high speed Fabricio Sales Silva, 2025-04-01 You know I'm often asked what it takes to win Some think it's talent Others luck And there are those who believe that the secret is in the machine in the car in the engine But the truth is that winning goes far beyond that Winning for me has always been a matter of spirit A quiet commitment to excellence An agreement you make with yourself to give everything you have even when no one is looking even when the whole world doubts you I was called cold calculating They said I thought like an engineer and piloted like a predator Perhaps they are right I liked to understand every detail of the car to feel every vibration every strange noise as if the car spoke to me And when you respect what you do so much perfection is not a destiny it is an obligation But don't think it was easy I faced losses accidents judgments mistakes I made mistakes Many But I learned that falling is part of the path and that getting up always is a choice Life is like that A race full of invisible obstacles Sometimes you start last Sometimes the tire goes flat the weather changes the engine fails But if you stay focused if you believe that every difficult corner is part of building something bigger then sooner or later you'll see the chequered flag waving at you **Sports around the World** John Nauright, 2012-04-06 This multivolume set is much
