauk, 2020-04-30 Citizen Support for Democratic and Autocratic Regimes takes a political culture perspective on the struggle between democracy and autocracy by examining how these regimes fare in the eyes of their citizens Taking a globally comparative approach it studies both the levels as well as the individual and system level sources of political support in democracies and autocracies worldwide The book develops an explanatory model of regime support which includes both individual and system level determinants and specifies not only the general causal mechanisms and pathways through which these determinants affect regime support but also spells out how these effects might vary between the two types of regimes It empirically tests its propositions using multi

level structural equation modeling and a comprehensive dataset that combines recent public opinion data from six cross national survey projects with aggregate data from various sources for more than 100 democracies and autocracies It finds that both the levels and individual level sources of regime support are the same in democracies and autocracies but that the way in which system level context factors affect regime support differs between the two types of regimes The results enhance our understanding of what determines citizen support for fundamentally different regimes help assessing the present and future stability of democracies and autocracies and provide clear policy implications to those interested in strengthening support for democracy and or fostering democratic change in autocracies Comparative Politics is a series for researchers teachers and students of political science that deals with contemporary government and politics Global in scope books in the series are characterised by a stress on comparative analysis and strong methodological rigour The series is published in association with the European Consortium for Political Research For more information visit [www.ecprnet.eu](http://www.ecprnet.eu) The series is edited by Susan Scarrow Chair of the Department of Political Science University of Houston and Jonathan Slapin Professor Department of Political Science University of Zurich
