

The background of the cover is a photograph of a stone wall, possibly made of slate, which is heavily encrusted with large, white icicles. The icicles hang in thick, irregular layers from the horizontal stone courses. In the lower right foreground, a person is blurred, wearing a red beanie and a dark jacket, suggesting a winter setting. The overall tone is cold and textured.

Michael Van Valkenburgh Associates Reconstructing Urban Landscapes:

Michael Van Valkenburgh Associates Anita Berrizbeitia, 2009 Explores the responses of a world renowned landscape design firm to the difficult demands of urban areas Instilling a poetics of place is a goal of Michael Van Valkenburgh Associates MVVA the famous landscape design firm that has created successful public spaces in some of the country's most challenging urban sites In these locations nature offers not so much an escape from city living as a teasing dialogue with built structures The whole experience is aimed as critic Paul Goldberger notes to make you see everything city and nature alike with a striking intensity Richly illustrated and handsomely designed this is the first publication to explore a wide range of MVVA's projects focusing on the firm's trend toward sites requiring complex technological solutions Leading critics and historians look at twelve projects dating from 1992 to the present and each posing a challenge such as contamination isolation and lengthy public approval proceedings They explore the process through which the firm researches such issues and how solutions are embedded in the final aesthetics and spatial structure of the sites **Michael Van Valkenburgh**

Associates Jane Amidon, 2005-11-11 In the field of landscape architecture there is no more distinguished voice than Michael Van Valkenburgh and it therefore seems appropriate that we begin this new Source Books in Landscape series with his recently completed Allegheny Riverfront Park project for Pittsburgh Pennsylvania As part of the city's efforts to restore its downtown district and riverfront Van Valkenburgh along with artists Ann Hamilton and Michael Mercil developed an ambitious plan to reform the wasted land along the river into an urban refuge The celebrated collaboration between landscape architect and artist produced a thoughtful useful and beautiful park that has successfully renewed the city's core Source Books in Landscape Architecture produced in collaboration with Ohio State University will provide detailed documentation of important new projects following its development from conception through completion using sketches drawings models renderings working drawings and photographs *Landscapes of Change* Roxi Thoren, 2014-12-21 Climate change natural resource use population shifts and many other factors have all changed the demands we place on landscape designs Projects now have to help connect neighborhoods absorb stormwater cool urban centers and provide wildlife habitats *Landscapes of Change* examines how these challenges drive the design process inspire new design strategies and result in innovative works that are redefining the field of landscape architecture In 25 case studies from around the world Roxi Thoren explores how the site can serve as the design generator describing each project through the physical material ecological and cultural processes that have shaped the site historically and continue to shape these ground breaking projects **Now Urbanism** Jeffrey Hou, Benjamin Spencer, Thaisa Way, Ken Yocom, 2014-10-10 After more than a century of heroic urban visions urban dwellers today live in suburban subdivisions gated communities edge cities apartment towers and slums The contemporary cities we know are more often the embodiment of unexpected outcomes and unintended consequences rather than visionary planning As an alternative approach for rethinking and remaking today's cities and regions this book explores

the intersections of critical inquiry and immediate substantive actions The contributions inside recognize the rich complexities of the present city not as barriers or obstacles but as grounds for uncovering opportunity and unleashing potential Now Urbanism asserts that the future city is already here It views city making as grounded in the imperfect messy yet rich reality of the existing city and the everyday purposeful agency of its dwellers Through a framework of situating grounding performing distributing instigating and enduring these contributions written by a multidisciplinary group of practitioners and scholars illustrate specificity context agency and networks of actors and actions in the re making of the contemporary city

Urbanization, Biodiversity and Ecosystem Services: Challenges and Opportunities Thomas Elmqvist,Michail Fragkias,Julie Goodness,Burak Güneralp,Peter J. Marcotullio,Robert I. McDonald,Susan Parnell,Maria Schewenius,Marte Sendstad,Karen C. Seto,Cathy Wilkinson,2013-09-21 Urbanization is a global phenomenon and the book emphasizes that this is not just a social technological process It is also a social ecological process where cities are places for nature and where cities also are dependent on and have impacts on the biosphere at different scales from local to global The book is a global assessment and delivers four main conclusions Urban areas are expanding faster than urban populations Half the increase in urban land across the world over the next 20 years will occur in Asia with the most extensive change expected to take place in India and China Urban areas modify their local and regional climate through the urban heat island effect and by altering precipitation patterns which together will have significant impacts on net primary production ecosystem health and biodiversity Urban expansion will heavily draw on natural resources including water on a global scale and will often consume prime agricultural land with knock on effects on biodiversity and ecosystem services elsewhere Future urban expansion will often occur in areas where the capacity for formal governance is restricted which will constrain the protection of biodiversity and management of ecosystem services

River.Space.Design Martin Prominski,Antje Stokman,Daniel Stimberg,Hinnerk Voermanek,Susanne Zeller,Katarina Bajc,Nengshi Zheng,2023-03-20 Urban riverbanks are attractive locations and highly prized recreational environments However they must meet the requirements of flood control open space design and ecology at the same time often a challenging task for the designer in very confined spaces The book the result of a study lasting several years subjects more than 60 exemplary projects to a comparative analysis The result is a systematic catalogue of strategies and innovative design tools The designer and planner thus obtains an overview of the range of design possibilities Eight new case studies from China Italy New Zealand the Netherlands Germany and Switzerland were selected and added for the enlarged edition of this reference work on riverbank design

Landscape Architecture Criticism Jacky Bowring,2020-04-29 Landscape Architecture Criticism offers techniques perspectives and theories which relate to landscape architecture a field very different from the more well known domains of art and architectural criticism Throughout the book Bowring delves into questions such as how do we know if built or unbuilt works of landscape architecture are successful What strategies are used to measure the success or failure and by whom Does design criticism

only come in written form It brings together diverse perspectives on criticism in landscape architecture establishing a substantial point of reference for approaching design critique exploring how criticism developed within the discipline Beginning with an introductory overview to set the framework the book then moves on to historical perspectives the purpose of critique theoretical positions ranging from aesthetics to politics and experience unbuilt projects techniques and communication Written for professionals and academics as well as for students and instructors in landscape architecture it includes strategies diagrams matrices and full colour illustrations to prompt discussion and provide a basis for exploring design critique

Landscape and Infrastructure Margaret Birney Vickery,2019-10-03 Landscape and Infrastructure examines the relationships between landscape painting and landscape design from the seventeenth century to the present and contemporary infrastructure projects around the globe These seemingly disparate subjects are united by a shared concern for the pastoral middle ground a traditionally productive landscape By focusing an art historical lens on pre industrial productive systems and the effects of the Industrial Revolution on the pastoral landscape tradition we can gain a better understanding of how to weave new approaches to productive infrastructure systems such as power generation water filtration and food production into our contemporary landscapes With rising demand for clean energy clean water and locally grown food this study offers a historical perspective on how such systems can be integrated into our suburban and urban areas Vestigial elements of the pastoral tradition have long held aesthetic sway in our suburbs cities and national parks both in Britain and America Now as new energy and water related projects encroach on these spaces remnants of the pastoral play a crucial role in convincing neighborhood residents municipal leaders and energy companies or water authorities of the benefits of a neighboring infrastructure This book investigates the history of that tradition and highlights the advantages it brings as we re imagine infrastructure in the twenty first century

Genius Loci John Dixon Hunt,2022-10-24 From literature to landscape architecture an expansive contemplative exploration of the significance of place For ancient Romans genius loci was literally the genius of the place the presiding divinity who inhabited a site and gave it meaning While we are less attuned to divinity today we still sense that a place has significance In this book eminent garden historian John Dixon Hunt explores genius loci in many settings including contemporary land art the paintings of Paul and John Nash travel writers such as Henry James Paul Theroux and Lawrence Durrell on Provence Mexico and Cyprus and landscape architects who invent new meanings for a site This book is a nuanced thoughtful exploration of how places become more significant to us through the myriad ways we see talk about and remember them

Manhattan's Public Spaces Ana Morcillo Pallarés,2021-11-29 Manhattan s Public Spaces Production Revitalization Commodification analyzes a series of architectural works and their contribution to New York s public space over the past few decades By exploring a mix of urban mechanisms supportive frameworks legal systems and planning guidelines for the transformation of the city s collective realm the text frames Manhattan as a controversial landscape of interests and concerns to authorities communities and very importantly

developers The production revitalization and commodification of Manhattan's public spaces as a phenomenon and as a subject of study also highlights the vicissitudes of the reconciliation of the many different agents which are part of the process The challenge of the book does not only lie in the analysis of good design but more importantly in how to understand the functional mechanisms for the current trends in the production of space for public use A complex framework of actors governance and market monopolies which invites the reader to participate in the debate of how these interventions contribute or not to an inclusive environment anchored in the existing built fabric Manhattan's Public Spaces invites reflection on the revitalization of the city's shared space from all dimensions Beautifully illustrated in black and white with over 50 images this book will be of interest to scholars and students in architecture planning and urban design *The Designer's Field Guide to Collaboration* Caryn Brause, 2016-11-18 The Designer's Field Guide to Collaboration provides practitioners and students with the tools necessary to collaborate effectively with a wide variety of partners in an increasingly socially complex and technology driven design environment Beautifully illustrated with color images the book draws on the expertise of top professionals in the allied fields of architecture landscape architecture engineering and construction management and brings to bear research from diverse disciplines such as software development organizational behavior and outdoor leadership training Chapters examine emerging and best practices for effective team building structuring workflows enhancing communication managing conflict and developing collective vision all to ensure the highest standards of design excellence Case studies detail and reflect on the collaborative processes used to create award winning projects by Studio Gang Perkins Will Tod Williams Billie Tsien Architects Partners Gensler CDR Studio Mahlum Architects In Site Architecture and Thornton Tomasetti's Core Studio The book also provides pragmatic ideas and formal exercises for brainstorming productively evaluating ideas communicating effectively and offering feedback By emphasizing the productive influence and creative possibilities of collaboration within the changing landscape of architectural production the book proposes how these practices can be taught in architecture school and expanded in practice In a changing world that presents increasingly complex challenges optimizing these collaborative skills will prove not only necessary but crucial to the process of creating advanced architecture **A World of Gardens** John Dixon Hunt, 2014-05-14 A Japanese garden is immediately distinct to the eye from the traditional gardens of an English manor house just as the manicured topiaries of Versailles contrast with the sharp cacti of the American Southwest Though gardening is beloved the world over the style of gardens themselves varies from region to region determined as much by culture as climate In this series of illustrated essays John Dixon Hunt takes us on a world tour of different periods in the making of gardens Hunt shows here how cultural assumptions and local geography have shaped gardens and their meaning He explores our continuing responses to land and reworkings of the natural world encompassing a broad range of gardens from ancient Roman times to early Islamic and Mughal gardens from Chinese and Japanese gardens to the invention of the public park and modern landscape architecture A

World of Gardens looks at key chapters in garden history reviewing their significance past and present and tracing the recurrence of different themes and motifs in the design and reception of gardens throughout the world A World of Gardens celebrates the idea that similar experiences of gardens can be found in many different times and places including sacred landscapes scientific gardens urban gardens secluded gardens and symbolic gardens Featuring two hundred images this book is a treasure trove of ideas and inspiration whether your garden is a window box a secluded backyard or a daydream

Captured by the City Blagovesta Momchedjikova, 2013-12-05 Captured by the City Perspectives in Urban Culture Studies is a collection of eighteen essays on urban places people and phenomena In it cities in North America Europe and Asia offer themselves as dynamic encounters to those who study them and to those who live in them on a daily basis Different disciplines Sociology Anthropology Performance Studies Architectural History Linguistics Media Studies Documentary Poetics to name just a few intersect here to help shape a unique field of inquiry that of Urban Culture Studies This multi perspectival approach grants us a more wholesome understanding of how we inscribe cities and how cities inscribe us in return as we plan inhabit remember them in reality or in dreams

Walking To Know Germán T. Cruz, 2012-05-14 This book represents a transformational experience presented in the form of a broad meditation upon a walking pilgrimage by an experienced designer on the Camino de Santiago Tinted with a scholarly lens and a travelogue commentary on places and events during the journey the work pursues a wider awareness of design purpose and perception based on immediate and past experience The use of the word pilgrimage denotes the nature of the journey beyond mere physical effort and near an extraordinary spiritual and mental enterprise The emphasis is on walking either physically or figuratively as a means to the achievement of design knowledge that more fully informs awakens and utilizes the body and the senses to produce a superior design articulation The journey took ten years in preparation with only three months in execution however it was not a search for enlightenment as much as it was led by a sincere desire to know and to see To know first hand the places and the people as well as to see the land up close in a manner of receiving a legacy of centuries of presence culture and testimony Truly to partake of the experience of thousands of other pilgrims across 10 centuries and understand their journeys not so much as just a walk of faith but also an enduring legacy that has had critical impact upon design practice In this manner the design activity is seen more properly understood as a pilgrimage rather than an occupation or a classified profession For organizational purposes the book consists of two major sections that complement one another and serve to clarify and amplify both text and testimony Section One addresses issues of design interest in a holistic rather than a technical manner while Section Two presents a narrative of the experience that serves to place the journey in focus The symbiotic engagement between the two sections results in a richer narrative of causality that affirms purpose and consequence of journey Many conclusions are left to the reader and no strict delimitation is made of discussion boundaries except for the centrality of truth and the guiding power of passion Without a doubt this book is about open and truthful personal quests and does not conform

to overriding socio political frameworks of dialogue Insight is extracted from the author s experience and scholarship across 40 plus years that results in an animated and challenging dialogue along with a vast and diverse bibliography with works of varied provenance that served to emphasize and support salient and outstanding concepts and ideas with bearing on the quest The intention was not to produce a treatise or a guidebook but rather to express an experience and its consequences upon a person a mind and a spirit with benefit to design *Selected Works* Michael Van Valkenburgh Associates,2004*
