

METODAT EFEKTIVE TË TË MËSUARIT

Ne mendojmë shumë për metodat efektive të mësimdhënies dhe nuk mendojmë mjaftueshëm për metodat efektive të të mësuarit.

Mësimi duhet të përfshijë dy komponentë kryesore dërgimin dhe marrjen e informacionit.

Çdo metodë komunikimi që i shërben këtij qëllimi, pa cenuar objektivin e mësimit, mund të konsiderohet si metoda e re në mësimdhënie.

Në këtë mënyrë:

- Përfitojmë metoda të reja mësimore

- Përmirësojmë procesin e të mësuarit

- Forcojmë arsimin

Ardhja e Antropologjisë në Shqipëri Albert Doja, 2021-01-01. Një dorëmanushaqe tërëgje për mendimet thellë në studimet shqiptare. Askush nuk ka shkaktuar më shumë shëndija intelektuale për të nxjerrur me kaq elegancë imagjinatën e re krijimore shkencore në Shqipëri. This is a collection of works translated in Albanian aimed at showing how anthropology emerged and developed in Albania at the crossroad of Eastern and Western Europe. Albert Doja tries to identify different forms of distinction between folkloric ethnographic studies and contemporary anthropology emphasizing the necessity of embracing anthropological methodology in today's Albanian studies as a way to analyze and interpret Albanian specificities as an integral part of world processes. In these writings he explores a number of issues related to the state of Albanian studies, cultural heritage and national history including the social, political, ideological, cultural and moral transformations related to identity processes, religious questions or gender relations. His comparative analyses of history, culture, politics and society in Albania and Southeast Europe reveals the various academic cultures in which he had contributed and had gained experience including the debates between structural anthropology and post-structuralism in the perspective of new theoretical approaches.

Studime historike, 1972. Veprimtaritë e të mësuarit në orën e gjuhës së huaj Michele Pendani, 2004. Albanian: Muslim Contributions to World Civilization M. Basheer Ahmed, Syed A. Ahsani, & Dilnawaz A. Siddiqui, 2019-01-01. Islam's brilliant contributions to science, art and culture are a timeless and precious heritage which should be historically preserved for future generations. The great achievements of Muslim scholars are rarely if at all acknowledged in formal education and today their identity, origins and impact remain largely obscure. This collection of papers aims to give readers a brief introduction to the intellectual history of Muslims and the contributions that eminent Muslim scholars have made in certain specific fields of knowledge including basic and applied physical and biological sciences, medicine, legal and political theories and practices, economic and financial concepts, models and institutions etc. The preservation of civilization necessitates a better understanding, sharing and recognition of our common human heritage. Given today's widespread negative stereotyping and falsely generated misunderstanding of Islam and Muslims, the publication of these papers on Muslim Contributions to World Civilization is vital to help repair the wrong that is being
